INFORMATION CANADA—PUBLISHING DIVISION

Information Canada, through its publishing division, operates a bookstore service for the federal government. It is a central government publishing agency administered to provide Parliament and the federal government departments and agencies with the best methods of print procurement, the best and most economical form of publication, and the best means of distribution.

To provide the best means of distribution, the Documents Library has developed a system of cataloguing which is unique to government publications.

(a) **Compilation and issuance of official catalogues and price lists**

Daily Checklist

The bilingual **Daily Checklist**, published mainly for administrative convenience, is issued Monday through Friday except public holidays. It records all government publications so that they are readily accessible to the Public Service and the public and quickly made known to libraries. The Daily Checklist is mailed to all who need day-to-day information on what is being published by Parliament and the various departments of the Government of Canada. The material which appears in the Daily Checklist is used to compile a monthly catalogue. Those who are entitled by law to a free copy of government publications receive the Daily Checklist without charge as well as the Special List which is published irregularly. This carries free publications available only from the issuing departments, and priced publications obtainable only from Information Canada. Others may subscribe to it for \$25 a year, delivered daily, or \$12.50 a year delivered on a weekly basis.

Monthly Catalogue

The bilingual **Monthly Catalogue of Government Publications** is a comprehensive listing of official publications, public documents and papers, not of a confidential nature printed or "processed" at government expense by authority of Parliament or that of a Department, Commission, Board, Corporation, etc., of the Government, including publications bought at public expense for use of, or distribution to, Members of Parliament, public officials or the public.

For information purposes only, it also lists those few publications with an extremely limited distribution and not available to the public and which, at the issuing department's request, are not in the Daily Checklist for reasons peculiar to the department concerned.

Each issue of the Monthly Catalogue contains all items listed in the Daily Checklists and Special List during the previous month and is ready for distribution during the third week of the following month. Prices and distribution policy are stated for each title listed for the guidance of prospective buyers, librarians and the interested public.

Consolidated Catalogue, 1953

The **Canadian Government Publications Consolidated Catalogue, 1953**, supersedes the Catalogue of 1948 and supplements to 1952 and incorporates all the entries from the Monthly Catalogue of Canadian Government Publications, January to September, 1953 inclusive. This catalogue, published in separate English and French editions, records free as well as priced publications, whether distributed by Information Canada or by the various issuing agencies.

Annual Catalogue, 1954—

The **Annual Catalogue, 1954**, is a supplement to the Consolidated Catalogue 1953. It lists all federal publications received and noted by the Publications Branch from October, 1953 to December 1954 inclusive and is also published in French.

The bilingual **Annual Catalogue of Canadian Government Publications for 1955 and after** are consolidated lists of the publications issued during those years. They cumulate the issues of the Monthly Catalogue of Canadian Government Publications, from January to December.

Sectional Catalogues

The sectional catalogues series will provide, when completed, a comprehensive record of publications available for purchase arranged according to Government departments and including a selection of important related publications issued by Parliament, and by the various departments and agencies of the Government of Canada. The **Sectional Catalogues** will provide a subject approach to the many thousands of publications which form the sales stock of Information Canada.

The following department sectional catalogues are now available: Labour Publications, September 1963; Northern Affairs and National Resources Publications, April 1963; Energy, Mines and Resources Department, Mines Branch Publications, July 1967; Forestry, August 1963 and Dominion Bureau of Statistics, November, 1964; Canada Treaty Series, August, 1967, National Museums of Canada, April, 1970.

(b) **Sales of Government publications**

The distribution of official Canadian Government and International Organizations documents and publications on a commercial basis is the responsibility of Information Canada.

Remittances

Cheque or money orders should be made payable to the Receiver General of Canada. Currency may be sent at sender's risk. Postage stamps and foreign money are not accepted.

Discounts

A discount of 40 per cent is allowed to all booksellers and those others engaged in the retail sale of miscellaneous or annual publications of the Canadian Government and 25 per cent on those sold on subscription basis and issued at regular or indefinite times.

A "quantity" discount of 25 per cent is allowed to purchasers of 100 copies or more of the same publication delivered to one address.

Public libraries, schools and school boards, and universities are allowed a 33½% discount on publications issued by Information Canada. Unesco and the Organization for Economic Co-operation and Development.

These publications shall not be overprinted with any advertising matter.

Deposit accounts

To avoid waiting for quotations and sending individual remittances, those who expect to purchase Canadian Government

publications regularly may open a deposit account with Information Canada. The minimum deposit is ten dollars (\$10.00). A deposit account number is assigned to the customer which he will quote when ordering publications. All orders are charged to the account and a regular balance statement is forwarded to the depositor with each order he has placed and which has been processed.

Charge accounts

Government departments and agencies, federal and provincial, may open charge accounts with Information Canada.

Postage charges

Foreign buyers are urged to inquire before ordering a document to ascertain if it is still in stock and also the special selling price which may apply. To cover cost of postage this price may be up to 30 per cent higher than the catalogue price. Remittance from foreign countries should be made payable to the Receiver General of Canada by international money order, by draft on a Canadian or an American bank, or by way of UNESCO coupons. No extra charge for postage is made on documents shipped to points in Canada, the United States and Mexico.

(c) Distribution of official publications to designated depository libraries and to persons and institutions entitled to receive them free of charge

Information Canada is required by regulations to furnish free of charge one copy of any government publication not of a confidential nature, to designated classes of libraries in Canada, for preservation and educational purposes, so that all the public may have access to all government publications.

Libraries are expected to accept, shelve and preserve, classify and catalogue all government publications sent to them, and to assume full responsibility as depository libraries.

In the discharge of their official duties certain persons and institutions require Canadian Government publications. In such cases Information Canada is authorized to supply copies of necessary documents free of charge.

Full depositories

The full-depository libraries are entitled to receive one copy of every publication of the Parliament or Government of Canada which is made available to Information Canada for free distribution.

Selective depositories

Selective-depository libraries are entitled to select any series of government publications they are able to adequately place at the disposal of the public.

The Daily Checklist incorporates the functions of a Depository Invoice for full-depository libraries and of an Order Form for selective-depository libraries. To receive the selection they have applied for, selective-depository libraries must make application within thirty days from the date of issue of the Daily Checklist in which the desired items appeared.

Depository libraries abroad

Some foreign libraries may be granted the same privileges as depository libraries in Canada. Foreign depositories appear on a list which is drawn up and revised annually by the Department of External Affairs of Canada. When a foreign library's application is accepted for designation as a depository of Canadian Government publications, it is on condition that it will assume the same obligations placed on similar depository libraries located in Canada.

The Atlantic region provides the setting for an account of the evolution of coastal and estuarine environments. Comprehensive management of the coastal zone is now an urgent need.

Water law in Canada: the Atlantic provinces, by G. V. La Forest and Associates. Ottawa, 1973. 550p. 25cm.

This study is intended to give a comprehensive analysis of the legal framework of water resources in the Atlantic Provinces. In so far as the scope of the study is concerned it is limited to water as a resource; for example, the use of water for consumption, for irrigation, or for the generation of power fall clearly within the terms of reference. So, too, activities affecting the quantity or quality of water, e.g. pollution, come within the study. But activities having only an incidental connection with water, for example, distribution of electric power, are not covered by the study.

URBAN AFFAIRS CANADA

Urban economic growth: the Canadian case, by John M. Hartwick and Ronald W. Crowley. Ottawa, 1973. 402p. Tables, figs. 30cm. Paper bound. (Working paper.)

In this study, it was attempted to analyse the processes of industrial and urban growth in Canada. The conclusions are based on data for 46 Canadian cities and 67 industrial categories for the years 1951 and 1961. However, this research should not be considered globally comprehensive and definitive; it is intended to be suggestive and to provide some of the spadework for still further studies.

INFORMATION CANADA — DIVISION DE L'ÉDITION

Information Canada qui dirige, par l'intermédiaire de sa Division de l'édition, un service de librairie pour le compte du gouvernement fédéral, est un organisme d'édition du gouvernement, dont le but est d'assurer au Parlement et aux divers ministères et organismes du gouvernement fédéral les meilleures méthodes d'approvisionnement en publications, la présentation matérielle des publications qui soit la plus moderne et la plus économique et les meilleurs moyens de distribution.

Afin d'être en mesure d'assurer un service de distribution impeccable, la Bibliothèque a mis au point un système de catalogue unique dans son genre.

a) Compilation et édition des catalogues officiels et listes de prix.

Liste quotidienne

La **Liste quotidienne** bilingue des publications fédérales, qui a surtout pour but de faciliter la classification des ouvrages, est publiée du lundi au vendredi à l'exclusion des jours chômés. On y trouve toutes les publications fédérales de sorte que les services publics, les bibliothèques et le grand public en général sont par cette liste mis immédiatement au courant des derniers ouvrages publiés. La Liste quotidienne est envoyée à toutes les personnes qui désirent être informées au jour le jour de tout ce qui est publié par le Parlement et par les divers ministères du gouvernement du Canada. Les renseignements contenus dans la Liste quotidienne servent à établir le catalogue mensuel. Cette liste quotidienne (de même que la Liste spéciale, qui paraît irrégulièrement et qui comporte les publications gratuites disponibles uniquement au ministère éditeur et les publications payantes qu'on ne peut se procurer qu'à Information Canada) est adressée sans frais à ceux que la loi autorise à recevoir un exemplaire gratuit des publications gouvernementales. Les autres doivent souscrire un abonnement annuel à raison de \$15 pour un service quotidien et de \$12.50 pour une livraison hebdomadaire.

Catalogue mensuel

Le **Catalogue mensuel** des publications du gouvernement, également bilingue, est une liste complète de toutes les publications officielles, documents et dossiers publics de nature non confidentielle imprimés par le Département sur la demande du Parlement ou des ministères, commissions, offices ou corporations du gouvernement. Dans cette liste sont aussi consignées toutes les publications achetées par l'entremise des fonds publics et destinées aux députés, aux fonctionnaires ou au grand public.

A titre d'information seulement, ce catalogue indique, en outre, les quelques ouvrages à tirage très limité que le public ne peut consulter. C'est généralement pour des raisons qui concernent proprement le ministère qui les publie que ces ouvrages ne sont pas inclus dans la Liste quotidienne.

Chaque catalogue mensuel contient toutes les publications consignées dans les Listes quotidiennes et dans la Liste spéciale du mois qui vient de s'écouler et est distribué à partir de la troisième semaine du mois suivant. Au regard de chaque ouvrage, on indique les prix et les conditions de distribution à l'intention des acheteurs éventuels, des bibliothécaires et du public intéressé.

Le catalogue général de 1953

Le **Catalogue général des publications du gouvernement canadien de 1953** remplace le catalogue publié en 1948 et ses

suppléments, publié en 1952, et renferme tout ce que contiennent les catalogues mensuels de janvier à septembre 1953 compris. Ce catalogue, dont il y a une édition française et une édition anglaise, reproduit les listes d'ouvrages distribués gratuitement ou disponibles moyennant paiement, qu'ils soient publiés par Information Canada ou par le ministère concerné.

Catalogue annuel de 1954

Le **Catalogue annuel de 1954** est un supplément au catalogue général de 1953. On y trouve une liste bilingue de toutes les publications fédérales reçues et consignées par la Direction des publications d'octobre 1953 à décembre 1954 inclusivement.

Les **Catalogues annuels bilingues des publications du gouvernement canadien pour 1955 et les années suivantes** sont les listes récapitulatives de tous les ouvrages publiés au cours de ces années. Il s'agit de la compilation des catalogues mensuels de janvier à décembre de chaque année.

Bibliographies spéciales

Dès qu'elles seront complétées, les bibliographies spéciales donneront une liste complète de toutes les publications du gouvernement classées par ministères. On y trouvera aussi une sélection des principaux documents connexes qui émanent du Parlement et des divers ministères et organismes du gouvernement. Ces catalogues donneront un classement par sujets des milliers de publications dont dispose Information Canada.

Les bibliographies spéciales suivantes sont actuellement disponibles: les publications du ministère du Travail, septembre 1963; celles du ministère du Nord canadien et des Ressources nationales, avril 1963; celles de la Direction des mines, ministère de l'Énergie, Mines et Ressources, juillet 1967; celles du ministère des Forêts, août 1963 et celles du Bureau fédéral de la statistique, novembre 1964; le Recueil des Traités du Canada, août 1967, et Musées nationaux du Canada, avril 1970.

b) Vente des publications du gouvernement.

La vente des publications et textes officiels du gouvernement canadien et d'organismes internationaux effectuée par l'entremise de consignataires relève de la responsabilité de Information Canada.

Versements

Les chèques ou mandats doivent être faits à l'ordre du Receveur général du Canada. Un envoi d'argent en espèces sera accepté, mais l'expéditeur en portera l'entière responsabilité. Les timbres ou la monnaie étrangère ne seront pas acceptés.

Escomptes

Un escompte de 40 p. 100 est accordé à tous les libraires ou autres personnes s'occupant de la vente au détail des diverses publications ou des publications annuelles du gouvernement; un escompte de 25 p. 100 est accordé sur les publications qui sont vendues par abonnement et qui paraissent à intervalles fixes ou de manière intermittente.

Un escompte sur achat en gros de 25 p. 100 est accordé aux clients qui achètent 100 exemplaires ou plus de la même publication, livrables à une seule adresse.

Les bibliothèques publiques, les écoles, les commissions scolaires et les universités peuvent recevoir un escompte de 33 p. 100 sur les ouvrages publiés par Information Canada, l'UNESCO et l'organisation de coopération et de développement économique.

Aucune publicité ne peut s'imprimer sur ces publications.

Comptes de dépôt

Afin d'éviter les délais ou les multiples transactions, les clients qui comptent acheter régulièrement des publications du gouvernement peuvent ouvrir un compte de dépôt pour une valeur minimum de dix dollars (\$10). Un numéro de compte de dépôt est donné au client, numéro qu'il doit mentionner à l'occasion de chaque commande. Le montant de la facture est porté au compte du client et un relevé est envoyé à celui-ci lorsque la livraison a été effectuée.

Comptes courants

Les ministères et organismes du gouvernement fédéral et des gouvernements provinciaux peuvent ouvrir un compte courant auprès de Information Canada.

Frais de port

Les clients étrangers sont priés, avant d'acheter, de se renseigner sur les prix de vente à rabais éventuels et sur la disponibilité des ouvrages commandés. A cause des frais de port, le prix de vente peut s'élever jusqu'à 30 p. 100 de plus que le prix indiqué au catalogue. L'envoi d'argent en provenance de pays étrangers doit être fait à l'ordre du Receveur général du Canada au moyen d'un mandat international, d'une traite sur une banque canadienne ou américaine ou de coupons de l'UNESCO. Il n'y a pas de frais de port supplémentaires pour les documents expédiés à l'intérieur du Canada, aux États-Unis et au Mexique.

c) Envoi de publications aux bibliothèques dépositaires totales et aux personnes et institutions autorisées à les recevoir gratuitement.

Les règlements obligent Information Canada à envoyer gratuitement à certains bibliothèques canadiennes désignées à cette fin un exemplaire de tous les ouvrages du gouvernement de nature

non confidentielle publiés par ses soins, lesquels sont ainsi conservés et servent au public de source d'instruction et de consultation.

Ces bibliothèques doivent accepter, classer, cataloguer et conserver toutes les publications qui leur parviennent et assumer l'entière responsabilité en tant que bibliothèque dépositaire.

Par leurs fonctions mêmes, certaines personnes ou institutions sont appelées à consulter les publications du gouvernement canadien. Dans ce cas, Information Canada est autorisé à leur envoyer gratuitement les publications voulues.

Bibliothèques dépositaires totales

Les bibliothèques dépositaires totales reçoivent gratuitement un exemplaire de toutes les publications du Parlement ou du gouvernement du Canada éditées par Information Canada.

Bibliothèques dépositaires partielles

Les bibliothèques dépositaires partielles sont autorisées à choisir certaines séries d'ouvrages qu'elles peuvent mettre à la disposition du public.

La liste quotidienne sert de bordereau des publications déposées pour les bibliothèques dépositaires totales et de formule de commande pour les bibliothèques dépositaires partielles. Afin de recevoir les publications dont elles font la demande, les bibliothèques dépositaires partielles doivent les demander dans les trente jours après la date de parution de la Liste quotidienne qui contient ces publications.

Bibliothèques dépositaires à l'étranger

Certaines bibliothèques à l'étranger peuvent obtenir les mêmes privilèges que ceux qui sont accordés aux bibliothèques canadiennes. Les noms de ces bibliothèques figurent sur une liste qui est revue chaque année par le ministère des Affaires extérieures. L'acceptation d'une demande d'accréditation comme bibliothèque de dépôt est toujours accompagnée de la condition que soient respectées les mêmes obligations que celles qui sont imposées aux bibliothèques canadiennes totales ou partielles.

GUIDE DE L'ACHETEUR

Les publications inscrites dans ce catalogue qui sont accompagnées d'un prix et marquées d'un astérisque (*) sont en vente chez Information Canada, Ottawa. Quand le symbole de distribution est une croix (†), la commande doit être envoyée directement aux ministères ou organismes responsables de ces publications.

Toute commande est payable à l'avance et l'expédition des volumes ne se fait que sur réception de la remise exigible.

Pour éviter les paiements répétés de sommes minimes avec chaque achat de publications du gouvernement canadien, des personnes qui prévoient acheter régulièrement des publications officielles peuvent établir un Compte de Dépôt chez Information Canada.

Des dépôts de dix (\$10.00) dollars ou plus sont acceptés auxquels le prix des publications commandées est imputé. Des relevés de compte sont ensuite expédiés régulièrement aux clients. Le solde est remboursable sur demande.

Les remises se font par mandats-poste ou chèques visés, payables au Receveur général du Canada. Les timbres-poste ne sont pas acceptés.

L'expédition postale pour colis à destination du Canada ne comporte aucuns frais supplémentaires; pour tous les autres pays, les frais de port sont ajoutés au prix de vente des publications. Veuillez vous informer.

Tous les prix sont sujets à changement sans avis préalable.

DISTRIBUTION GRATUITE

Les personnes et les institutions qui, en vertu du règlement du Trésor (T.B. 667239), sont autorisées à demander un exemplaire gratuit de chaque publication, doivent se servir de la Liste quotidienne publiée par Information Canada. Toutes les commandes faites par lettres ou sous une autre forme que la Liste quotidienne doivent être accompagnées de la remise nécessaire.

CATALOGUE MENSUEL DES PUBLICATIONS DU GOUVERNEMENT CANADIEN

Le catalogue mensuel des publications du gouvernement canadien présente un relevé complet des publications officielles publiées au cours du mois. Il vous renseignera sur les nouveaux projets, les programmes et toutes les activités du Gouvernement du Canada. La section «3» des publications internationales donne les titres reçus en dépôt par Information Canada, Ottawa, agent national de vente pour un certain nombre d'organisations internationales. Un index bilingue, détaillé et complet, contient la liste de tous ces ouvrages imprimés en français ou en anglais.

Trappeurs de l'île Banks: économie et écologie d'une communauté esquimaude. Ottawa, 1973. 28cm. Cartonné. (NSRG 71-1.)

Volume 1.—**Historique**, par Peter J. Usher. 1972. 123p. Tableaux, graphiques, cartes.

Cette étude, publiée en trois volumes, a pour but d'élargir notre compréhension d'un phénomène écologique particulier: l'adaptation de l'espèce humaine à un milieu bien spécial, le Nord canadien. Ce rapport décrit et analyse les modes d'adaptation d'une communauté du Nord où le piégeage, tant comme mode de vie que comme source de revenu, lui a permis d'acquiescer un degré d'autonomie rare dans notre Grand Nord à ce moment-ci de son évolution.

MUSÉES NATIONAUX DU CANADA

'KSAN—le souffle des ancêtres: une exposition de l'art de 'KSAN. Ottawa, 1972. n.p. Ill., cartes. 23cm. Cartonné. (Aussi anglais.)

Préparé par les Divisions de l'archéologie, de l'ethnologie et des communications du Musée national de l'Homme en collaboration avec la division des Publications des Musées nationaux du Canada.

'KSAN, c'est un musée indien, c'est aussi un village traditionnel rebâti là où jadis et pendant des siècles, sinon des millénaires, vivaient les ancêtres des indiens gitksans d'aujourd'hui. Dans le village, une communauté d'artisans indiens, gitksans et carriers, travaillent suivant les grandes traditions artistiques de la côte du Pacifique. Le musée, lui, rappelle la longue histoire mouvementée des peuples indiens de la région de Hazelton.
