Preface

This report presents the notifiable diseases data for Canada that was collected for the thirteen (13) four-week epidemiological periods and one two-week period in 1989. There were no changes in the nationally reportable diseases collection system this year. The first table is a disease by province/territory breakdown of the data while the remaining tables are age by sex breakdowns for Canada and for each of the provinces/territories. Corrected tables for 1988 appear in the attached appendices. Any questions about the information published in this report or for more information about the notifiable diseases database contact:

Préface

Ce rapport présente les données sur les maladies à déclaration obligatoire recueillies au Canada pendant les périodes épidémiologiques de 1989, soit treize (13) périodes de quatre semaines et une de deux semaines. Au cours de l'année, aucune modification n'a été apportée au système de collecte s'appliquant aux maladies qui doivent être déclarées à l'échelle nationale. Le tableau 1 répartit les données selon les maladies par province et territoire; et les autres, selon l'âge et le sexe pour l'ensemble du Canada ainsi que pour chaque province et territoire. Les tableaux corrigés pour l'année 1988 sont présentés en annexe. Pour plus de renseignements sur le contenu du rapport ou sur la base de données sur les maladies à déclaration obligatoire, s'adresser à:
