BILATERAL TRADE SUPPORTS INCREASED SECTOR SPECIALIZATION, INTEGRATION AND EFFICIENCIES

The integration of Tennessee-Canada supply chains is at the heart of our successful trading relationship in agriculture. One example is the preparation of baking materials. In 2010, Tennessee imported \$41 million of Canadian mixes and dough, and exported \$43 million of breads and pastries back to Canada. The bilateral trading relationship between Tennessee and Canada ensures that both can further develop their areas of specialization and can supply each other with high quality agricultural products.
