PROVINCIAL GOVERNMENT EMPLOYMENT

APRIL - JUNE 1963

The number and gross earnings of employees were considerably higher during the quarter ended June 30, 1963 than the January - March 1963 quarter. This resulted primarily from (1) increased seasonal activities in the "Transportation and Communications" and "Natural Resources" functions and (2) enterprise gains of 8.2 p.c. in staff and 9.3 p.c. in payroll.

Data for Departmental Services, Government Enterprises and Workmen's Compensation Boards of Quebec and British Columbia are not available for inclusion in this report.

The 187,698 employees reported for June 1963 represented a 4.7 per cent increase over June 1962 (179,274) and a 10.2 per cent increase over March 1963 (170,386).

Earnings of employees for the April 1 - June 30, 1963 quarter totalled \$183,353,000, a gain of 9.4 per cent from the April - June 1962 quarter (\$167,633,000) and of 5.9 per cent from January - March 1963 (\$173,056,000). Payrolls associated with the Health and Social Welfare functions continued to rise. This was especially noticeable in Ontario where the increase was \$0.5 million in the quarter.

Total earnings of provincial employees (available for inclusion in this report) for the period January 1 - June 30, 1963 amounted to \$356,409,000. Employees in Departmental Services earned \$206,015,000 or 57.8 per cent of the total while staff of Institutions of Higher Education received \$41,430,000 or 11.6 per cent. Those in Enterprises earned \$104,335,000 or 29.3 per cent and the Workmen's Compensation Board staffs received \$4,629,000 or 1.3 per cent.

A description of the statistics included in this series is given together with the background detail on page 22 of this report.

EXPLANATORY NOTES

APRIL - JUNE 1963

General

This report contains statistics of employment and payrolls for eight provincial governments and the Yukon and Northwest Territories. Information on departmental services and provincial enterprises of Quebec and British Columbia is not available at the present time. The first published quarterly report in this series was for October 1 - December 31, 1959.

The purpose of this survey of provincial government employment is to: (1) provide statistics relative to national labour force and national income and expenditure accounts, (2) provide governments with figures which will serve their needs for statistical measurements of employment, (3) make such data available to research groups, students and the general public.

An analysis of departmental or "general fund" services is given by purpose or "function". This analysis is useful in three ways. First, it permits a detailed study of the employment in each province according to major functions or purposes. Since these functions are not altered by changes in administrative structure which occur from time to time they permit the development of a series which is consistent, with minor changes, over an extended period. Second, since differences in administrative establishment do not seriously affect a function classification it is possible to measure employment in comparable terms between provinces as well as between the various levels of government. Third, this classification permits analysis for each function, of the relationship between expenditures on employment and total expenditures.

Coverage

Data in the report consist of four major groups.

1. DEPARTMENTAL SERVICES: In this publication "General Fund" activities are shown under the heading "Departmental Services". This comprehends the activities carried on by provincial governments as reflected in their Estimates and, in addition, expenditures on employment by special or administrative funds. For a more complete explanation of "General Fund" refer to the annual report published by the Dominion Bureau of Statistics entitled "Financial Statistics of Provincial Governments" (Publication No. 68-207).

2. PROVINCIAL INSTITUTIONS OF HIGHER EDUCATION: These are educational institutions at the university level which are under the control of the provincial government but which are not administered under departmental authority. It will be noted, therefore, that this group does not include certain institutions that are considered in some degree to be provincial institutions of higher education, such as Ontario Agricultural College, Ontario Veterinary College, and others. The latter are included in group one, "Departmental Services".

On the other hand, figures given for "Provincial Institutions of Higher Education" include employment figures for subsidiary organizations that are not recognized as being educational in nature. For example, University of Toronto includes Connaught Medical Research Laboratories.

The educational institutions included in this group are as follows:

Memorial University of Newfoundland
University of New Brunswick
Lakehead College of Arts, Science and Technology
University of Toronto, including:
Athletic Association
Connaught Medical Research Laboratory
Hart House
Insulin Committee
Ontario College of Education
Royal Conservatory of Music
Students Administration Council
University Press
University of Manitoba
University of Saskatchewan, including:
Regina College
University of Alberta, including:
University of Alberta Hospital
University of British Columbia, including:
Victoria College

3. PROVINCIAL GOVERNMENT ENTERPRISES: These produce goods and services for sale to governments or to others, making a direct charge for the goods and services, which is intended to compensate largely or wholly for the cost, or to yield a profit. Often the activity is entrusted to a special organization for administration, and obtains its capital funds by loans from the government or share capital subscribed by the government, or by outside borrowing guaranteed by the government. There is frequently, therefore, a considerable degree of financial and administrative autonomy.

Such activities are not usually carried on by governments, though they may be common to most governments at a certain level. Consequently, they are reported separately from general fund activities for statistical presentation. A list of these enterprises by province follows:

SALARY EARNERS AND WAGE EARNERS

Employees included in these statistics are treated as either Salary Earners or Wage Earners. For the purpose of this report, Salary Earners include all monthly or annually rated staff whether employed on a full-time or a part-time basis. Wage earners are divided into two groups: 1) Wage Earners - Full-Time: These are hourly, daily or weekly rated staff who are employed throughout the year on a full-time basis. 2) Other Wage Earners: These are wage-earning employees who are not employed on a full-time year-round basis. Examples are seasonal, part-time and casual wage earners.

In the accompanying tables, the significant features of provincial government employment within each of the provinces supplying these statistics have been recorded.

Employment and earnings have been reported for each pay period, and in general, are divided between "salary earners" and "wage earners" according to the continuity of employment. The rule followed, where several pay periods occur during the month, is to take the number of individuals reported for the final pay period and the total amount paid to all persons employed during the month. Thus no comparison between numbers and earnings should be made for the purpose of obtaining average earnings, especially in the case of "wage earners" where the numbers on strength may vary substantially within a single month.

Salary earners include those public officials who are appointed for a term of one year or more, such as judges and other court officers paid by the province. Certain justices and judges within the provinces are appointed by the Government of Canada which pays most of their stipend. Since the numbers and Federal payments to these persons are referred to in the "Federal Government Employment" report they have not been included in this report. Any salaries or allowances paid by the Provincial Government, however, have been included and footnoted in the "Provincial Government Employment" report.
