1. INTRODUCTION

Atomic Energy of Canada Limited (AECL) is an agent Crown corporation reporting to Parliament through the Minister of Natural Resources Canada. AECL is headquartered in Chalk River, Ontario and employs more than 3,300 full-time staff.

AECL provides value to Canadians as: an advisor to, and agent of, the Government of Canada for public policy purposes; an enabler of business innovation and technology transfer; and a generator of highly-qualified people.

AECL's vision is to be a global partner in nuclear innovation. The company's mandate is to ensure that Canadians and the world receive energy, health, environmental and economic benefits from nuclear science and technology, with confidence that nuclear safety and security are assured.

On September 1, 2007 the *Federal Accountability Act* amended the *Privacy Act* to include AECL. The purpose of the *Privacy Act* is to protect the privacy of individuals with respect to personal information about themselves held by AECL and provides individuals with a right to access and request correction to this information.

Section 72 of the *Privacy Act* stipulates that, at the end of each fiscal year, the head of each Government of Canada institution must prepare for submission to Parliament an annual report on the administration of this Act within their respective institution.

This *Privacy Act* annual report is prepared and tabled in accordance with section 72 of the *Privacy Act*. The report provides a summary of the management and activities related to the implementation of the *Privacy Act* within AECL for the fiscal year 2013-2014.

2013-2014 Highlights

- AECL received a total of 17 requests in 2013-2014 for personal information subject to the *Privacy Act*. Of the total 17 requests, 16 were completed and one was carried forward to the next fiscal year.
- Fifteen requests were completed within 30 days and one request was completed between 31 to 60 days. Six requests were disclosed in part and eight others were disclosed in full. AECL was unable to process one request as the requested information did not exist within AECL's custody and control and the last request was abandoned. A total of 1264 pages were reviewed.
- AECL worked to identify the collections of personal information. AECL registered nine new "Standard Personal Information Banks (PIBs)" and updated six "Institution Specific Personal Information Banks" with the Information and Privacy Policy Division at Treasury Board Secretariat.
- Two information sessions on the *Privacy Act* were given to approximately 45 employees and senior managers from the Low-Level Waste Management Office and the Port Hope Area Initiative Office.
- AECL did not disclose any personal information pursuant to subsection 8(2)(m) of the *Privacy Act*.
- In support of the decentralized self-publishing of institutional *Info Source* chapters, AECL's 2013-2014 *Info Source* Chapter can now be found on AECL's external website at <http://www.aecl.ca/en/home/news-and-publications/access-to-information/default.aspx>
- AECL has completed two Privacy Impact Assessments during this reporting period.

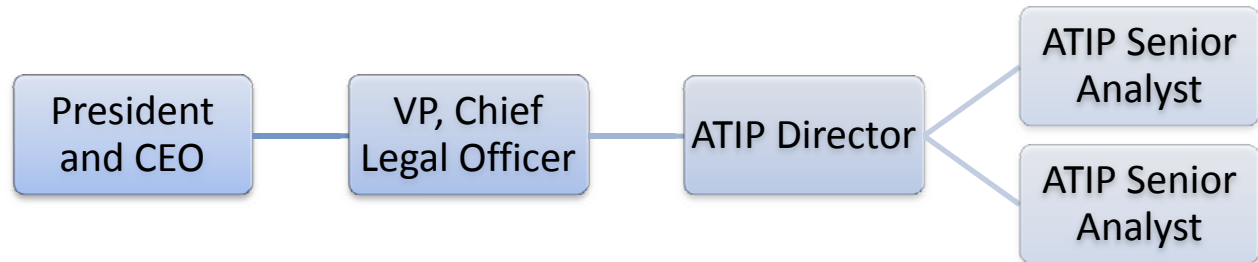

2. STRUCTURE OF AECL'S ACCESS TO INFORMATION AND PRIVACY OFFICE

AECL undertakes a series of Program Activities, identified below, that have been established to fulfil the company's strategic outcome. These programs are aligned with and support the Government of Canada's science and technology priorities for a clean and healthy environment; healthy Canadians; a safe and secure Canada; and an innovative and knowledge-based economy.

Nuclear Industry Capability	<i>Ensures that the Canadian nuclear sector remains safe and productive, with access to science and technology resources to address emergent technological challenges, and that Canada maintains a strong nuclear power sector.</i>
Nuclear Safety & Security	<i>Ensures that federal activities, regulations and policies, related to nuclear or radiological issues, are supported by the necessary expertise and facilities.</i>
Clean, Safe Energy	<i>Involves the development of energy technologies that make a beneficial impact on Canada's use of clean energy.</i>
Health, Isotopes & Radiation	<i>Ensures that Canadians experience health benefits from nuclear science and technology.</i>
Nuclear Environmental Stewardship	<i>Ensures that Canada's federal nuclear sites are clean and healthy environments.</i>
Nuclear Innovation Networks	<i>Ensures that the Canadian science and technology communities can advance their innovation agendas through access to federal nuclear innovation infrastructure and expertise.</i>
Mission-Ready Science & Technology Infrastructure	<i>Ensures that scientists and engineers from AECL and its partner organizations have access to licensed facilities and services that enable nuclear innovation and production in a safe campus environment that is fully compliant with all legislation for conducting nuclear-related activities.</i>
Internal Services	<i>Ensures the business and administrative support functions and infrastructure to enable the efficient and effective delivery of the above programs.</i>

To fulfill *Privacy Act* responsibilities, AECL established an Access to Information and Privacy (ATIP) Office (ATIPO) in Ottawa, Ontario. The ATIPO consists of two ATIP senior analysts along with a Director who reports directly to the Vice-President, Chief Legal Officer under the Internal Services program activity.

2.1 ATIP's Organizational Chart

2.2 Accountability of the Access to Information and Privacy Office

AECL uses the same organizational structure for the administration of the *Privacy Act* as the *Access to Information Act*. On behalf of the President & CEO, the ATIP Director and the ATIPO ensure that the Corporation meets all of its obligations under the *Privacy Act* and deals with all applicants fairly and consistently.

Information for a *Privacy Act* request is collected directly from the individual at AECL who holds that information. Approval of the application of exemptions is limited in order to protect the privacy of the applicant. The final decisions on severances, exemptions and exclusions are the responsibility of the ATIP Director.

2.2.1 Processing Procedures

The processing of *Privacy Act* requests is centralized at the ATIP Office in Ottawa. AECL's ATIP Director remains accountable for the development, coordination and implementation of effective policies, guidelines, systems and procedures that enable the efficient processing of requests under the *Access to Information* and *Privacy Acts*. The Director is also responsible for related policies, systems and procedures resulting from the *Acts*, such as privacy protection and the collection, inventory and security of personal information banks. The Director acts as the point of contact for the Institution in dealings with the ATIP Directorate at Treasury Board Secretariat and ATIP counterparts at Government of Canada departments and agencies.

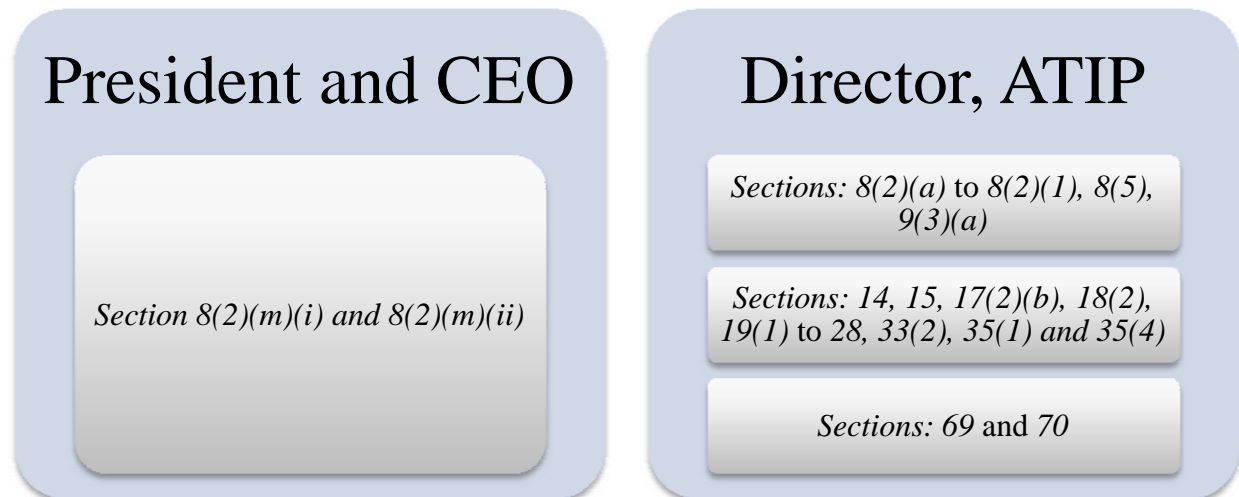

The ATIPO is responsible for integrating procedures and services for the efficient administration of the *Access to Information* and *Privacy Acts*. In addition to the processing of formal and informal requests, consultations and complaints, the ATIPO also provides advice and assistance to line operations on all aspects of the legislation, and prepares statistical and status reports for senior management.

All formal requests for personal information under the *Privacy Act* are forwarded to AECL's ATIPO, where they are reviewed for clarity and conformity with the legislation.

3. PRIVACY DELEGATION ORDER

Section 73 of the *Privacy Act* authorizes the head of AECL to designate, by order, one or more officers or employees to exercise or perform any powers, duties or functions of the head of AECL that are specified in the order. Delegation is entirely at the discretion of AECL's President & CEO. To ensure ongoing safeguarding and respect for the rights of applicants and the legislative provisions of the *Privacy Act*, the authority to disclose and/or exempt personal information is limited to the ATIP Director, except to approve disclosure of information in the public interest or to benefit the individual 8(2)(m)(i) and (ii).

4.2 Multi-Year Trends

5. TRAINING

AECL's ATIPO in collaboration with the Organizational Development and Training has implemented and registered the *Privacy Act* Awareness course under AWS-0030 to gain a total of three credit hours. This training is to inform AECL employees of the requirements of the *Privacy Act*. It is one of ATIPO's objectives to ensure that all AECL employees understand their obligations to the requirements of the *Privacy Act*. In addition, the training provides details on tight deadlines and the consultation process with other levels of government. Briefing sessions form an integral part of the ATIP communications and training objectives.

Two formal training sessions on the *Privacy Act* were given to approximately 45 employees and senior managers from the Low-Level Waste Management Office in Ottawa and the Port Hope Area Initiative Office in Port Hope.

The ATIPO also focused on additional Privacy training this reporting year. A Privacy Module has been incorporated in the security awareness on-line orientation course for new employees.

Informal briefing sessions are also given regularly by the Director during the process of retrieval and review of documents in response to *Privacy Act* requests.

6. INSTITUTION-SPECIFIC POLICIES, GUIDELINES AND PROCEDURES RELATED TO PRIVACY

AECL did not implement any new policies, guidelines or procedures related to privacy during the reporting period. Therefore, several Privacy Statements have been added to institution-specific forms collecting personal information.

Additionally, AECL continuously work to identify the collection of personal information. The institution registered nine new “Standard Personal Information Banks (PIBs)” and updated nine “Institution Specific Personal Information Banks” with the Information and Privacy Policy Division at Treasury Board Secretariat.

Furthermore, the Information and Privacy Policy Division launched a pilot project working group in January 2012 to work on the initial implementation of decentralized publishing requirements of *Info Source*. Following the success of the pilot project, TBS required institutions to self-publish their *Info Source* chapters. Following this new requirement, AECL’s 2013-2014 *Info Source* Chapter has been published on AECL’s external website at <http://www.aecl.ca/en/home/news-and-publications/access-to-information/info-source.aspx>

7. COMPLAINTS AND INVESTIGATIONS

Applicants have the right to file a complaint pursuant to the *Privacy Act* and may exercise this right at any time during the processing of their request.

AECL received no privacy complaints and no audits or investigations were concluded during the reporting period 2013-2014.

8. MONITORING PROCESSING TIME

AECL utilizes Privasoft as a tool to monitor the time to process every privacy requests and requests for the correction of personal information. No other monitoring was necessary or conducted during the reporting period as 100% of the requests were completed on time.

9. PRIVACY BREACHES

No material privacy breaches occurred during the reporting period.

10. PRIVACY IMPACT ASSESSMENT

AECL completed the following two Privacy Impact Assessments (PIA) during this reporting period:

1. DevonWay IIR

The first PIA analyzed the potential privacy risks associated with the implementation of the Occupational Safety Health (OSH) Incident / Injury Reporting (IIR) module created by DevonWay. The privacy issues identified can be resolved through the development and documentation of appropriate procedures and processes that ensures compliance with the *Privacy Act*. The reporting of injury/illness sensitive data through the DevonWay IIR Module will only be used for a purpose that is compatible with the collection. OSH has demonstrated an ongoing commitment to the security and protection of its application. OSH departmental officials incorporated privacy as a core element.

2. Real Time Identification (RTID) System

The second PIA analyzed the potential privacy risks associated with the RTID system. RTID is a seamless electronic submission of fingerprint data to be used for AECL personnel security screening purposes. The PIA ensured that privacy was considered throughout the acquisition and implementation of the RTID. The RTID system is “Protected B” capable, improving the security and protection of the related personal information. All personal information transmitted to and from the RTID system is also encrypted. AECL has achieved accreditation through RCMP to submit this type of transaction. The privacy issues identified were resolved through the development and documentation of appropriate procedures and processes that ensured compliance with the Privacy Act. The use of sensitive biometric data through the RTID will only be used for the purpose it is collected. AECL has demonstrated an ongoing commitment to the security and protection of its RTID system and personal information involved.

As per the TBS Directive on Privacy Impact Assessment, the summaries of AECL’s PIAs are

available to the public on AECL's external website at <http://www.aecl.ca/en/home/news-and-publications/access-to-information/privacy-impact-assessment-summaries.aspx>
