Map projection

Joint initiative
the British
Natural G
Branch, co
Sedime
Resources

of the Geological Survey of Canada and
Columbia Ministry of Energy, Mines and
as, Geoscience and Strategic Initiatives
nducted under the auspices of the Yukon
ntary Basins project as part of Natural
s Canada's Geo-mapping for Energy and
Minerals (GEM) program.

Magnetic declination 2013, 20°44'E,
decreasing 21.0' annually.

The Geological Survey of Canada welcomes
corrections or additional information from users.

The data may include additional observations not
portrayed on this map.
See documentation accompanying the data.
Additional descriptive notes and references
are included in the map information document.

Preliminary publications in
this series have not been
scientifically edited.
