

## Migratory Birds Hunting Regulations, 2014–2015

## Summary

The information presented here is a summary of the law. If there is a discrepancy between the law and this summary, the law prevails. For complete information on fines, general prohibitions, permitted hunting methods and equipment, the requirement to have adequate means to retrieve birds immediately, restrictions on the use of bait, the description of hunting zones and other restrictions on hunting, please refer to the *Migratory Birds Convention Act, 1994* and *Migratory Birds Regulations*. These, along with other useful information for hunters, can be found on the Environment Canada website ([www.ec.gc.ca](http://www.ec.gc.ca)), or you may contact:

Environment Canada  
Canadian Wildlife Service

### Waterfowl and Snipe Hunting Zones

“Coastal” refers to that portion of the coast lying within 100 metres of the mean ordinary high-water mark, including the coastal portions of offshore islands and the adjacent marine coastal waters.

You are required to possess a valid federal Migratory Game Bird Hunting Permit with a Canadian Wildlife Habitat Conservation Stamp to hunt migratory birds in Canada. This permit and stamp are valid in all provinces and territories. The Province of Newfoundland and Labrador, and the Nunatsiavut Government, have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory where you will be hunting. Note that all required permits and licences must be in your possession while you are hunting.

### Consultation Process and Migratory Birds Regulatory Reports

The hunting provisions of the *Migratory Birds Regulations* are reviewed by Environment Canada, with input from the provinces and territories, as well as a range of other interested stakeholders. Environment Canada has developed a consultation process for establishing hunting regulations for migratory birds, and publishes the Migratory Birds Regulatory Report Series that can be found on the Environment Canada website ([www.ec.gc.ca](http://www.ec.gc.ca)).

### IMPORTANT UPDATES TO THE HUNTING REGULATIONS FOR NEWFOUNDLAND AND LABRADOR

**Daily bag limits for American Black Ducks in Newfoundland:** The daily bag limit is set at 4 for the entire open season.

**Barrow's Goldeneye** is listed in the *Species at Risk Act* as a species of special concern, and the **bag and possession limit of 1** remains in place.

For complete details regarding the 2014–2015 hunting season, please refer to the Open Season and Bag and Possession Limit tables below.

**Waterfowler Heritage Day** provides young hunters under the age of majority with the opportunity to practise hunting and outdoor skills, learn about wildlife conservation, and reinforce safety training in a structured, supervised environment. Licensed adult hunters who serve as mentors have an opportunity to pass on their considerable skills and knowledge by offering guidance and advice to younger hunters. The following rules are in effect:

- to participate, young hunters under the age of majority do not require the federal Migratory Game Bird Hunting Permit;
- young participants must comply with all existing safety and licensing requirements found in the *Firearms Act* and provincial hunting regulations;
- participants must be accompanied by a licensed mentor over the age of majority; and
- mentors may not hunt or carry a firearm, and may accompany no more than two young hunters.

**Murre (turr) hunters:** All hunters must purchase and be in possession of a Migratory Game Bird Hunting Permit and a Habitat Conservation Stamp while hunting murre. This hunt is only open to **residents** of Newfoundland and Labrador. Murres are the only migratory bird that can be legally hunted from a power boat. Any occupant of a boat who shoots or retrieves murre, or anyone who operates a boat to pursue murre, is hunting as defined in the *Migratory Birds Regulations* and is **required** to hold a Migratory Game Bird Hunting Permit.

In Newfoundland and Labrador, **non-toxic shot must be used** to hunt migratory birds, except for murre (turrs). For those birds still hunted with lead shot, remove the lead shot before cooking whenever possible in order to reduce your exposure to contaminants.

## CRIME STOPPERS

Hunting violations may be reported to Environment Canada Wildlife Enforcement at 709-772-7040, your local RCMP detachment, or Crime Stoppers at 1-800-222-TIPS (8477).
