SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- ... figures not appropriate or not applicable.
- .. figures not available.
- x confidential to meet secrecy requirements of the Statistics Act.

Note: Components may not add to totals due to rounding.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- ... n'ayant pas lieu de figurer.
- .. nombres indisponibles.
- x confidentiel en vertu des dispositions de la Loi sur la Statistique relatives au secret.

Nota: Les chiffres ayant été arrondis, les totaux ne correspondent pas toujours.

COMMENTARY

General

A special survey of employment, earnings and hours of work of male and female employees in the industry division "Finance, Insurance and Real Estate" was conducted in October, 1973. The universe of establishments was stratified into two groups, "large" and "small". The former comprised establishments having 20 or more employees in any month of the year, except for the "Banks and Other Deposit Accepting Establishments" (S.I.C. 701) which was classified as "large" regardless of the employment size and were surveyed on a 100% basis. In the "small" group were establishments having fewer than 20 employees throughout the year and a sample of these was asked to supply the information. For details on methodology, classification, concepts and definitions, please refer to the section on Technical Notes.

Employment

The survey showed a total employment of 349,239 in the industry division "Finance, Insurance and Real Estate". The sex ratio was 55.1% female to 44.9% male. The "Finance Industries" (Major Group I of Industry Division "Finance, Insurance and Real Estate", 1970 *Standard Industrial Classification*) contributed 57.3% of total employment, "Insurance Carriers" (Major Group 2) 17.1% and "Insurance Agencies and Real Estate Industry" (Major Group 3), 25.6%.

A large majority of the employees (92.3%) worked on a full-time basis. The "part-time and casual" employment (7.7%) was shared almost equally by "Finance Industries" and "Insurance Agencies and Real Estate Industry"; it was negligible in the third major group i.e., "Insurance Carriers".

In "Finance Industries", the female employment comprised 60.4% of the total employment, but this proportion was considerably larger (74.4%) in the "part-time and casual" employees category. In terms of percentages of "part-time and casual" to total employment, among the three major groups, it was largest in the "Insurance Agencies and Real Estate Industry" group (13.8%) and over two thirds of these were female employees. Women, therefore, contributed the majority of the work force both as full-time as well as "part-time and casual" employees in the "Finance, Insurance and Real Estate Industry." The only exception at the major group level was "full-time" employ-

REMARQUES

Généralités

Une enquête spéciale sur l'emploi, les gains et les heures de travail des hommes et des femmes dans le secteur "Finances, assurances et affaires immobilières" a été effectuée en octobre 1973. L'univers des établissements a été classé en deux groupes: les grands et les petits établissements. Le premier groupe comprenait les établissements comptant au moins 20 salariés chaque mois de l'année, à l'exception des "Banques et autres établissements de dépôts" (C.A.E. 701) que l'on a classés comme grands établissements, sans tenir compte de leur effectif salarié, et qui ont tous été pris en compte dans l'enquête. Figuraient dans le second groupe les établissements comptant moins de 20 salariés pendant toute l'année et un échantillon de ces établissements a été prélevé pour fournir les renseignements. Des renseignements détaillés sur la méthodologie, la classification, les concepts et les définitions figurent au chapitre consacré aux notes techniques.

Emploi

D'après les résultats de l'enquête, il y avait au total 349,239 salariés dans la division "Finances, assurances et affaires immobilières". Les femmes ont représenté 55.1 % de ce groupe et les hommes, 44.9 %. Les "Institutions financières" (groupe I de la division d'activité économique "Finances, assurances et affaires immobilières", *Classification des activités économiques, 1970*) sont intervenues pour 57.3 % de l'emploi total, les "Assureurs" (groupe 2), pour 17.1 % et les "Agences d'assurances et affaires immobilières" (groupe 3), pour 25.6 %.

La plupart des salariés (92.3 %) ont travaillé à plein temps. Les "Institutions financières" et les "Agences d'assurances et affaires immobilières" ont indiqué presque le même effectif salarié "à temps partiel et occasionnel" (7.7 %), mais il a été négligeable dans le groupe des "Assureurs".

Dans les "Institutions financières", les femmes ont représenté 60.4 % de l'effectif total, mais cette proportion a été beaucoup plus importante (74.4 %) dans la catégorie des salariés à temps partiel et occasionnels. Si l'on regarde le pourcentage de cette dernière catégorie par rapport au nombre total de salariés dans les trois groupes, on remarque qu'il a prédominé dans le groupe des "Agences d'assurances et affaires immobilières" (13.8 %), plus des deux tiers des salariés étant de sexe féminin. Les femmes ont cependant représenté la majorité des personnes actives dans le secteur des "Finances, assurances et affaires immobilières," tant pour les catégories à plein temps qu'à temps partiel et occasionnel. Les hommes ont constitué la seule exception au chapitre des salariés à plein temps au niveau des groupes, puisqu'ils sont intervenus pour 58.7 %

ees in the "Insurance Agencies and Real Estate Industry" group where men filled 58.7% of the jobs.

Earnings and Hours

Data on average weekly and hourly earnings and average weekly hours are presented below in a summary Table B. It should be noted that the survey did not request earnings and hours data for employees in the occupational group "Agents and Salesmen", although employment tables include these employees. At the Canada level, employees in the Finance, Insurance and Real Estate industry worked (in the reference week) an average of 35.4 hours at \$4.26 an hour, earning a weekly amount of \$150.71. The average weekly earnings of the "part-time and casual" employees were only one third of the "full-time" employees as a result of 40.3% lower average hourly earnings as well as fewer weekly hours (18.3 hours compared to 36.9 hours for full-time).

A comparison of data for men and women shows that women generally received smaller average weekly earnings than men mainly because of a 77.2% differential in average hourly earnings (\$5.76 for men and \$3.25 for women). The differential between the average hourly earnings of "full-time" and "part-time and casual" employees was 61.6% for men but only 13.9% for women.

Among the three major groups, average weekly earnings in the "Insurance Agencies and Real Estate Industry" group were lower than the other two major groups. Average hourly earnings of men in the "Insurance Carriers" group (\$6.48) were 12.5% higher than the average for the industry division "Finance, Insurance and Real Estate". In the case of women employees the "Finance Industries" major group showed marginally higher average hourly earnings than the other two major groups.

Occupational Groups

The questionnaire for this special survey (see Appendix) was designed to collect employment data under five occupational groups. The earnings and hours details were, however, requested for four of these occupational groups by excluding the "Agents and Salesmen" group. Table C contains selected data classified by the occupational groups.

des emplois dans les "Agences d'assurances et affaires immobilières".

Gains et heures de travail

Les données sur les gains hebdomadaires et horaires moyens et sur la durée hebdomadaire moyenne du travail figurent au tableau récapitulatif B ci-après. Il convient de souligner que pour les salariés du groupe professionnel "Agents et vendeurs" les employeurs n'ont pas été tenus d'indiquer des données sur les gains et heures de travail même si ceux-ci sont compris dans les tableaux sur l'emploi. A l'échelle du Canada, les salariés des "Finances, assurances et affaires immobilières" ont travaillé (pendant la semaine de référence) en moyenne 35.4 heures à un taux horaire de \$4.26 pour des gains hebdomadaires de \$150.71. Les gains hebdomadaires moyens des salariés "à temps partiel et occasionnels" n'ont représenté que le tiers de ceux des effectifs à plein temps par suite d'un écart (40.3 %) entre les taux horaires et entre les périodes hebdomadaires de travail (18.3 heures comparativement à 36.9 heures pour les salariés à plein temps).

Une comparaison des données pour les deux sexes révèle que les femmes ont touché en général des gains hebdomadaires moyens inférieurs à ceux des hommes, principalement à cause d'une différence de 77.2 % entre les deux taux horaires (\$5.76 pour les hommes et \$3.25 pour les femmes). On a constaté une différence de 61.6 % entre les gains horaires moyens des salariés à plein temps et ceux des salariés à temps partiel et occasionnels, mais de seulement 13.9 % dans le cas des femmes.

Dans les trois groupes, ce sont les "Agences d'assurances et affaires immobilières" qui ont affiché les gains hebdomadaires moyens les plus bas. Le groupe des "Assureurs" ont indiqué des gains horaires moyens (\$6.48) 12.5 % supérieurs à la moyenne enregistrée dans le secteur des "Finances, assurances et affaires immobilières". Les salariés du groupe des "Institutions financières" ont touché des gains horaires moyens légèrement supérieurs à ceux des deux autres groupes.

Groupes professionnels

Le questionnaire de cette enquête spéciale (voir l'appendice) a été conçu de façon à recueillir des données sur l'emploi pour cinq groupes professionnels. Les données sur les gains et les heures de travail n'ont cependant porté que sur quatre de ces groupes, laissant de côté le groupe des "Agents et vendeurs". Le tableau C présente certaines données classées par groupe professionnel.

Part-time and casual – À temps partiel et occasionnel . . .	58.42	62.61	55.75	2.98	3.39	2.74	19.6	18.5	20.4	
Total	141.80	178.42	105.57	4.16	5.05	3.21	34.1	35.3	32.9	
Industry Division, Finance, Insurance and Real Estate -- Division d'activité économique, finances, assurances et affaires immobilières:										
Full-time – À plein temps	159.44	217.90	119.78	4.32	5.82	3.27	36.9	37.4	36.6	
Part-time and casual – À temps partiel et occasionnel . . .	56.28	62.18	53.74	3.08	3.60	2.87	18.3	17.3	18.7	
Total	150.71	207.88	113.31	4.26	5.76	3.25	35.4	36.1	34.9	

The percentage distribution of employees by occupational group was:

	Per cent
(i) Executive managerial	7.2
(ii) Supervisory, including operating managers	14.7
(iii) Clerical and related	58.0
(iv) Maintenance and service staff	8.2
(v) Agents and salesmen	11.9
All occupational groups	100.0

In terms of relative concentration of male and female employees in the occupational groups, the higher paid "Executive Managerial" and "Supervisory including Operating Managers" groups employed only a small proportion of women – 5.6% in the former and somewhat better i.e. 22.7% in the latter. Female employment was heavily concentrated (80.9%) in the "Clerical and Related" occupations, where average weekly earnings were considerably lower than the two above mentioned occupational groups. The average weekly and hourly earnings of female employees were lower than those of male employees in each of the occupational groups. The percentage difference in male over female average hourly and weekly earnings, at the combined level for all occupational groups, was 77.2% and 83.5%, respectively. This resulted both from the predominance of men in the higher paid occupational groups and their relatively higher average hourly earnings in each group. To some extent, however, the differential between male and female average weekly earnings was due to 3.4% fewer average weekly hours worked by the latter.

Voici la répartition en pourcentage des salariés par groupe professionnel:

	Pourcentage
(i) Direction	7.2
(ii) Surveillance, y compris la direction d'exploitation	14.7
(iii) Travail de bureau et professions connexes.	58.0
(iv) Personnel d'entretien et préposés au service.	8.2
(v) Agents et vendeurs	11.9
Tous les groupes professionnels	100.0

Pour ce qui est de la concentration relative des salariés de sexe masculin et féminin dans les groupes professionnels, on remarque que les deux groupes les mieux rémunérés, soit "Direction" et "Surveillance, y compris la direction d'exploitation", ne comptaient qu'un faible pourcentage de femmes (5.6 % dans le premier cas et 22.7 % dans le second). La plus forte concentration de femmes se retrouve dans le groupe "Travail de bureau et professions connexes" (80.9 %) où les gains hebdomadaires moyens ont été considérablement moins élevés que dans les deux groupes susmentionnés. On a aussi constaté que les gains horaires et hebdomadaires moyens des femmes étaient inférieurs à ceux des hommes dans tous les groupes professionnels. En combinant tous les groupes professionnels, il ressort une différence de 77.2 % et de 83.5 % respectivement entre les gains horaires et hebdomadaires moyens des femmes et des hommes. Cela s'explique par le fait que les hommes sont plus nombreux dans les groupes à rémunération élevée et qu'ils touchent des gains horaires moyens relativement plus élevés. Cette différence entre les gains horaires moyens des hommes et des femmes est attribuable, jusqu'à un certain point, cependant, au fait que la durée hebdomadaire du travail est moins longue (de 3.4 %) chez ces dernières.

TECHNICAL NOTES

NOTES TECHNIQUES

General

The survey of Employment, Earnings and Hours of work of male and female employees in the industry division "Finance, Insurance and Real Estate" (*1970 Standard Industrial Classification, Catalogue 12-501*) was conducted in October, 1973. The following paragraphs provide technical information on this survey.

Methodology and Concepts

(i) Methodology

The sampling methodology consisted of, initially a stratification of the universe of establishments into two main segments as follows:

- A. Establishment having 20 or more employees in any month of the year, referred to as "large establishments". The head offices and branches of the chartered banks were included in this segment regardless of individual employment size.
- B. Establishments having fewer than 20 employees throughout the year, referred to as "small establishments".

Establishments in Segment A. were surveyed on a 100% basis. The units in Segment B. were sampled at an overall rate of approximately 10%. The sampling procedure was designed to produce data for 22 census metropolitan areas, in addition to the province and Canada level aggregations. A simple random sampling technique with probability proportional to size was applied after obtaining frequencies for each stratum, i.e. the number of units in each 3-digit S.I.C. (Standard Industrial Classification) code, for the specified geo-areas.

(ii) The Questionnaire

The survey questionnaire is reproduced as Appendix to this publication. Although data were requested separately for "part-time employees" and "casual employees", at the tabulation stage, these two categories were combined into one, "part-time and casual" employees. This publication does not contain earnings and hours data for the occupational group "Agents and Salesmen" because this information was not collected in the survey.

(iii) Reference Period

The reference period for all data presented in this report is the last payweek in October, 1973. The year

Généralités

L'enquête sur l'emploi, les gains et les heures de travail des hommes et des femmes dans la branche "Finances, assurances et affaires immobilières" (*Classification des activités économiques, 1970, n° 12-501 au catalogue*) a été effectuée en octobre 1973. Les paragraphes suivants fournissent des renseignements techniques sur cette enquête.

Méthodologie et concepts

(i) Méthodologie

La méthode d'échantillonnage comportait, au départ, une stratification de l'univers des établissements en deux groupes principaux:

- A. Les établissements comptant 20 salariés et plus toute l'année (ou grands établissements). Les bureaux principaux et les succursales des banques à charte ont été rattachés à ce groupe sans tenir compte de l'effectif de chacun.
- B. Les établissements comptant moins de 20 salariés toute l'année (ou petits établissements).

Tous les établissements du groupe A ont été pris en compte. Les unités du groupe B ont été tirées d'un échantillon à un taux global d'environ 10%. La méthode d'échantillonnage a été conçue de façon à produire des données pour 22 régions métropolitaines de recensement en plus d'agrégats au niveau des provinces et du Canada. Après avoir obtenu les fréquences pour chaque strate, c'est-à-dire le nombre d'unités pour chaque code à 3 chiffres de la C.A.E. (*Classification des activités économiques*), en ce qui concerne certaines régions géographiques, on a appliquée une technique simple d'échantillonnage aléatoire avec probabilités proportionnelles à la taille des établissements.

(ii) Le questionnaire

Le questionnaire de l'enquête figure à l'annexe de la présente publication. Bien que l'on ait demandé des données séparées pour les "salariés à plein temps" et les "salariés occasionnels", on a regroupé, au moment de la totalisation, ces deux catégories en une seule: "salariés à temps partiel et occasionnels". Cette publication ne renferme pas de données sur les gains et les heures de travail du groupe professionnel "Agents et vendeurs", ces renseignements n'ayant pas été collectés dans l'enquête.

(iii) Période de référence

La période de référence pour toutes les données présentées dans ce bulletin est la dernière semaine de paie

1973 is given in the title of this report because the statistics resulted from the 1973 special survey.

(iv) Industrial Classification

Data in this report are based on the *1970 Standard Industrial Classification* (Catalogue 12-501) in which an establishment is defined as "the smallest unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including employment and payrolls data". For further details on the industrial classification, please refer to the *Standard Industrial Classification Manual*.

(v) Definitions

The following are the various definitions used in this survey.

Employee — Anyone who works for an employer in Canada and receives pay for services rendered or for paid absence in the reference period last payweek in October, 1973. The payment may be in the form of wages, salary, commission, fees, stipends or a combination of these types of payments. A qualifying condition is that the employer makes Canada/Quebec Pension Plan contributions on behalf of the employee.

Full-time employees — Those who regularly work the required number of hours in the standard work week established by the employer or under the terms of a collective agreement. These employees may be referred to as permanent or temporary, as long as they are expected to work regularly and for the standard work week.

Part-time employees — Those employees who work on a regular basis but whose hours of work are significantly less than the standard work week applicable to full-time employees in the same establishment.

Casual employees — Those employees hired on an irregular basis for relief or emergency purposes and for periods of short duration, without any prospect of extension. Casual employees may or may not be required to work the number of hours scheduled in the standard work week.

Total hours — Represent total hours worked at straight time or premium rates. The respondents were instructed **not** to include bonus hours credited to calculate overtime at straight time rates. For example, if an employee worked one hour of overtime at

d'octobre 1973. L'année 1973 figure dans le titre de la publication, car les statistiques proviennent de l'enquête spéciale pour 1973.

(iv) Classification des activités économiques

Les données contenues dans la présente publication se fondent sur la *Classification des activités économiques de 1970* dans laquelle un établissement est défini comme "la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques y compris les données sur l'emploi et la rémunération". Pour plus de renseignements sur la classification des activités économiques, consultez la publication *Classification des activités économiques*.

(v) Définitions

Voici les diverses définitions utilisées dans cette enquête:

Salarié — Toute personne qui a travaillé pour un employeur au Canada et qui a touché une rémunération pour services rendus ou pour un congé payé au cours de la période de référence (dernière semaine de paie d'octobre 1973). Le paiement peut être sous forme de salaires, de traitements, de commissions, d'honoraires, d'appointments ou d'une combinaison de ceux-ci. Il faut enfin que l'employeur verse au bénéfice du salarié des cotisations au Régime de pensions du Canada ou au Régime de rentes du Québec.

Salariés à plein temps — Sont compris dans cette catégorie les salariés qui travaillent le nombre requis d'heures d'une semaine normale de travail établi par l'employeur ou aux termes d'une convention collective. Ces personnes sont considérées comme salariés permanents ou temporaires tant et aussi longtemps qu'elles travaillent de façon régulière et toute la semaine normale de travail.

Salariés à temps partiel — Sont compris ici ceux qui travaillent régulièrement, mais dont la semaine de travail est beaucoup plus courte que la semaine normale de travail des salariés à plein temps du même établissement.

Salariés occasionnels — Sont compris dans cette catégorie les salariés qui sont engagés sur une base irrégulière, pour de courtes durées et sans aucune perspective de prolongement, en vue d'atténuer la charge de travail ou en cas d'urgence. Les employés occasionnels peuvent être appelés ou non à travailler le nombre d'heures que compte la semaine normale de travail.

Nombre total d'heures de travail — Il s'agit du nombre total d'heures de travail au taux normal ou majoré. On avait demandé aux enquêtés de ne pas compter les heures de majoration pour calculer les heures supplémentaires au taux régulier. Ainsi si une personne a fait une heure sup-

time-and-a-half, only one hour was to be accounted for in reporting total hours. Similarly, if he worked on a paid holiday, only the hours worked, not the holiday pay hours were to be reported. For employees on paid holidays, the number of hours normally expected to work were to be included in the total hours.

Earnings: Gross payroll – The gross payroll (in the last pay week in October) for employees in each occupational group, except “agents and salesmen”. Gross payroll includes all earnings from salaries, wages, commissions, fees, stipends, before deductions are made for Income Tax, Unemployment Insurance, Canada/Quebec Pension Plan, etc., including payments made to employees on paid absence. Payments not made directly to employees such as employer contributions to insurance, pension or other such funds were to be excluded.

plémentaire à temps et demi, il ne fallait indiquer qu'une heure. De même, si elle a travaillé un jour férié, elle ne devait déclarer que les heures travaillées et non les heures rémunérées de ce jour férié. Dans le cas des salariés en congé payé, il fallait inclure dans le nombre total d'heures le nombre d'heures qu'il auraient dû travailler.

Gains: Rémunération brute – Il s'agit de la rémunération brute (dans la dernière semaine de paie d'octobre) des salariés de chaque groupe professionnel à l'exception des “Agents et vendeurs”. La rémunération brute comprend tous les gains provenant de traitements, salaires, commissions, honoraires et appontements avant les retenues d'impôt sur le revenu, d'assurance-chômage, du Régime de pensions du Canada ou du Régime de rentes du Québec, etc., y compris les paiements versés aux salariés en congé payé. Il ne fallait pas compter les paiements non versés directement aux salariés comme les cotisations de l'employeur à un régime d'assurance, de pension ou à un autre fonds de même nature.

Occupational Group

Groupes professionnels

Executive Managerial

This group includes occupations concerned with carrying out managerial and administrative activities, as described under the master title Manager, in banks, credit agencies, investment and insurance companies, or similar institutions. Activities include: determining or advising other officials of the financial implications of policies; determining and advising on credit and investment policies; and negotiating with financial or other institutions on matters affecting the general policy of the organization. Some examples are: President, Director, General Manager, Bank Manager, etc.

Direction

Ce groupe comprend les personnes exerçant des activités de direction et d'administration décrites sous le titre principal de DIRECTEUR, dans les banques, les organismes de crédit, les sociétés de placements et d'assurance ou les institutions semblables. Les activités comprennent: établir les conséquences financières des politiques et en informer les autres administrateurs; établir des politiques de crédit et de placement et conseiller en ce domaine; et traiter avec des institutions financières ou autres de questions touchant la politique générale de l'organisation. Voici des exemples: président, directeur général, directeur de banque, etc.

Supervisory including Operating Managers

This group includes middle management and supervisory occupations concerned with such activities as examining and interpreting accounts and other financial records and policies; supervising accounting and auditing services, conducting programmes of recruitment, selection, placement, training, etc. Some examples are: Accountant, Auditor, Personnel Officer, Bank Inspector, Loan Officer/Adviser, Trust Officer, Mortgage Consultant, Public Relations Officer, etc.

Surveillance, y compris la direction d'exploitation

Ce groupe comprend les cadres intermédiaires et les surveillants qui s'occupent d'étudier et d'interpréter des comptes et d'autres dossiers et politiques en matière de finance, de surveiller des services de comptabilité et de vérification, de mener des programmes de recrutement, de sélection, de placement, de formation, etc. Voici des exemples: comptable, vérificateur, agent de personnel, inspecteur de banque, agent/conseiller en prêts, agent de société de fiducie, expert-conseil en hypothèques, agent en relations publiques, etc.

Clerical and Related

This group includes occupations concerned with recording transcribing, typing, composing correspondence, classifying and filing, organizing and recording data into accounts and quantitative records, paying and receiving money, operating office machines

Travail de bureau et professions connexes

Ce groupe comprend les personnes s'occupant d'enregistrer des transcriptions, de dactylographier, de rédiger de la correspondance, de classer et de constituer des dossiers, de préparer et de consigner des données sur des comptes et des dossiers quantitatifs, d'effectuer des paie-

and electronic data processing equipment, performing other minor administrative and general clerical duties. Examples in this category are: Clerk, Typist, Stenographer, Secretary, Account Clerk, Audit Clerk, Bookkeeper, Payroll Clerk, Bank Cashier, Bank Teller, Annuity Record Clerk, Claims Calculator, Securities Clerk, Statistical Clerk, Office Machine Operator, Adjusters, etc.

Maintenance and Service Staffs

This group includes occupations concerned with cleaning building interiors and equipment, operating elevators, tending heating/air conditioning equipment, providing protective services, etc. Some examples are: Attendant, Caretaker, Armed Guard, Building Superintendent (Janitor), Office Cleaner, Elevator Operator, etc.

Agents and Salesmen

This group includes occupations concerned with conducting businesses which sell services such as insurance, real-estate and securities, supervising and co-ordinating activities of workers engaged in selling and leasing real-estate property; buying and selling securities such as stocks and bonds, etc. Examples in this category are: Insurance salesman and agent, real-estate salesman, salesman and trade – Securities, Investment Broker, Mortgage Broker, Stock Broker, Insurance Adjuster, Real-estate Appraiser, Investment Counsellor, etc.

ments et de recevoir des créances, de faire fonctionner des machines de bureau et du matériel de traitement électronique des données, d'accomplir d'autres tâches administratives simples et d'exercer des fonctions générales de bureau. Voici des exemples: commis, dactylographe, sténographe, secrétaire, commis aux comptes, commis à la vérification, teneur de livres, commis à la rémunération, caissier de banque, commis de banque, commis aux rentes/pensions, agent des réclamations, commis en valeurs mobilières, commis statistique, opérateur de machine de bureau, expert/arbitre, etc.

Personnel d'entretien et préposés au service

Ce groupe comprend les personnes s'occupant de nettoyer le matériel et l'intérieur de bâtiments, de conduire des ascenseurs/élévateurs, de surveiller du matériel de chauffage/climatisation de l'air, de fournir des services de protection, etc. Voici des exemples: surveillant, garde, garde armé, chef d'entretien (concierge), liftier, etc.

Agents et vendeurs
