GOVERNMENT OF CANADA

LIST OF ESTABLISHMENTS

VOLUME V

PROVINCE OF BRITISH COLUMBIA

DOMINION BUREAU OF STATISTICS

1952

8004-516
9-9-52

EXPLANATORY NOTES

1. - This list of establishments contains all those reporting to the Unemployment Insurance Commission for the Semi-Annual Report on Hirings and Separations. Thus it is composed of all establishments employing one or more insured persons and having in all 10 employees or more, except that all establishments of chain and multiple firms are included.
2. - Establishments of chain and multiple firms are identified by an asterisk which appears immediately before the approximate number of employees.
3. - Certain firms submit consolidated reports for Canada as a whole or for the separate provinces (a few submit consolidated reports for the three Prairie Provinces). Those consolidating for Canada are listed at the beginning of each provincial list and are followed immediately in each case by the appropriate list of provincial consolidations.
4. - Establishments are listed alphabetically by firm name, sorted on the first 15 letters. Abbreviations have been avoided wherever possible but in a few cases "Can." has been used for "Canadian". "The" at the beginning of a firm name has been ignored in alphabetising. Where an individual's name comprises the firm name, the surname is listed first.
5. - Efforts have been made to render this list as current, complete and accurate as possible. New establishments are constantly being added and others going out business or changing their names, addresses or ownership. The list is being revised constantly and new editions of this listing will be issued as often as the volume of changes requires.
6. - Establishments in the Yukon Territory are included with the province of British Columbia.
