WEST COAST AGENCY

DETAILED REPORT

WEST COAST AGENCY

Visitations of the principal Reserves of the West Coast Agency and meetings with the Indians thereof occupied the Commission from the 6th to 23rd May, 1914, Mr. Agent Cox being also examined under oath on the 19th and 23rd May, 14th August and 24th October, 1914, and on the 13th September, 1915, as to the Reserves of his Agency and conditions obtaining with respect thereto.

The Indians of the West Coast Agency depend almost exclusively for their livelihood upon the fishing, for food supply and for the canneries, and for this reason their Reserves are for the most part of limited area and located at points of special advantage in relation to the fishing industry. The larger Reserves of the Agency present few evidences of cultivation, and the areas previously allotted in the cases of Tsahaheh Reserve No. 1 of the Seshart Tribe and Numekamis Reserve No. 1 of the Ohiet Tribe, being regarded by the Commission as in excess of the reasonable requirements of the Indians, these Reserves were reduced by the cutting off of 240 acres in the one instance and 600 acres in the other, 840 acres in total of Agency reductions.

At the time of the Commission's appointment there were established for the 1683 Indians comprising the population of the West Coast Agency, 150 Reserves, with an aggregate area of 12,385.1 acres, or 7.35 acres per capita for the Agency. The representations of the Indians in respect to their needs were almost wholly incidental to their fishing, being either applications for new fishing station Reserves or (more generally) for special privileges or concessions in respect to fishing.

Careful consideration of the 52 applications filed for additional Reserves in the Agency, and investigation of the status of the various parcels of land applied for, convince the Commission of the reasonable necessity for some of the lands applied for being granted the applicant Indians, and as a result fourteen additional Reserves have been established and constituted with acreages ranging variously from 2.80 to 170.00, the aggregate allowance being 657.15 acres. The allowances thus made by the Commission, upon approval of the same, will leave the total area of the 164 Reserves of the West Coast Agency, less reductions as hereinbefore mentioned, 12,200.25 acres, giving a slightly reduced per capita of 7.24 acres.

In one particular case affecting the rights and interests of Indians of the Clayoquot Tribe in an ancient and annually used fishing station and village on Flores Island, the Commission found the land including such station and village, which the Indians asked to have formally established as a Reserve, to have been affected by a Pre-emption; and, with the agreement of the Government of British Columbia, allowed as a Reserve the land covered by such Pre-emption, upon due compensation being made by the Government of Canada for the improvements made by the Pre-emptor.

The Commission having under consideration a Memorandum of the Department of Lands of the Province of British Columbia re Additional Lands Applications of Indians of the West Coast Agency, signed by the Deputy Minister and bearing date of the 7th January, 1916, wherein the following paragraph occurs, having reference to Application No. 18 of said West Coast Agency:

"No. 18—Request for 12.6 acres to be taken from Lot 1560, Clayoquot District, being the survey of Frank C. Perrotta's Pre-emption (P. R. No. 1271): In this matter the Hon. the Minister of Lands is of the opinion that an arrangement should be made by the Royal Commission for the payment to the Pre-emptor of the value of the improvements placed by him on the lands held under his Record, as the pre-emptor has expressed the desire to receive payment for his improvements and retire altogether from the lands surveyed as Lot 1560. If this were done and an adjustment reached to the satisfaction of the Pre-emptor, the Minister would be prepared to place the whole of Lot 1560 at the disposal of the Commission for Indian purposes; this would obviate the necessity for further survey and prevent probable conflict as between the Pre-emptor and the Indians;"

And it appearing to the Commission that the procedure suggested by the Honourable the Minister of Lands for British Columbia, as cited in the above

quoted Memorandum of the 7th January ultimo, would provide the most satisfactory and economical solution of difficulties incident to the preservation for the use and benefit of the Indians of the Ahousaht Band, Clayoquot Tribe, of their ancient village, cleared land and fishing station at Kut-co-us Point, Flores Island, contained within the aforementioned Lot No. 1560, Clayoquot District, it was

ORDERED: That the Resolution of the 12th August, 1915, establishing and constituting as a Reserve of the Ahousaht Band of the Clayoquot Tribe, a certain described tract or parcel of land at Kut-co-us Point, Flores Island, Clayoquot Sound, containing an area of Twelve and sixty-onehundredths (12.60) acres, more or less; together with Interim Report No. 83 of this Commission, dated the 12th August, 1915, and implementing and ordered by the said Resolution, BE RECONSIDERED, RESCINDED and RECALLED.

ORDERED: That

"WHEREAS the Commission is aware of the necessity for early action securing the Indians of the Ahousaht Band of the Clayoquot Tribe, West Coast Agency, in peaceable possession of their ancient village and fishing station at Kut-co-us Point, Flores Island, Clayoquot Sound;

"AND WHEREAS the Honourable the Minister of Lands of the Province of British Columbia has offered to place at the disposal of the Commission all that certain tract or parcel of land known and described as Lot No. 1560, Clayoquot District, containing an area of ninety-eight and two-tenths (98.20) acres, more or less, within which the said ancient village and fishing station are contained, upon due compensation being made to one Frank C. Perrotta for improvements made by him within and upon the said Lot No. 1560 under and by virtue of his Pre-emption Record No. 1271;

"AND WHEREAS in the opinion of the Commission it is in the public interest and in the interest of the applicant Indians of the Ahousaht Band of the Clayoquot Tribe that the aforementioned offer of the Honourable the Minister of Lands of the Province of British Columbia should be accepted and Lot No. 1560, Clayoquot District, in its entirety established and constituted a Reserve for the use and benefit of the applicant Ahousaht Band of the Clayoquot Tribe,

"BE IT RESOLVED: That there be granted and allowed to the applicant Ahousaht Band of the Clayoquot Tribe, and established and constituted a Reserve for the use and benefit of the said Ahousaht Band, all that certain tract or parcel of land known and described as Lot No. 1560, Clayoquot District, containing an area of Ninety-eight and two-tenths (98.20) acres, more or less, surveyed, subject to due compensation being made by the Government of the Dominion of Canada to Frank C. Perrotta on account of improvements made by him upon the said Lot No. 1560, under and by virtue of Pre-emption Record No. 1271, issued in the name of the said Frank C. Perrotta, and upon relinquishment by him, the said Frank C. Perrotta, of all right, title and interest in the said Pre-emption Record No. 1271 and the said Lot No. 1560, Clayoquot District;

"AND BE IT FURTHER RESOLVED: That an Interim Report be prepared and transmitted to His Royal Highness the Governor-General of Canada-in-Council and to His Honour the Lieutenant-Governor of British Columbia-in-Council embodying these Minutes and recalling, rescinding, cancelling and replacing Interim Report No. 83 of this Commission, dated the 12th August, 1915, and herein referred to."

Victoria, B.C., February 10th 1916.

FISHERY RIGHTS OF INDIANS IN B. C.

MINUTE and RESOLUTION of the 6th June, 1916:

"WHEREAS former Indian Reserves Commissioners, acting under joint Governmental Agreements, allotted defined Fishery Rights to certain Tribes or Bands of Indians in British Columbia;

"WHEREAS this Commission has been unable to obtain any advice from the law officers of the Crown in right of the Dominion of Canada as to the authority of the said former Commissioners to allot such fishery rights;

"AND WHEREAS this Commission desires that any right or title which Indians may have to such allotted fisheries may not be adversely affected by inaction on its part—

"BE IT RESOLVED: That, to the extent to which the allotting Commissioners had authority to allot such Fishery Rights, this Commission, insofar as the power may lie in it so to do, CONFIRMS the said allotted Fishery Rights as set forth in the Schedule hereto appended:

SCHEDULE
