1991 CENSUS QUESTIONS

and the reasons why questions are asked

INTRODUCTION

The Census will be taken on June 4, 1991. The questions the Census asks and the answers people give will set the information stage for the 1990s. The Census will provide a benchmark for virtually all the statistics used in this country.

Part 1

The first part of this booklet contains the text of the questions which will appear in the 1991 Census of Population questionnaires. Copies of the questionnaires may be obtained after *November 1*, 1990 by contacting your local Statistics Canada office.

In addition to the questions answered by the household, Census Representatives will collect information on the structural dwellings types. Specifically, dwellings will be classified into nine different types such as single-detached houses, apartments in buildings of five of more storeys, mobile or other moveable homes.

Part 2

When Census questionnaires are dropped off at Canadian homes, they will include detailed instructions on how to complete the questions, as well as explanations of the reasons why each question is asked. These explanations are found in Part 2 of this booklet.

The Census of Agriculture will be conducted at the same time as the Census of Population on June 4. Information from the Census of Agriculture is used to defend farm interests in international trade negotiations as well as in providing private and public services to the farm industry. Taking both Censuses together saves tax dollars and provides a picture of farm and rural life that few countries can equal.

If you have questions about the 1991 Census of Population or Census of Agriculture, call or write your nearest office of Statistics Canada, or contact:

1991 Census Communications and Marketing Project 3E R. H. Coats Building, Tunney's Pasture Statistics Canada, Ottawa, Ontario, K1A 0T6

Part 1 1991 CENSUS QUESTIONS

1991 CENSUS QUESTIONS

STEP 1

Please complete address or exact location:	
No. and street or lot and concession	Apt. No.
City, town, village, Indian reserve	Province or territory
Postal code	Telephone number Area code
STEP 2	
How to complete this questionnaire	
To answer the questions: Mark a circle	<u>O</u>
OR Enter a number in a box	
OR Print in a box	
STEP 3	
If all persons in this household are foreign rest mark here	
Foreign residents are:	
 government representatives of another cocommission or other diplomatic body of that members of the Armed Forces of another cotheir families; 	t country in Canada, and their families;
• residents of another country visiting in Car	ada temporarily.
STEP4	
If all persons in this household are <u>staying here</u> a usual home somewhere else in Canada, enter	the total number of persons
in this box	

STEP 5

List below all persons who usually live here as of Tuesday, June 4, 1991.

BE SURE TO INCLUDE:

- children, relatives, room-mates, boarders and live-in employees;
- anyone temporarily away on June 4, including students away at school, or a husband, wife or others working away from home;
- anyone who stayed here overnight between June 3 and June 4, who has no usual home somewhere else:
- anyone who is now in an institution, such as a hospital, a home for the aged or a prison, but only if that person was admitted after December 4, 1990.

Don't forget to include yourself!

BEGIN THE LIST WITH:

- either the husband, wife or common-law partner of a couple living here; or
- the parent, where one parent lives with his/her never-married son(s) or daughter(s).

If neither of the above applies, begin with any adult living here.

CONTINUE THE LIST WITH:

- the wife, husband or common-law partner of Person 1;
- never-married children of Person 1 (including adopted and stepchildren);
- other relatives of Person 1 and members of their families, if living here;
- persons not related to Person 1 and members of their families, if living here.

(I)	What	are the monthly condominium	fees?				
	0	None	OR	Dollars Cents per month			

STEP 12

Question H8

You have now completed your questionnaire. Please mail it today. Thank you for your co-operation.

Part 2

REASONS WHY QUESTIONS ARE ASKED

Reasons why questions are asked

Step 1

We need your address to make sure that every household has been counted. Your telephone number allows us to contact you if any information is missing from your form.

Step 3

It is important for us to ask this question because only Canadian residents are included in the census.

Step 4 to 7

We ask Steps 4 to 7 to make sure that everyone is counted once, and only once. In this way we will have a complete count of the Canadian population.

Step 8

This information is used to identify farm operators for the Census of Agriculture.

Question 1: NAME

Names are used in case we have to contact the household when answers about a particular person are not clear or are incomplete.

Question 2: RELATIONSHIP TO PERSON 1

The relationships between household members tell us how many family, non-family and one-person households there are in Canada. This information is used to plan social programs such as old age security and family allowances. It also identifies future needs for housing and community services ranging from health and education to recreation and transportation.

Question 3: DATE OF BIRTH

Information on age is needed to help us plan for such community needs as day care facilities, schools and senior citizens' housing.

Question 4: SEX

Information classified by sex is needed to understand the changing roles of men and women in our families, communities and in the work-force.

Question 5: LEGAL MARITAL STATUS

Information on legal marital status, when combined with other census questions, is used to study changes in family formation and to measure, among other things, the growth and structure of two-income families, lone-parent families and the elderly who live independently.

Question 6: COMMON-LAW STATUS

We ask this question to better understand the growth and structure of this important change in living arrangements.

Question 7: OFFICIAL LANGUAGES

This question indicates how many Canadians can communicate in English, French or both. It also provides information on the number of people who speak neither English nor French. The information is used to determine the need for language education and services in English or French.

Question 8: KNOWLEDGE OF OTHER LANGUAGES

The results from this question will indicate how many Canadians can communicate in languages other than English or French. This information is used to assess language diversity and retention.

Question 9: HOME LANGUAGE

Information on the languages Canadians speak at home provides important data on language use and language shifts.

Question 10: LANGUAGE FIRST LEARNED AT HOME

This information is used in programs which protect the rights of Canadians under the Canadian Charter of Rights and Freedoms.

Question 11: PLACE OF BIRTH

Information on place of birth, when combined with information from other census questions, can be used to review employment and immigration policies and programs, and to plan education, health and other services.

Question 12: CITIZENSHIP

Information on citizenship helps in planning for elections since, when combined with age data, this information can reveal the number of potential voters. It is also used by those who plan citizenship classes and programs.

Question 13: LANDED IMMIGRANT
Question 14: YEAR OF IMMIGRATION

We ask Questions 13 and 14 because information on immigration, when combined with data from other census questions, can be used to study the characteristics of Canada's immigrant population. Information on period of immigration is also important for studies of immigration trends.

Question 15: ETHNIC ORIGIN

This question provides information which can be used extensively by ethnic or cultural associations to study the size, location, characteristics and other aspects of their respective groups.

Question 16: REGISTERED INDIAN

This question identifies those persons who are registered under the Indian Act of Canada and their band or First Nation affiliations in order to determine this population's social and economic characteristics and its geographical distribution.

Question 17: RELIGION

Information or religion is used to trace fundamental changes in Canadian society. When combined with age data, information on religion is used to assess the need and potential for separate religious schools in some provinces. Federal and provincial human rights legislation depends on this information to protect Canadians from discrimination based on their religious beliefs.

Question 18 and 19: ACTIVITY LIMITATIONS

Questions 18 and 19 provide new information on the numbers of mentally and physically disabled Canadians as well as those with chronic health problems which limit activity. The results will be used to help Statistics Canada design new surveys to find out more about the barriers persons who are disabled face in their everyday lives.

Question 20: MOBILITY PLACE OF RESIDENCE ONE YEAR AGO

Question 21: MOBILITY SAME OR DIFFERENT ADDRESS FIVE YEARS AGO

Question 22: MOBILITY PLACE OF RESIDENCE FIVE YEARS AGO

We ask Questions 20 to 22 to get a picture of where Canadians are moving to and from, and who is moving in terms of age, sex, education, occupation, etc. This information is important to all levels of government, to municipal planners, as well as to various private sector businesses. It is used in determining future needs for such things as housing, education and social services.

Question 23: NUMBER OF BIRTHS

Information on the number of children born to women is used to estimate the long-term growth of the population. Such information is also needed for understanding the differences in childbearing patterns between various social and economic groups.

Question 24: HIGHEST LEVEL OF ELEMENTARY OR SECONDARY SCHOOLING

Question 25: YEARS OF SCHOOLING (UNIVERSITY)

Question 26: YEARS OF SCHOOLING (OTHER)

Question 27: SCHOOL ATTENDANCE

Question 28: DEGREES

A Committee of the Committee of

Question 29: FIELD OF SPECIALIZATION

We ask Questions 24 to 29 because finding out the educational qualifications of Canadians helps us to understand the make-up of the labour force (whether we have an abundance or a lack of human resources in a particular area). The results are used to plan schools and training programs in response to the changing technological needs of our work-force.

Information on the trends in college and university attendance by those aged 15 and over is vital for the planning and financing of postsecondary and adult education in both full-time and part-time programs.

Question 30: NUMBER OF HOURS WORKED

Question 31: WORK ABSENCE

Question 32: NEW JOB ARRANGEMENTS

Question 33: RECENT JOB SEARCH

Question 34: AVAILABILITY FOR WORK

We ask Questions 30 to 34 because labour force data are useful in the development of social and economic programs. Information on the labour force, its composition and characteristics is one of the most widely requested blocks of census data.

The census is recognized as a valuable source of detailed labour information and the only source of this information for small geographic areas. For example, federal, provincial and local day care programs require data (for small areas) on the employment of persons in households and families so that they can assess the need for such services and plan for their delivery.

Question 35: LAST DATE OF WORK

Information on the last period of work is used to identify persons with recent job experience. This information can be combined with other data such as industry and occupation to provide a profile of Canada's labour supply.

Question 36: NAME OF EMPLOYER Question 37: KIND OF BUSINESS

Questions 39 and 40: KIND OF WORK AND MOST IMPORTANT DUTIES

We ask Questions 36, 37, 39 and 40 because detailed information on industry and occupation make it possible for us to analyze and look ahead to the future demand for jobs based on industry growth trends. This information is essential for developing and evaluating programs such as those concerned with education, human resource and affirmative action.

Question 38: PLACE OF WORK

Information on a person's place of work is used to show local and regional commuter patterns and to determine what transportation networks would be needed to service the demand.

Question 41: CLASS OF WORKER

Question 42: INCORPORATION STATUS

We ask Questions 41 and 42 to learn about the contribution of paid and self-employed workers in various industry and occupation groups. The dependence of industries such as agriculture and retail trade on unpaid family workers can also be determined.

Question 43: WEEKS WORKED

Question 44: FULL TIME/PART TIME

We ask Questions 43 and 44 because information on the number of weeks worked full time or part time is important in evaluating grends in such areas as seasonal or part-time work.

Question 45: INCOME IN 1990

Information on income provides the most important indicator of the well-being of Canadians: of men and women, young and old, of trades and office workers, artists and scientists and of families and households. No other source — not even income tax records — can provide this level of detail.

Governments use the detailed analysis made possible by the census to develop income support programs, welfare provisions and social services.

Businesses use census income data in marketing products, in locating retail and wholesale sites near the appropriate groups of consumers, and in developing new products and services.

H1. to H8.: HOUSING

Shelter is one of the basic necessities of life and these questions are asked in order to evaluate present conditions and future housing needs. The data compiled from these questions are used by municipal planners, provincial housing ministries, developers, and members of the construction and real estate industries.

H3. NUMBER OF ROOMS AND BEDROOMS

Information of the number or rooms/bedrooms in houses across Canada, when combined with data on the number of persons in households as well as shelter costs, provides another dimension for measuring the economic situation of Canadian families and, in particular, for measuring crowding and the quality of life.

H4. PERIODS OF CONSTRUCTION

H5. NEED FOR REPAIRS

We ask Questions H4 and H5 because specific details such as period of construction and state of repair are important for evaluating the quality of Canada's housing stock and for identifying the need for neighbourhood improvement programs.
