- \$16M in vegetables and legumes (including \$9M in peppers)
- \$10M in canola oil
- \$10M in wheat (including \$8M in non-durum wheat)

Colorado's top agriculture and agri-food export markets:

A Strong Partnership in Trade:

Canada is Colorado's top export market for its agricultural products. The integration of Colorado-Canada supply chains is at the heart of our successful trading relationship in agriculture. For example, Canada is the world's 2nd largest exporter of cattle and Colorado is the world's 19th largest exporter of beef. In 2013, Colorado imported \$27 million of Canadian cattle and exported \$234 million of fresh/frozen beef to Canada! The bilateral trading relationship between Colorado and Canada ensures that both can further develop their areas of specialization and supply each other with high-quality agricultural products. U.S.-Canada trade plays a major role in supporting jobs and prosperity for U.S. workers, businesses and families.

Trade with Canada = 102,700 Jobs in Colorado
