GLOSSARY OF PRINCIPAL TERMS USED

DEPARTMENTAL SERVICES: Also known as General Fund activities. This comprises the activities carried on by provincial governments as reflected in their Estimates and in addition, expenditures on employment by special or administrative funds.

PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government, but which are not administered under departmental authority.

PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for goods and services.

SALARY EARNERS: Employees in receipt of a salary based on monthly or annual rates of pay. These employees may be of a continuing, term, seasonal, sessional or part-time nature.

WAGE EARNERS: Employees in receipt of a wage based on hourly, daily or weekly rates of pay.

FULL-TIME WAGE EARNERS: Employees who occupy a continuing full-time position.

OTHER WAGE EARNERS: Employees who do not occupy a continuing full-time position. Examples are: seasonal, part-time and casual wage earners.

NUMBER OF EMPLOYEES: Represents the number of persons on the payroll for the last pay period reported in each month.

GROSS PAYROLLS: Payrolls reported are the gross payrolls of all persons paid for work done during the month whether they were on strength at the end of the month or not. They include retroactive pay, salary adjustments and over-time payments.

PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1968

NOTE

See page 22 and on for explanation of the statistics included in this report.

This issue of "Provincial Government Employment" reflects changes in pay administration for two provincial governments; the province of Ontario adopted bi-weekly pay periods effective April 1, 1968 and the province of Manitoba implemented bi-weekly pay periods as of June 1, 1968. These changes, which result in the data reported covering two bi-weekly pay periods (instead of monthly), will be noted under the relevant headings. Provincial Governments which have implemented bi-weekly pay administration are, Prince Edward Island, Quebec, Ontario, and Manitoba.

Data of the Departmental Services, Government Enterprises, and Workmen's Compensation Board of the Province of British Columbia are not available for inclusion in this publication. Data for the Institutions of Higher Education in that province are included.

The cumulative gross payrolls (excluding the Province of British Columbia as noted above) for the period April 1 - June 30, 1968 amounted to \$451.4 million an increase of 4.1 per cent over the \$433.5 million reported for the previous quarter January 1 - March 31, 1968. The number of employees reported for the last pay period in June was 334,348 an increase of 8.9 per cent from the 306,887 reported for the same period in March 1968. These increases are the result of seasonal activities in the following functions "Transportation and Communications", "Recreation and Cultural Services", and "Natural Resources and Primary Industries".

Gross payrolls reported for provincial employees for the period January 1 to June 30, 1968 amounted to \$885.0 million. Employees in Departmental Services were paid \$515.7 million or 58.3 per cent of the total, the gross payrolls of the staff of the Institutions of Higher Education amounted to \$103.8 million or 11.7 per cent. The employees of Provincial Government Enterprises received \$254.1 million or 28.7 per cent, while those of the Workmen's Compensation Boards were paid \$11.2 million or 1.3 per cent of the total.

Due to unavoidable delays in the reporting of monthly data, estimates have been made for some departments in each Province for the month of June 1968. Revised totals will be published in the next quarterly report.

EXPLANATORY NOTES

APRIL - JUNE 1968

General

This report contains statistics of employment and payrolls for nine provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises for British Columbia are not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprises the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Provincial Government Finance" (Publication No. 68-207).
2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Teachers' Colleges, Agricultural and Vocational Colleges, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead University.
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and payrolls are reported monthly, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.
