

# TRADE AND INVESTMENT

## CANADA-TURKEY

#### **COUNTRY PROFILE**

Turkey's Economy

- Gross domestic product (GDP) at purchasing power parity (PPP): US\$1.5 trillion (2014)
- GDP per capita at PPP: US\$19,200 (2014)
- Population: 75.8 million (2014)
- Merchandise exports and imports: 50% of GDP at official exchange rates (2014)
- Canada's 27<sup>th</sup> largest merchandise trade partner (2014)
- Canada's 46<sup>th</sup> largest services trade partner (2013)

Notable Trade and Investment Agreements between Canada and Turkey

None

#### **NOTES**

The Library of Parliament Trade and Investment series provides information on Canada's trade and investment relationship with the world and with selected countries. It also describes the trade relationship of each of Canada's 10 provinces and three territories with the world.

All figures were prepared using Statistics Canada data available in summer 2015.

To see the data tables used to generate the figures, view the HTML version of this paper at <u>Trade and Investment Series 2014</u>.

The merchandise trade data are customs-based; the services trade data and foreign direct investment data are balance of payments based.

Numbers in this paper have been rounded.

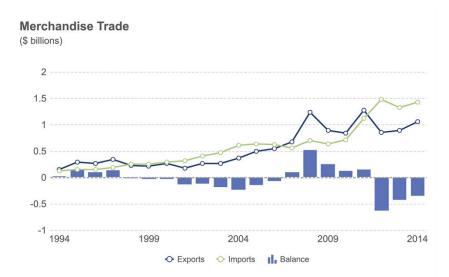

Definitions appear at the end of this paper.

All dollar amounts are in Canadian dollars unless otherwise noted.

In relation to the Country Profile box, data for GDP at PPP, GDP per capita at PPP, population, and merchandise exports and imports as a share of GDP are from the World Bank's World Development Indicators database. The rankings are based on Statistics Canada data.

The five most highly valued merchandise export and import categories have been identified based on 2014 values.

#### CANADA'S MERCHANDISE TRADE WITH TURKEY

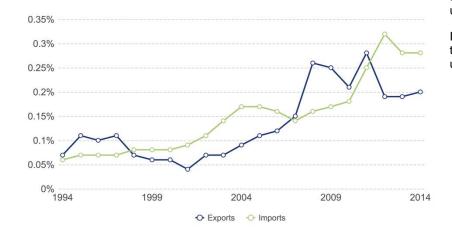

Bilateral merchandise trade in 2014: \$2.5 billion

- Exports: \$1.1 billion, a 19.6% increase over 2013
- Imports: \$1.4 billion, a 7.9% increase over 2013

Trade deficit in 2014: \$359.9 million, a decrease from \$430.6 million in 2013

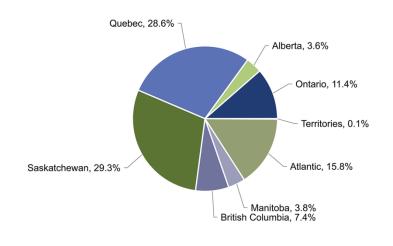

#### **Share of the Total Value of Canadian Trade**

Exports in 2014: 0.2% of the total value of Canadian exports, unchanged from 2013

Imports in 2014: 0.3% of the total value of Canadian imports, unchanged from 2013

#### Share of Exports by Province/Territory

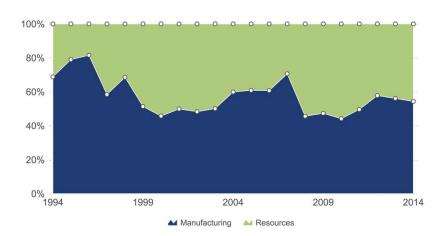

Highest-valued exporters in 2014:

- Saskatchewan \$311.8 million, an increase from \$205.2 million in 2013
- Quebec \$303.9 million, an increase from \$226.4 million in 2013

### **CANADA'S TRADE IN PRODUCTS WITH TURKEY**

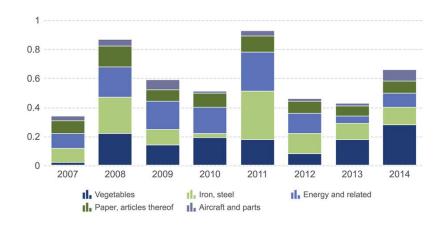

#### Share of Exports by Sector

#### Exports in 2014:

- Resource-based goods 45.7%, an increase from 43.9% in 2013
- Manufactured goods 54.3%, a decrease from 56.1% in 2013

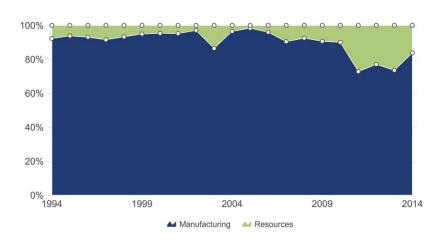

## Most Highly Valued Exports by Product Category (\$ billions)

Highest-valued exports in 2014: Dried lentils and ferrous metal scrap, together accounting for 36.6% of the total value of Canadian exports

- Dried lentil exports: 268.7 million, an increase from \$163.3 million in 2013
- Ferrous metal scrap exports:
   \$120.5 million, an increase from
   \$99.0 million in 2013

#### Share of Imports by Sector

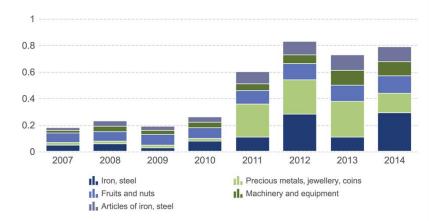

#### Imports in 2014:

- Resource-based goods 16.2%, a decrease from 26.4% in 2013
- Manufactured goods 83.8%, an increase from 73.6% in 2013

#### **CANADA-TURKEY**

## Most Highly Valued Imports by Product Category

(\$ billions)

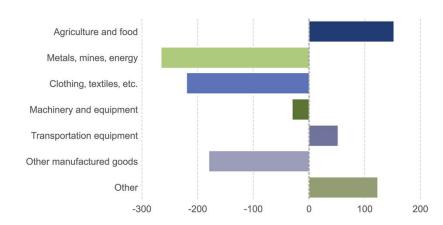

Highest-valued imports in 2014: Gold and hazelnuts, together accounting for 14.2% of the total value of Canadian imports

- Gold imports: \$125.2 million, a decrease from \$250.6 million in 2013
- Hazelnut imports: \$77.2 million, a decrease from \$82.1 million in 2013

## Trade Balance by Product Category

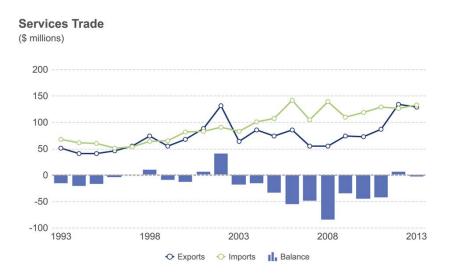

(\$ millions)

Largest merchandise trade deficit in 2014: Metals, mines and energy, at \$265.4 million

Largest merchandise trade surplus in 2014: Agriculture and food, at \$151.9 million

### **CANADA'S SERVICES TRADE WITH TURKEY**

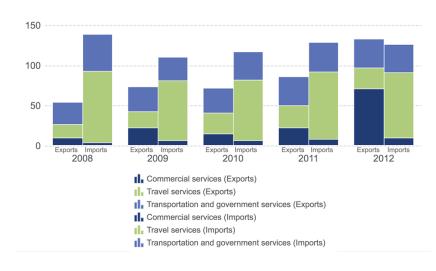

Bilateral services trade in 2013: \$261.0 million

- Exports: \$129.0 million, a 3.0% decrease over 2012
- Imports: \$132.0 million, a 4.8% increase over 2012

Trade deficit in 2013: \$3.0 million, a decrease from a trade surplus of \$7.0 million in 2012

#### **Services Trade by Type**

(\$ millions)

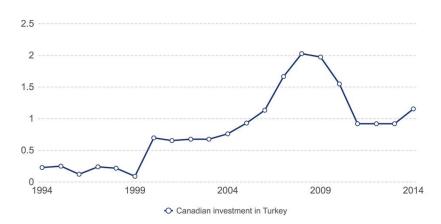

Services trade surplus in 2012, the most recent year for which services data are available by type: Largely due to commercial services trade

- Commercial services exports: \$71.0 million
- Commercial services imports: \$10.0 million

### **CANADA'S FOREIGN DIRECT INVESTMENT WITH TURKEY**

## Stock of Foreign Direct Investment (\$ billions)

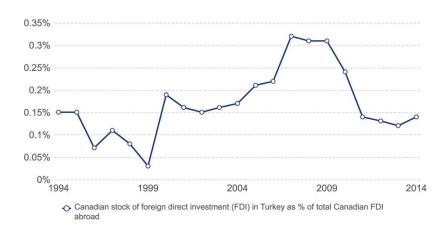

Stock of Canadian direct investment in Turkey in 2014: \$1.2 billion, a 25.5% increase over 2013

Turkey as a destination for Canadian foreign direct investment among the 61 countries for which data were available for 2014: 32<sup>nd</sup> largest

Data on Turkish direct investment in Canada are not available

#### **Share of Foreign Direct Investment Stock**

0.1% of Canada's foreign direct investment stock was in Turkey in 2014, unchanged from 2013

Data on Turkish direct investment in Canada are not available

#### DEFINITIONS

**Balance of payments—based data:** Balance of payments—based data calculate trade flows using surveys of international trade and investment activity of firms and other entities.

**Balance of trade:** The trade balance is the difference between the value of exports and the value of imports. There is a trade surplus if the value of exports exceeds the value of imports. There is a trade deficit if the value of imports exceeds the value of exports.

**Customs-based data:** Customs-based data are compiled from declarations filed with the Canada Border Services Agency and are used to track the flow of goods into and out of Canada.

**Foreign direct investment (FDI):** FDI occurs when an investor residing in one country holds at least 10% equity in an enterprise resident in another country. The stock of FDI is the value of the accumulated equity owned by investors abroad; the stock changes from year to year based on flows of FDI.

**Gross domestic product (GDP):** GDP measures an economy's total production in a given year. As one entity's income is another entity's spending, GDP is equal to the total value of final sales or to the total value of incomes.

**Manufactured goods:** Manufactured goods are finished or semi-finished products resulting from the transformation of materials and substances into new products (North American Industry Classification System, or NAICS, codes 31 to 33) and the output of establishments primarily engaged in operating electric, gas and water utilities (NAICS code 22).

**Merchandise trade:** Merchandise trade refers to trade in physical goods, such as cars, wheat and iron ore.

**Purchasing power parity (PPP):** To adjust for price differences across countries for identical products, a calculation of GDP that uses PPP assumes that a given product has the same price in each country.

**Resource-based goods:** Resource-based goods are products of the agriculture, forestry, fishing and hunting sector (NAICS code 11), as well as the mining, quarrying, and oil and gas extraction sector (NAICS code 21).

**Services trade:** Services trade is trade in travel, transportation and government, and commercial services. Travel services are goods and services purchased abroad by travellers, with one exception: cross-border transportation. Transportation services are the transportation of goods and cross-border travellers, and related services. Government services arise largely from official representation and military activities, and some governmental commercial activities. Commercial services are all other services, such as management, financial or engineering services; the category also includes charges for the use of intellectual property.
