## NORTH DAKOTA'S TOP AGRICULTURAL EXPORT MARKETS

## BILATERAL TRADE SUPPORTS INCREASED SECTOR SPECIALIZATION, INTEGRATION AND EFFICIENCIES

The integration of North Dakota-Canada supply chains is at the heart of our successful trading relationship in agriculture. One example is the canola industry, where Canada is the world's largest exporter of canola seeds and the state of North Dakota is the world's eighth largest exporter of canola oil. In 2010, North Dakota imported \$227 million of Canadian canola seeds, and exported \$200 million of canola oil back to Canada. The bilateral trading relationship between North Dakota and Canada ensures that both can further develop their areas of specialization and can supply each other with high quality agricultural products.
