

WISCONSIN-CANADA

AGRICULTURAL TRADE = \$2.5 BILLION IN 2014

Let's keep a good thing growing!

Wisconsin exported \$1.6 billion to Canada, including:

- \$237M in fur skins (including \$194M in mink)
- \$206M in ethanol
- \$154M in prepared meat (including \$64M in sausage)
- \$146M in food preparations*
- \$116M in beverages

Wisconsin imported \$875 million from Canada, including:

- \$111M in live animals (including \$70M in hogs)
- \$109M in fresh/frozen meat (including \$72M in beef)
- \$94M in fur skins (including \$90M in mink)
- \$73M in canola meal
- \$43M in oats

Wisconsin's top agriculture and agri-food export markets:

A Strong Partnership in Trade:

- Since 2005, agriculture and agri-food trade between the U.S. and Canada has more than quadrupled, leading to significant changes in trade patterns and resulting in a more integrated North American marketplace.
- The U.S. and, in particular, Wisconsin has benefited from this strong relationship - with Canada purchasing over \$26B in agriculture and agri-food products from the U.S. in 2014, of which \$1.6B came from Wisconsin.
- Supply chains that cross our shared border are cost-effective and efficient because of the proximity to each other's agricultural inputs and products. For example, Canada is a major supplier of energy and fertilizers, while the U.S. equips Canada with farm machinery and crop protection technologies.
- Access to Canadian cattle, hogs, and oilseeds allows American feedlots, finishers, and crushing plants to run at capacity, supporting U.S. jobs.

Trade and investment with Canada = 158,000 jobs in Wisconsin
