## INTRODUCTION

This publication provides a summary of the number of employees and the gross payrolls of the governments of the Canadian provinces and the Yukon and Northwest Territories. The data are presented on a monthly basis with quarterly totals.

The purpose of this survey of provincial government employment is to (1) provide statistics on the provincial government component of the national labour force and national accounts income and expenditure series, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of the general government services (as detailed in The Canadian System of Government Financial Management Statistics, Catalogue 68-506) is given by "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time, they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a functional classification, it is possible to measure employment in comparable terms between provinces as well as between various levels of government. Third, this classification permits analysis, for each function, of the relationship between expenditures on employment and total expenditure.

### Coverage

Data in the report consist of two major groups as follows:

Provincial general government services in this publication are comprised of:

departments of government;

administrative, regulatory and special funds which perform functions similar to those of departments and which may be organized as boards, commissions or agencies;

## INTRODUCTION

La présente publication offre un état sommaire de l'emploi et de la rémunération brute dans les administrations publiques des provinces canadiennes, du Yukon et des Territoires du Nord-Ouest. Les données présentées sur une base mensuelle avec des totaux trimestriels.

L'objet de cette enquête sur l'emploi dans l'administration publique provinciale est (1) de fournir des statistiques sur l'apport des administrations publiques provinciales à la population active du Canada et aux séries des comptes nationaux sur le revenu et la dépense, (2) de fournir aux administrations publiques des chiffres qui répondront aux besoins qu'elles ont de prendre la mesure statistique de l'emploi, et (3) de mettre ces données à la disposition des groupes de recherche, des étudiants et du grand public.

Une analyse des services généraux de l'administration publique (telle que détaillée dans Le système canadien des statistiques de la gestion financière des administrations publiques, n° 68-506F au catalogue) est donné par "fonction". Cette analyse sert à trois fins. Premièrement, elle permet une étude détaillée de l'emploi dans chaque province selon les principales fonctions ou fins. Étant donné que ces fonctions ne subissent pas les contrecoups des changements qui se produisent de temps à autre dans la structure administrative, elles permettent de mettre au point une série uniforme, sauf pour des changements mineurs, qui s'étend sur une longue période de temps. Deuxièmement, vu que les différences dans l'administration ne touchent pas sérieusement une classification fonctionnelle, il est possible d'évaluer l'emploi en termes comparables aussi bien entre provinces qu'entre divers niveaux d'administration. Troisièmement, cette classification permet, pour chaque fonction, une analyse du rapport qui existe entre les dépenses de main-d'oeuvre et l'ensemble des dépenses.

### Champ de l'enquête

Les données du bulletin se rapportent aux deux principaux groupes suivants:

Les services généraux des administrations publiques provinciales qui comprennent dans la présente publication:

les ministères;

les fonds administratifs, réglementaires et spéciaux dont les fonctions sont semblables à celles des ministères et qui peuvent être constitués en conseils, commissions ou organismes;

government-owned and financially supported institutions such as those engaged in education, health and welfare services or in the administration of justice.

#### Provincial Government Enterprises

A provincial government enterprise is an organized entity, usually corporate, which:

is established by a political decision-making body to produce goods and/or services for sale on the open market at a price related to costs;

maintains an independent system of accounts that permits the charging of specific elements of costs against the revenue derived from its sale of goods and/or services;

has a relatively autonomous management in the conduct of day-to-day operations; and

is staffed by personnel not normally subject to the statutory requirements governing employment in the general public service.

For a more complete explanation of the general government and the government enterprise universe refer to the Statistics Canada publication entitled The Canadian System of Government Financial Management Statistics (Catalogue 68-506).

#### Sources

The data in this report are derived from the following sources:

monthly reports produced by, and derived from the centralized pay systems of, the various governments;

similar reports produced by government entities with autonomous pay systems;

a survey of those entities which prefer to provide required information in this way;

copies of similar surveys of certain enterprises carried out by Labour Division, Statistics Canada.

#### Validity

The compilation of this report is predicated upon a complete response covering all entities in the provincial government universe. Estimates are only made in the cases of the very few entities from which responses are delayed beyond the publishing date. Such entities are always small in size and revisions incorporating their actual data are made in subsequent publications.

les établissements qui appartiennent à l'administration provinciale ou qui se consacrent à l'éducation, aux services de santé et de bien-être ou à l'administration de la justice.

#### Entreprises publiques provinciales

Une entreprise publique provinciale est un tout organisé, habituellement constitué en société, et:

qui est établi par une décision d'un corps politique pour produire des biens et (ou) des services destinés à la vente sur le marché libre à un prix en relation avec les coûts;

qui tient un système indépendant de comptes lui permettant d'imputer des éléments spécifiques des coûts au revenu provenant de la vente de biens et (ou) de services;

qui possèdent une administration relativement autonome pour la conduite des affaires au jour le jour; et

qui compte à son service un personnel non assujéti d'ordinaire aux exigences statutaires qui régissent l'emploi dans la fonction publique.

Pour de plus amples explications sur les administrations publiques en général et sur l'univers des entreprises publiques, veuillez consulter la publication de Statistique Canada intitulée Le système canadien des statistiques de la gestion financière des administrations publiques (n° 68-506F au catalogue).

#### Sources

Les données publiées ici proviennent des sources suivantes:

les rapports mensuels produits par les diverses administrations publiques à partir de leurs systèmes centralisés de la paye;

les rapports de même nature produits par les organismes publics dotés d'un système de paye indépendant;

un relevé fait auprès des organismes qui préfèrent fournir l'information de cette manière;

des relevés semblables faits auprès de certaines entreprises par la Division du travail de Statistique Canada.

#### Validité

Cette publication se fonde sur les réponses complètes obtenues de la totalité des entités qui composent l'univers des administrations provinciales. Les estimations se limitent au très petit nombre d'entités qui n'ont pas donné leurs réponses avant l'échéance fixée pour la publication. Il s'agit toujours de petites entités et les données réelles sont présentées dans les éditions ultérieures.

# Comparability Between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparison between the numbers of employees reported and the payrolls reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed occur during a month it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

# Comparabilité entre le nombre d'employés et la rémunération

Les utilisateurs de ces données doivent éviter de faire des comparaisons directes entre le nombre d'employés et leur rémunération; en effet, le nombre d'employés est saisi le dernier jour du mois, dans tous les cas possibles, dans les autres cas, il est saisi pendant la dernière période de paie du mois. Comme dans certaines catégories (surtout chez les employés occasionnels), il se produit d'importantes fluctuations du nombre d'employés au cours d'un mois, la comparaison entre la rémunération brute de toutes les personnes employées au cours du mois et les effectifs à la fin du mois serait, dans bien des cas, erronée.

## Explanatory Comments

Commencing with this issue publication of employment and payroll statistics for the general government services of the Province of British Columbia is resumed. Text Tables II and III contain monthly and quarterly data for the period January to June, 1979. Data for the reference period appear in the regular tables.

## Texte Explicatif

Avec ce numéro, nous reprenons la publication des statistiques sur l'emploi et la rémunération dans l'administration publique générale en Colombie-Britannique. Les tableaux explicatifs II et III renferment les données mensuelles et trimestrielles pour la période allant de janvier à juin 1979. Les données de la période de référence figurent dans les tableaux ordinaires.

Note that data for those administrative, regulatory and special funds and for government owned and financially supported institutions in British Columbia which are not included in the central payroll system are not yet available. It is hoped to include data for these entities in the near future.

A further change from previous issues of the publication concerns the tables classifying employees and earnings by function. In previous publications salaried employees and their earnings were shown separately from wage earners and their earnings. Both are combined from this publication onward; however, separate data on salaried and wage earning employees by function will be available on application to the Chief, Provincial Government Section, Public Finance Division, Statistics Canada, Ottawa, K1A 0T6.

Attention is also drawn to the earnings data for Alberta employees for the month of September only. The amounts shown are regular earnings rather than gross figures, which include retroactive pay, salary adjustments and overtime payments and which were not available in time for publication. Gross data for September will be included in the next issue (October-December, 1979) of this publication.

Les données pour les fonds administratifs, réglementés et spéciaux, ainsi que pour les organismes publics appuyés financièrement par le gouvernement en Colombie-Britannique qui ne sont pas inclus dans le système central de paie ne sont pas encore disponibles. Nous espérons les publier dans un proche avenir.

La publication contient également des tableaux de répartition des employés et de la rémunération par fonction, une nouveauté par rapport aux éditions précédentes. Auparavant, les données sur les employés à traitement et leur rémunération étaient présentées dans des tableaux distincts de celles sur les employés à salaire et leur rémunération. À partir de maintenant, les deux catégories sont fusionnées; toutefois, on peut se procurer les données séparées pour les employés à traitement et à salaire par fonction en s'adressant au chef de la Section des administrations provinciales, Division des finances publiques, Statistique Canada, Ottawa, K1A 0T6.

Il convient de noter que les données sur la rémunération des employés de l'Alberta pour le mois de septembre concernent seulement la rémunération régulière et non la rémunération brute; cela inclut les payes rétroactives, les ajustements de salaire et les paiements de temps supplémentaire. Les chiffres n'étant pas disponibles au moment de la publication, les données sur la rémunération brute figureront dans le prochain numéro (octobre-décembre 1979).
