

LOUISIANA-CANADA

AGRICULTURAL TRADE = \$224 MILLION IN 2014

Let's keep a good thing growing!

Louisiana exported \$154 million to Canada, including:

- \$80M in coffee
- \$32M in palm oil
- \$13M in frozen vegetables
- \$7M in sauces and condiments
- \$7M in rice

Louisiana imported \$70 million from Canada, including:

- \$24M in canola oil
- \$19M in alcoholic beverages (including \$12M in whiskies)
- \$6M in baked goods
- \$5M in wheat
- \$5M in malt

**Trade and investment with Canada
= 95,900 jobs in Louisiana**

A Strong Partnership in Trade:

- Since 2005, agriculture and agri-food trade between the U.S. and Canada has more than quadrupled, leading to significant changes in trade patterns and resulting in a more integrated North American marketplace.
- The U.S. and, in particular, Louisiana has benefited from this strong relationship - with Canada purchasing over \$26B in agriculture and agri-food products from the U.S. in 2014, of which \$154M came from Louisiana.
- Supply chains that cross our shared border are cost-effective and efficient because of the proximity to each other's agricultural inputs and products. For example, Canada is a major supplier of energy and fertilizers, while the U.S. equips Canada with farm machinery and crop protection technologies.
- Access to Canadian cattle, hogs, and oilseeds allows American feedlots, finishers, and crushing plants to run at capacity, supporting U.S. jobs.

M = Million

B = Billion

Data source: U.S. Census Bureau

All figures in U.S. dollars and based on 2014 data (as of May 2015), including re-exports.
