**A Strong Partnership in Trade:**

- Since 2005, agriculture and agri-food trade between the U.S. and Canada has more than quadrupled, leading to significant changes in trade patterns and resulting in a more integrated North American marketplace.
- The U.S. and, in particular, West Virginia has benefited from this strong relationship - with Canada purchasing over \$26B in agriculture and agri-food products from the U.S. in 2014, of which \$4M came from West Virginia.
- Supply chains that cross our shared border are cost-effective and efficient because of the proximity to each other's agricultural inputs and products. For example, Canada is a major supplier of energy and fertilizers, while the U.S. equips Canada with farm machinery and crop protection technologies.
- Access to Canadian cattle, hogs, and oilseeds allows American feedlots, finishers, and crushing plants to run at capacity, supporting U.S. jobs.

**Trade and investment with Canada = 40,400 jobs in West Virginia**

**K** = Thousand

**M** = Million

**B** = Billion
