

The Fiscal Monitor

A publication of the Department of Finance

Highlights

September 2015: budgetary deficit of \$1.2 billion

There was a budgetary deficit of \$1.2 billion in September 2015, compared to a surplus of \$0.4 billion in September 2014. Revenues decreased by \$0.2 billion, or 1.1 per cent, as decreases in personal income tax revenues and other revenues were only partially offset by increases in other revenue streams. Program expenses were up \$1.6 billion, or 8.0 per cent, reflecting increases in major transfers to persons and other levels of government and direct program expenses. Public debt charges decreased by \$0.2 billion, or 8.9 per cent, reflecting a lower average effective interest rate on the stock of interest-bearing debt.

April to September 2015: budgetary surplus of \$1.6 billion

For the April to September 2015 period of the 2015–16 fiscal year, the Government posted a budgetary surplus of \$1.6 billion, compared to a deficit of \$0.7 billion reported in the same period of 2014–15.

Revenues were up \$10.9 billion, or 8.3 per cent, reflecting increases in all revenue streams. Program expenses were up \$9.0 billion, or 7.7 per cent, reflecting increases in major transfers to persons and other levels of government and direct program expenses. Public debt charges were down \$0.5 billion, or 3.2 per cent, largely reflecting a lower average effective interest rate on the stock of interest-bearing debt.

September 2015

There was a budgetary deficit of \$1.2 billion in September 2015, compared to a surplus of \$0.4 billion in September 2014.

Revenues in September 2015 totalled \$22.0 billion, down \$0.2 billion, or 1.1 per cent, from September 2014.

- Personal income tax revenues were down \$0.6 billion, or 5.5 per cent.
- Corporate income tax revenues were up \$0.4 billion, or 12.7 per cent.
- Non-resident income tax revenues were up \$0.2 billion, or 60.4 per cent.
- Excise taxes and duties were up \$0.2 billion, or 4.8 per cent. Goods and Services Tax (GST) revenues and customs import duties each increased by \$0.1 billion, energy taxes increased by \$7 million, and other excise taxes and duties increased by \$29 million.
- Employment Insurance (EI) premium revenues were up \$46 million, or 3.4 per cent, reflecting growth in earnings.
- Other revenues, consisting of net profits from enterprise Crown corporations, revenues of consolidated Crown corporations, revenues from sales of goods and services, returns on investments, net foreign exchange revenues and miscellaneous revenues, were down \$0.5 billion, or 18.8 per cent, due largely to a decrease in net profits from enterprise Crown corporations.

Program expenses in September 2015 were \$21.2 billion, up \$1.6 billion, or 8.0 per cent, from September 2014.

- Major transfers to persons, consisting of elderly, EI and children's benefits, increased by \$0.4 billion, or 6.0 per cent. Elderly benefits increased by \$0.1 billion, or 2.6 per cent, due to growth in the elderly population and changes in consumer prices, to which benefits are fully indexed. EI benefit payments decreased by \$0.1 billion, or 8.2 per cent. Children's benefits, which consist of the Canada Child Tax Benefit and the Universal Child Care Benefit (UCCB), increased by \$0.4 billion, or 36.3 per cent, due mainly to the enhancement and expansion of the UCCB effective January 2015.
- Major transfers to other levels of government consist of federal transfers in support of health and other social programs (primarily the Canada Health Transfer and the Canada Social Transfer), fiscal arrangements and other transfers (Equalization, transfers to the territories, as well as a number of smaller transfer programs), transfers to provinces on behalf of Canada's cities and communities, and the Quebec Abatement. Major transfers to other levels of government increased by \$0.2 billion, or 4.9 per cent, reflecting legislated growth in the Canada Health Transfer, the Canada Social Transfer, Equalization transfers and transfers to the territories.
- Direct program expenses include transfer payments to individuals and other organizations not included in major transfers to persons and other levels of government, and other direct program expenses, which consist of operating expenses of National Defence, other departments and agencies, and expenses of consolidated Crown corporations. Direct program expenses were up \$1.0 billion, or 11.4 per cent. Within direct program expenses:
 - Transfer payments increased by \$0.4 billion, or 16.0 per cent, due mainly to timing factors.
 - Other direct program expenses increased by \$0.6 billion, or 9.4 per cent, reflecting in part an increase in pension and other employee and veteran future benefit expenses based on the Government's latest actuarial valuations.

Public debt charges decreased by \$0.2 billion, or 8.9 per cent, reflecting a lower average effective interest rate on the stock of interest-bearing debt.

April to September 2015

For the April to September 2015 period of the 2015–16 fiscal year, there was a budgetary surplus of \$1.6 billion, compared to a deficit of \$0.7 billion reported in the same period of 2014–15.

Revenues increased by \$10.9 billion, or 8.3 per cent, to \$141.3 billion.

- Personal income tax revenues were up \$2.2 billion, or 3.4 per cent.
- Corporate income tax revenues were up \$3.3 billion, or 21.6 per cent, largely reflecting assessments and reassessments for prior tax years.
- Non-resident income tax revenues were up \$0.5 billion, or 17.9 per cent.
- Excise taxes and duties were up \$2.1 billion, or 8.7 per cent. GST revenues were up \$1.5 billion, or 9.3 per cent. Customs import duties were up \$0.4 billion, and energy taxes and other excise taxes and duties were each up \$0.1 billion.
- EI premium revenues were up \$0.4 billion, or 3.7 per cent, reflecting growth in earnings.
- Other revenues were up \$2.4 billion, or 18.2 per cent, primarily reflecting the gain realized on the sale of the Government's remaining holdings of General Motors common shares in April 2015.

For the April to September 2015 period, program expenses were \$125.9 billion, up \$9.0 billion, or 7.7 per cent, from the same period the previous year.

- Major transfers to persons were up \$4.0 billion, or 10.9 per cent. Elderly benefits increased by \$0.9 billion, or 4.3 per cent, reflecting growth in the elderly population and changes in consumer

prices, to which benefits are fully indexed. EI benefit payments increased by \$0.6 billion, or 6.7 per cent. Children's benefits were up \$2.5 billion, or 38.5 per cent, largely reflecting increased benefits related to the expansion and enhancement of the UCCB.

- Major transfers to other levels of government were up \$1.4 billion, or 4.5 per cent, largely reflecting legislated growth in the Canada Health Transfer, the Canada Social Transfer, Equalization transfers and transfers to the territories.
- Direct program expenses were up \$3.6 billion, or 7.3 per cent. Within direct program expenses:
 - Transfer payments increased by \$0.6 billion, or 4.4 per cent.
 - Other direct program expenses increased by \$2.9 billion, or 8.5 per cent, reflecting in large part an increase in pension and other employee and veteran future benefit expenses.

Public debt charges decreased by \$0.5 billion, or 3.2 per cent, largely reflecting a lower average effective interest rate on the stock of interest-bearing debt.

Financial requirement of \$15.3 billion for April to September 2015

The budgetary balance is presented on an accrual basis of accounting, recording government revenues and expenses when they are earned or incurred, regardless of when the cash is received or paid. In contrast, the financial source/requirement measures the difference between cash coming in to the Government and cash going out. This measure is affected not only by changes in the budgetary balance but also by the cash source/requirement resulting from the Government's investing activities through its acquisition of capital assets and its loans, financial investments and advances, as well as from other activities, including payment of accounts payable and collection of accounts receivable, foreign exchange activities, and the amortization of its tangible capital assets. The difference between the budgetary balance and financial source/requirement is recorded in non-budgetary transactions.

With a budgetary surplus of \$1.6 billion and a requirement of \$16.8 billion from non-budgetary transactions, there was a financial requirement of \$15.3 billion for the April to September 2015 period, compared to a financial requirement of \$2.0 billion for the same period the previous year.

Net financing activities up \$25.7 billion

The Government financed this financial requirement of \$15.3 billion and increased cash balances by \$10.5 billion by increasing unmatured debt by \$25.7 billion. The increase in unmatured debt was achieved primarily through the issuance of marketable bonds and treasury bills.

The level of cash balances varies from month to month based on a number of factors including periodic large debt maturities, which can be quite volatile on a monthly basis. Cash balances at the end of September 2015 stood at \$38.4 billion, up \$8.4 billion from their level at the end of September 2014.
