

NEVADA-CANADA

AGRICULTURAL TRADE = \$125 MILLION IN 2014

Let's keep a good thing growing!

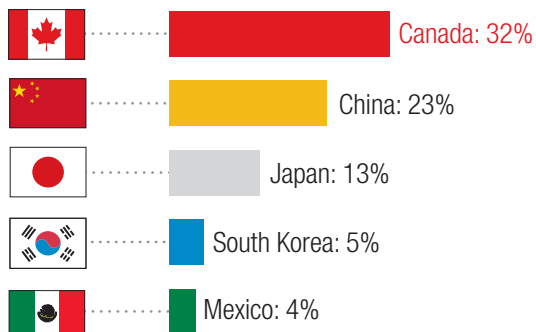

Nevada exported \$64 million to Canada, including:

- \$29M in baked goods
- \$10M in beverages (including \$6M in cordials and liqueurs)
- \$7M in chocolate products
- \$3M in onions
- \$3M in sauces and condiments

Nevada imported \$61 million from Canada, including:

- \$14M in food preparations*
- \$13M in baked goods
- \$4M in canola oil
- \$4M in vegetables (including \$2M in mushrooms)
- \$4M in alcoholic beverages (including \$3M in whiskies)

Nevada's top agriculture and agri-food export markets:

A Strong Partnership in Trade:

- Since 2005, agriculture and agri-food trade between the U.S. and Canada has more than quadrupled, leading to significant changes in trade patterns and resulting in a more integrated North American marketplace.
- The U.S. and, in particular, Nevada has benefited from this strong relationship - with Canada purchasing over \$26B in agriculture and agri-food products from the U.S. in 2014, of which \$64M came from Nevada.
- Supply chains that cross our shared border are cost-effective and efficient because of the proximity to each other's agricultural inputs and products. For example, Canada is a major supplier of energy and fertilizers, while the U.S. equips Canada with farm machinery and crop protection technologies.
- Access to Canadian cattle, hogs, and oilseeds allows American feedlots, finishers, and crushing plants to run at capacity, supporting U.S. jobs.

Trade and investment with Canada = 82,800 jobs in Nevada
