How to Use this Guide

If you wish to apply for funding from the Department of Canadian Heritage's *Canada 150 Fund*, please read the Applicant's Guide carefully. It is divided into two main sections.

Section 1, the Program Guidelines, includes everything you need to know about the *Canada 150 Fund* before deciding to apply for funding. This guide applies to both Community-driven projects as well as to Signature Initiatives. This section will help you answer fundamental questions, such as the following:

- What is the *Canada 150 Fund*?
- Who can apply to the *Canada 150 Fund*?
- What types of projects can I propose?
- How do I submit a funding application?
- What date do I have to submit it by?
- What happens to my application after it is submitted?

Once you have read the Guidelines and established that you wish to apply for funding from the *Canada 150 Fund*, go to Section 2 where you will find instructions on how to complete the Application Form that you must use.

Projects of National Scope

A **limited number** of high impact, large-scale projects that are national in scope will be supported through the *Canada 150 Fund* as **Signature Initiatives**.

Projects may be considered as candidates to be Canada 150 Signature Initiatives, if they are:

- specifically designed to celebrate Canada 150;
- national in scope and reach;
- unique and innovative; and
- participation-oriented.

Applicants and/or their partners will be required to contribute a minimum of 25% of the total project cost (cash and/or in-kind) to be funded as a Canada 150 Signature Initiative.

If you think your project may qualify as a Signature Initiative you must speak with a project officer before applying (see **Contact Us** section).

Contact Us

Before completing a funding application, it is important to contact a Canadian Heritage program officer to discuss your project idea.

The program officer will be able to help you by:

- Providing guidance with respect to the *Canada 150 Fund* funding criteria;
- Clarifying the application process and timelines;
- Providing you with helpful tips and tools to develop your funding application; and
- Orienting you toward other programs that offer funding opportunities for projects related to the celebration of Canada 150.

Contact Information

If you are deaf, hard of hearing, or speech-impaired, please call our toll-free TTY line. Use this line for all enquiries, regardless of whether your project is national or local, regional, provincial in scope: 1-888-997-3123.

The toll-free lines (1-800 or 1-866) have agents available to answer your questions, Monday to Friday, 8:30 a.m. to 5:00 p.m. Eastern Time.

For projects that are **local, regional, or provincial in scope**, please contact the Canadian Heritage Regional Office in your province or territory.

Section 1:
Program Guidelines

1.1 Introduction

Canada's 150th anniversary of Confederation in 2017 is a pivotal milestone for our country that allows us to connect with our past, celebrate who we are, honour our exceptional achievements, and build a legacy for tomorrow. Since 2012, the Government of Canada has been actively planning for Canada 150 by inviting Canadians to celebrate historic nation-building events on the Road to 2017.

Canada 150 belongs to us all and we are called to give something back to our communities and our nation.

The overarching theme for Canada 150 is **Strong, Proud, and Free** – three words that define and characterize present-day Canada. A Canada that is a strong leader in the world with one of the most robust economies. A Canada that is proud of its identity and achievements as well as its natural beauty and resources. A Canada that is free with an open, diverse, and pluralistic society. This theme connects us with our past, embraces the present, and builds towards the future.

1.2 Goal and Objectives of the Fund

The Department of Canadian Heritage (PCH) is the lead department for the celebrations of Canada 150 and has created the *Canada 150 Fund*; a funding initiative that aims to promote Canadian values, culture and history, generate national pride and bring citizens together to celebrate Canada 150.

Funding is available in the form of grants or contributions for projects that support the objectives below and meet the criteria described in the following pages of this guide.

Goal

The goal of the *Canada 150 Fund* is to create opportunities for Canadians to participate in activities that contribute to building a sense of pride and attachment to Canada.

Objectives

The *Canada 150 Fund* will support activities that:

- Encourage participants to give back to Canada through gifts of time and energy, in ways that leave a legacy for the future;
- Provide Canadians with opportunities to actively participate and/or celebrate together, promoting and building a deeper understanding of Canada, its people and what it means to be Canadian; and
- Recognize and promote exceptional Canadian people, places, achievements and events that continue to shape our country.

1.3 Eligible Funding Applicants

Eligible funding applicants under the *Canada 150 Fund* include the following types:

- Canadian not-for-profit organizations, including corporations, trusts, cooperatives, and unincorporated associations;
- Canadian business corporations, including partnerships, trusts and joint ventures where projects are non-commercial in nature;
- Canadian schools; and
- Canadian municipal governments and their institutions.

Federal departments, agencies and institutions, Provincial and Territorial governments and their institutions, private individuals and political parties are not eligible under the *Canada 150 Fund*.

Note:

- Organizations can apply either individually or as partners in a joint project. In the case of partnerships, one organization must assume the lead role and responsibility for the project.
- When circumstances justify it, the *Canada 150 Fund* could consider third party delivery where a primary funding recipient distributes payments to ultimate recipients in accordance with the terms of a contribution agreement. When third party delivery organizations are involved, the primary recipient identified in the contribution agreement for the project must:
 - ensure that ultimate funding recipients meet the eligibility criteria established for the *Canada 150 Fund*; and
 - assume responsibility for the reporting requirements identified in the contribution agreement.

1.4 Eligible Projects

Eligible Projects

In order to be eligible for funding under the *Canada 150 Fund*, proposed projects must:

- Contribute to the achievement of the objectives of the *Canada 150 Fund* outlined in Section 1.2.; and
- Not be identified as ineligible under the **Ineligible Projects** section below.

Examples of eligible projects under the *Canada 150 Fund* include:

- Celebratory or commemorative activities and events;
- Community building activities and events;
- Sport and active-living activities and events;
- Exhibits;
- Plaques, monuments and permanent installations;
- Ceremonies for site dedications;
- Interpretive programming and tours;
- Documentary films;
- Learning materials and activities;
- Theatrical or musical performances;
- Large-scale artwork projects;
- New Canada 150 fairs and festivals; and
- Specific Canada 150 programming added to regular or recurrent fairs and festivals.

Ineligible Projects

The following projects will not be eligible for funding under the *Canada 150 Fund*:

- Lobbying or advocacy activities;
- Major infrastructure projects such as the building of roads and buildings;
- Ongoing activities such as the publication of regular issues of newsletters, magazines and periodicals;
- Projects that are designed for fundraising purposes, or that generate advantage or profit; and
- Any activity taking place outside Canada.

Important: Please contact a *Canada 150 Fund* program officer to discuss the nature of your project before completing a funding application.

Note:

- The fact that a project meets the eligibility criteria does not guarantee that it will be funded. All eligible projects are subject to a comprehensive assessment process, which may or may not result in a positive funding decision.
- For projects involving a plaque, monument or permanent installation, the applicant must provide written evidence that a site has been legally appropriated for the purpose being considered for funding. The applicant must also demonstrate that proper arrangements will be made for ongoing ownership and maintenance of the site, or installation beyond the duration of the proposed project.
- For projects involving activities that require funding beyond the project end date to achieve the approved objectives stipulated in the application, applicants will be required to provide confirmation of future funding to sustain these activities beyond the project end date. Financial assistance received under the *Canada 150 Fund* is not to be construed as a guarantee, express or implied, of acceptance by the Department to sustain any project activities beyond the project end date.

1.5 Eligible Project Expenses

Eligible Expenses

Eligible expenses under the *Canada 150 Fund* include relevant, reasonable and essential expenses required to accomplish an eligible project. Funding may be requested for projects spanning more than one year, provided that they do not exceed the duration of the *Canada 150 Fund*. Eligible expenses include, but are not limited to, the following:

- Materials and supplies, such as educational and learning materials, and materials for the creation of exhibits, DVDs, plaques and monuments;
- Promotional products and publicity expenses;
- Equipment rental;
- Reasonable salaries and benefits or professional fees related specifically to project activities, for example: project coordination and implementation, event management, production, translation, Web design, project-related research, design of plaques and monuments. Salaries, benefits and professional fees for general administration of the project such as accounting, bookkeeping and general management will be considered administrative costs (see below);
- Reasonable administrative costs required to complete project objectives, including salaries, benefits and professional fees for general

administration, bank charges and utilities. **The Department will not fund administrative costs in excess of 15% of its total contribution to the project;**

- Reasonable travel costs (transportation and accommodation) incurred in Canada when travel is required to achieve project objectives, in accordance with the Government of Canada's Travel Directive, (the Directive can be found at: http://www.tbs-sct.gc.ca/pubs_pol/hrpubs/TBM_113/td-dv_e.asp);
- Audit fees when necessary to meet *Canada 150 Fund* requirements with respect to a contribution agreement for the project (a program officer will provide instructions in this regard if applicable); and
- Some capital costs (see Glossary in Appendix A for definition) when expenditures are clearly linked to eligible projects and funding is provided through a contribution agreement (see Section 1.6). Please consult a Canadian Heritage program officer if you expect to request funding for capital costs.

Ineligible Expenses

Ineligible project expenses under the *Canada 150 Fund* include, but are not limited to:

- Expenses related to ineligible projects as described in Section 1.4.;
- Expenses that have already been incurred at the time of application; and
- Project expenses that have been previously funded by the Department or by another funder.

Note:

- The determination of eligible expenses rests with the Department.
- Expenses incurred prior to the project start date and after the project end date established by the Department will not be eligible for funding. Should your project be approved for funding, Department officials will contact you to establish the official project start and end dates for your project.
- Under no circumstance will the Department fund expenses incurred before the date it determines the *General Application Form* and *Project Proposal* to be complete.
- The Department takes no responsibility for expenses incurred by the applicant prior to confirmation of funding from the Department. Applicants who enter into contractual arrangements or incur expenses prior to confirmation of funding from the Department do so at their own risk.
- Costs for equipment rental of \$10,000 or more will only be funded through a contribution (see Section 1.6).
- Costs related to a plaque or a monument of \$10,000 or more will only be funded through a contribution (see Section 1.6).

1.6 Available Funding

The Department reserves the right to determine the amount of funding for each project. Even if your funding application is approved, you may not get the full amount requested from the Department. In determining funding amounts, the Department will take into consideration the impact on the overall budgetary envelope for the *Canada 150 Fund*.

While the *Canada 150 Fund* can support up to 100% of eligible expenses, applicants are strongly encouraged to secure other cash or in-kind sources of funding. The level of cash or in-kind support from other sources will be taken into consideration during the assessment process.

There is no set limit to the number of projects that can be funded for any one applicant.

Grants and Contributions – What is the Difference?

Financial assistance provided by the *Canada 150 Fund* may take the form of either a grant or a contribution, depending on the scope of the project, the amount awarded and the Department's risk assessment. You will find definitions of each funding instrument in the Glossary in Appendix A.

1.7 Applying for Funding

1.7.1 Application Deadline and Service Standards

Canadian Heritage officials will acknowledge receipt of all funding applications, generally **within 15 calendar days**.

There is no established deadline date to submit a funding application under the *Canada 150 Fund*. It is important to note, however, that the assessment of funding applications can take **up to 26 weeks** to be completed, and that up to **four more weeks** can be required to finalize a funding agreement and issue a payment.

Applicants should therefore submit their complete funding application at least **30 weeks** prior to the proposed project's desired start date. Please note that these timelines are highly dependent on the applicant providing all of the required documentation to the Department.

1.7.2 Application Process

After reading the Program Guidelines, follow the steps below to apply for funding from the *Canada 150 Fund*.

- 1) Complete, print, sign and date the *General Application Form and Project Proposal* which is attached to this Guide as instructed in Section 2.
- 2) Attach all of the documents requested in the *General Application Form and Project Proposal*. Please review the Checklist in Part J of the form to ensure that you have included all the required documents.
- 3) Email or mail a signed copy of the *General Application Form and Project Proposal* and all other required documents to the **Regional Office** (for projects that are local, regional, or provincial in scope) or to the **National Office** (for projects that are national in scope). See the **Contact Us** section for the appropriate addresses.

Note:

- Please make sure to discuss your project with a *Canada 150 Fund* program officer before completing a funding application.
- Your application will only be considered complete once all the required documents have been provided. **Incomplete applications will result in delays and could cause the application to be turned down.**

1.8 Assessment of Funding Applications

1.8.1 Assessment Process

All project proposals will go through an assessment process during which program officers will:

- 1) Confirm that the funding application is complete;
- 2) Confirm that the applicant and the proposed project are eligible for funding under the *Canada 150 Fund* (see Sections 1.3 through 1.5);
- 3) Assess all eligible project proposals against established criteria (see Section 1.8.2) and seek assistance and advice from experts and analysts if required; and

- 4) Finalize recommendations to the Minister of Canadian Heritage for approval.

Note:

- Canadian Heritage program officers cannot provide applicants with any information on funding recommendations until a decision has been issued.
- All funding decisions are final.

1.8.2 Assessment Criteria

Eligible projects will be assessed against the following essential criteria:

- The applicant has the capacity to deliver the project;
- The community has demonstrated its support for the project and, where relevant, key community stakeholders have been engaged;
- Where agreements for collaboration are required to ensure the successful delivery of the project, contributors have confirmed their participation;
- The extent to which the project will be inclusive of Aboriginal communities, official-language minority communities, ethno-cultural communities and youth;
- The project objectives are specific and realistic and clearly support the objectives of the *Canada 150 Fund*;
- The project is new and innovative and will not duplicate other initiatives;
- The proposed approach will allow for the successful and timely delivery of the project;
- The project will effectively reach the identified target audience(s) and produce results that represent good value for money; and
- The proposed budget is sufficiently detailed, reasonable and balanced.

1.9 Additional Project Requirements

1.9.1 Environmental Assessment

Projects funded by the Department are subject to the provisions of the *Canadian Environmental Assessment Act, 2012*. The applicant shall ensure that all activities comply with federal, provincial/territorial and municipal laws and regulations, and related laws or guidelines with respect to environmental matters.

Activities to be carried out on federal lands may require an evaluation of environmental effects under the *Canadian Environmental Assessment Act, 2012*, prior to the start of the proposed project. If your activities are to be carried out on federal lands, a program officer will contact you if additional information is required.

All costs related to environmental analyses or assessments are the responsibility of the applicant.

Note:

- Costs related to the evaluation of environmental effects are not eligible project expenses under the *Canada 150 Fund*.

1.9.2 Official Languages

English and French are the official languages of Canada. The Government of Canada is committed to enhancing the vitality and supporting the development of the English and French linguistic minority communities in Canada and to fostering the full recognition and use of both English and French in Canadian society

If you receive funding from the *Canada 150 Fund*, a program officer will discuss the official languages requirements for your project with you. These requirements will appear in your grant letter or contribution agreement.

1.9.3 Audit

For contributions, the Department reserves the right to audit or have audited the accounts and records of primary and, in the case of third party delivery, ultimate recipients to ensure compliance with the terms and conditions of the contribution agreement for the project. The audit will ensure that funds were used for their intended purpose. Recipients shall make available any records, documents and information that the auditors may require. The scope and timing of such audits shall be determined by the Department and, if conducted, may be carried out by employees of the Department or by its agent(s). Audit requirements will be specified in the contribution agreement for the project.

1.9.4 Acknowledgement of Government of Canada Funding

Organizations that will receive funding from the *Canada 150 Fund* must publicly acknowledge, in English and in French, the financial support received from the Government of Canada in all communication materials and promotional activities related to the funding agreement, such as advertising, promotional and program materials, public announcements, speeches, websites, social media, etc. The Department's requirements for public acknowledgement of financial assistance were updated in 2014 and are now part of the funding agreements. The Department's *Guide on the Public Acknowledgement of Financial Support* (<http://pch.gc.ca/pc-ch/peaf-pafa/index-eng.cfm>) is designed to assist funding recipients in complying with the requirements described in the funding agreement.

1.9.5. Final Activity Report

All funding recipients are required to submit a Final Activity Report once their project is complete.

**Section 2:
General Application Form and
Project Proposal**

2.1 About the General Application Form and Project Proposal

Once completed, the *General Application Form* and *Project Proposal*, along with the additional documents requested, will constitute your complete funding application.

Below you will find instructions and helpful tips to complete the *General Application Form* and *Project Proposal* which is attached at the end of this Guide. If you require further assistance, please contact a *Canada 150 Fund* program officer (see “Contact Us” for contact information).

Note:

- It is not recommended to complete the *General Application Form* and *Project Proposal* if you have not yet read Section 1 of the Applicant’s Guide and if you have not discussed your project with a *Canada 150 Fund* program officer.

PARTS A through D – The General Application Form:

- Complete all required fields, as well as all optional fields that may apply.
- In choosing a project title, please limit the title to 75 characters. If you have received funding from the Department of Canadian Heritage in the past, please avoid using the title used for the previous project(s).

PART E – Conditions:

- Please read the conditions outlined in Part E carefully. If you have any questions, contact a Canadian Heritage program officer.

PART F – Declaration:

- The *General Application Form* and *Project Proposal* must be signed by the same person identified in Part B who is authorized by the applicant organization to enter the organization into a legal agreement. You are required to provide confirmation of the organization’s authorization to submit an application and to be represented by the person signing the application (e.g., a motion from the Annual General Meeting, a Resolution of the Board of Directors, etc.).

PART G – Project Proposal:

- The **Project Proposal** section of the form (Part G) is a key element of your funding application. This is where you will describe what your project will achieve, how it will achieve it, who it will benefit and why it is important. The merit and viability of the proposed project, as well as its contribution to the objectives of the *Canada 150 Fund* (see Section 1.2), must be made evident throughout the proposal. The proposal must also demonstrate that the Department’s contribution is necessary in order to carry out your project.
- Here are a few tips to help you complete Part G:
 - Be clear, specific and to the point. Avoid unnecessary repetitions;
 - Spell out acronyms the first time they are used;
 - After you have finished, review your proposal against the essential assessment criteria outlined in Section 1.8.2 to ensure that they have been addressed; and
 - Ask someone who is not involved in your project to read your proposal and confirm that they clearly understand what the project will achieve.
- Here is an example of how to complete the Project Activities & Performance Indicators (question 59):

Project Activities & Performance Indicators			
59. Activities	Timelines	Indicators	Promotion
List your project activities.	Approximate timelines/date of each activity	Indicate the expected number of participants and identify the expected results.	Indicate how you plan to promote your project to ensure that it is fully accessible and well attended
1.) Create a mobile exhibit.	June –July 2017	2000 people will view the exhibit & learn about the 150 th anniversary exhibition.	Through local media such as newspapers, radio and television.
2.) Produce & distribute learning materials.	April 2017	15,000 pamphlets will be distributed to local schools.	Distribute learning materials to local schools and school boards.
3.) Host a community event.	July 25, 2017	5,000 people will	The event will be

		attend the event and have an opportunity to become engaged in the celebrations of Canada's 150 th .	promoted through the use of a local advertising campaign and we hope to partner with local businesses that will assist with promotion.
--	--	--	--

PART H – Official Languages:

- Please see Section 1.9.2 for information regarding official languages requirements.

PART I – Environmental Effects Evaluation

- Please see Section 1.9.1 for information regarding the evaluation.

PART J – Application Checklist:

- A number of documents must be attached to the *General Application Form* and *Project Proposal* in order for your funding application to be considered complete. Please review and complete the Checklist to ensure that all required documents are provided.

2.2 About Annex A (Cashflow Budget)

ANNEX A – Canada 150 Fund – Cashflow Budget:

- In preparing your project cashflow budget in Annex A, you must:
 - Complete a separate cashflow budget for each fiscal year for which you have revenues and expenditures;
 - Ensure that your budget is balanced (i.e., the projected total expenses are equal to the projected total cash and in-kind revenue);
 - Include only costs and revenues directly related to the project;
 - Ensure that it will be clearly indicated how each budget item has been calculated. **The costs should be easy to relate to the activities in the action plan.** Use the “Notes” column to provide the level of detail required, such as hourly or daily rates for wages and professional fees;
 - For each budget item, identify the amount that you are requesting from the *Canada 150 Fund* and the amount that will be contributed by other funding sources (details can be included in the notes column). Make sure to include in-kind contributions to the project. In-kind contributions can be made by an individual or organization in the form of materials,

goods, services or time. To be eligible, in-kind contributions must be of fair market value and essential to the project's success, and would otherwise have to be paid by the applicant;

- Ensure that you are only asking the *Canada 150 Fund* to fund eligible project expenses (see Section 1.5 for the list of expenses that are eligible under the *Canada 150 Fund*);
- Ensure that you do not include the taxes paid on goods and services for which you are entitled to a tax credit or reimbursement. The *Canada 150 Fund* will not fund these amounts; and
- Ensure that the information provided in the itemized cashflow budget table in Annex A corresponds to the amounts indicated in Part D of the *General Application Form* and *Project Proposal*.

Appendix A: Glossary

This Glossary provides definitions of important terms used in the *Canada 150 Fund Applicant's Guide*.

Administrative Costs: Administrative expenses, such as utilities, bank charges, bookkeeping and salaries or professional fees related to general administration. Only administration costs directly related to the project are eligible for funding under the *Canada 150 Fund* (to a maximum of 15% of the Department's contribution).

Benefits: The employer portion (net of payroll deductions from employees) related to:

- statutory benefits such as the Canada Pension Plan and the *Régie des rentes du Québec*, employment insurance, vacation pay, workers' compensation premiums and provincial health plans where applicable; and
- non-statutory benefits such as group insurance coverage for medical, dental, disability, life insurance and other items.

Capital Costs: Expenditures incurred to acquire a physical asset with a useful life that extends beyond the life of the project (e.g., property, equipment) or to add to the value of an existing physical asset.

Contribution: Funding provided to an organization for a specified purpose, the terms of which are governed by a contribution agreement that is signed by the funding recipient and the Department. Payments under a contribution agreement are conditional to the terms of the agreement being respected by the recipient. Contributions must be accounted for and are subject to being audited. Contributions are one of the two instruments used by the *Canada 150 Fund* to fund eligible projects, "grants" being the other (see related definition).

Fiscal Year: A 12-month period used by an organization as an accounting period. For example, the federal government's fiscal year runs from April 1 to March 31 of the following year.

Geographical Scope of Activity: your organization's principal geographical area of operation.

- Local - active in a community or neighbourhood

- Regional - active in at least two municipalities in a region
- Provincial/Territorial - active throughout a province or territory
- National - active across Canada

Goal: The primary purpose of a project. A goal is a statement of desired outcomes to be achieved over a specified period of time.

Grant: Funding subject to pre-established eligibility and other entitlement criteria. A grant is not subject to being accounted for by a recipient, nor normally subject to audit by the Department. The recipient is required to report on results achieved. Grants are one of the two instruments used by the *Canada 150 Fund* to fund eligible projects, “contributions” being the other (see related definition).

In-Kind Contribution: Goods or services donated to a project (by the recipient or by a third party) without expectation of compensation. In-kind contributions are considered real contributions to the cost of the proposed activities but are not reimbursable. Donated goods and services may be considered as in-kind contributions if they are essential to a project’s success; if they would otherwise have to be purchased by the recipient; if they can be measured at fair market value (i.e., in relation to similar goods and services); and if they are balanced by an equal expense in the project budget.

Objective: For the purposes of a project, objectives are the specific targets that need to be achieved in order to attain the project goal. Objectives should be clear, concise, realistic and achievable within the timeframes and resources available.

Performance Assessment: For the purposes of a project, performance assessment is the systematic collection and analysis of data used to measure the project’s success.

Professional Fees: Payments for services rendered by an individual who is not an employee of the organization, or by a firm that is separate from the organization. For example, this can include fees for services provided by writers, translators, accountants for auditing the project and project managers.

Project: A specific set of activities that contribute to the attainment of identified objectives. A project has a definite beginning and end and is separate from the activities normally carried out by an organization. A project may be presented in phases with each phase given consideration as an individual project.

Results: For the purposes of a project, results are the benefits, consequences or changes that are expected to occur as a result of the project. Results should

demonstrate what the present status of the issue or the gap is and indicate to what extent it will be improved or changed. Results can be identified as short-term, mid-term or long-term. Short-term and mid-term results should be specific and measurable (quantitatively or qualitatively) by the project's end or shortly after.

Stakeholders: All parties (individuals, communities, community-based organizations, public and private sector institutions and funding bodies) that have a vested interest in an issue.
