

# TEXAS-CANADA

**A STRONG PARTNERSHIP IN AGRICULTURE**  
*Let's keep a good thing growing!*

**AGRICULTURAL TRADE =  
 \$1.6 BILLION IN 2015**

**TEXAS' TOP AGRICULTURE AND AGRI-FOOD EXPORT MARKETS:**

**A STRONG PARTNERSHIP IN TRADE:**

**Keep trade moooving!** – Beef cattle production represents one of the largest single segments of agriculture in Texas. Canadians showed that they enjoy Texas beef products by importing \$71M of fresh and frozen beef products in 2015, making Canada one of Texas' top export markets for beef. Meanwhile, Texans had the opportunity to taste Canadian beef by importing \$84M of fresh and frozen beef products. This trading relationship allows consumers in both Texas and Canada to taste beef of exceptional flavor, tenderness and juiciness. Canadians enjoy importing over \$225M of fruit and nuts from Texas, because of its warmer climate. Meanwhile, Texans imported \$90M in baked goods from Canada. The U.S.-Canada trading relationship is increasingly important as trade and integration mutually strengthen our competitive position within the changing global marketplace.
