The object of this publication is to describe the major soils of Canada. Besides presenting their characteristics, distribution, and extent within the Canadian landscape, it gives an assessment of their present potentials and limitations for use as a part of the renewable land resource. The soil information is presented in the form of a soil map and inventory, accompanied by a descriptive report and supplementary soil climatic maps and charts.

Vol. 2.—**Inventory**. 239p. Illus., tables. Paper bound.
The Soil Inventory is compiled for use in conjunction with the Soil Map of Canada as a means of providing information relating to the individual soil and landscape areas that cannot be readily obtained from the Soil Map or the report on the Soils of Canada. It consists of a compilation of information in an abbreviated tabular form for each of the 750 areas designated on the Soil Map.

This issue of the Canadian Minerals Yearbook is a report of developments in the industry for 1974. The 55 chapters dealing with specific commodities were issued in advance under the title Preprints, Canadian Minerals Yearbook 1974 to provide information as soon as possible to interested persons. The Statistical Summary prepared specifically for the Yearbook each year, deals with the overall position of the industry in its national and international perspective; it comprises 69 statistical tables not readily available from other sources. The Company Index provides full and accurate company names and a complete cross reference to corporate activities in the Canadian industry, supported again by pocket map 900A, Principal Mineral Areas of Canada.

The future of the oceans. Prepared by the Information and Legal Operations Division, Department of External Affairs, in collaboration with the Canadian Hydrographic Service. Ottawa, 1975. 29p. Illus., maps, photographs. 22cm. Paper cover.

The many changes in nations and technology over past decades have greatly affected the public order of the oceans. For this reason the states of the world convened the Third United Nations Conference on the Law of the Sea to question the validity of the 300-year-old laws that presently govern the oceans. This booklet summarizes these major changes, shows the challenges involved in revising the Law of the Sea, and presents Canada's approach to the management and conservation of world marine resources.

Repertoire des bibliothèques canadiennes, 2: les bibliothèques de collège et d'université, bibliothèques spécialisées. Ottawa, 1976. 269p. 28cm. Cartonné.

La première section du Répertoire des bibliothèques canadiennes, 2 porte sur les bibliothèques d'université et de collège et sur des maisons d'enseignement spécialisé, par exemple les écoles de beaux-arts. La deuxième section concerne les bibliothèques spécialisées et les centres d'information de ministères et organismes des gouvernements provinciaux et municipaux, de sociétés de la Couronne, de compagnies et associations, et d'institutions telles que les hôpitaux, musées ou instituts de recherche. Elle englobe aussi les bibliothèques considérées comme spécialisées en vertu de la matière ou de la présentation de leurs collections, et quelques services d'information non commerciaux. Alors que les deux types de bibliothèques sont répertoriés séparément, ils sont réunis, sans distinction, dans les index. Ces index comprennent un index géographique, un index des noms de personnes, un index des opérations automatisées et un index détaillé des sujets.

Cette étude décrit un important secteur de l'activité de l'administration fédérale. Dans leur description, les auteurs ont mis en lumière un certain nombre de problèmes et ont proposé des solutions de rechange. Les législateurs et les administrateurs qui, à l'heure actuelle, s'interrogent sur les réformes à apporter dans ce domaine, pourraient bien y trouver profit. Ces suggestions sont, toutefois, celles des seuls auteurs et ne devraient pas être considérées comme celles de la Commission de réforme du droit du Canada.

Commission d'enquête sur la mise en marché du boeuf et du veau, rapports de recherche. Ottawa. 28cm.

1.—**Organisation et fonctionnement du système canadien de commercialisation des bovins**, par David J. Clarke et H. Bruce Huff. 1976. 186p. Tableaux, graphique. Cartonné.

Le présent rapport est un travail concerté qui vise à mieux faire comprendre le système de commercialisation du boeuf au Canada. On y trouve une étude approfondie du fonctionnement des trois marchés, relatifs au boeuf, soit ceux du bétail sur pied, de la carcasse et de détail, du comportement des participants à l'activité de ces marchés et des méthodes de fixation des prix. Dans la mesure du possible, le rapport décrit le système de commercialisation du boeuf tel qu'il existait au milieu de l'année 1975.

Le droit d'auteur au Canada: propositions pour la révision de la loi, par A. A. Keyes and C. Brunet. Ottawa, 1977. 269p. Tableaux. 25cm. Cartonné.

Le plan du présent document de travail est le suivant: nous examinons en premier lieu les considérations générales qui doivent guider la révision de la loi du droit d'auteur et nous proposons des principes; nous étudions en second lieu l'impact économique du droit d'auteur; nous appliquons en troisième lieu les principes généraux de la première Partie aux divers éléments du droit d'auteur; nous faisons en quatrième lieu des recommandations sur certaines considérations d'ordre général, et notamment sur la nécessité de créer des mécanismes de consultation. Cette étude s'efforce donc de proposer le fondement logique d'une loi du droit d'auteur, en se fondant sur certains principes généraux et sur l'élaboration détaillée de ceux-ci, son but premier étant de faciliter la marche de la révision de la loi actuelle.

Franco-fun. Ottawa, 1977. 19cm. Longueur, 16cm. Largeur, 25cm. Hauteur.

Cette étude, publiée par la Division de la Recherche, vise avant tout à offrir, au professeur qui utilise le cours Dialogue-Canada I, un document pédagogique qui lui permettra la préparation d'un enseignement diversifié où la détente des étudiants constitue un aspect très important. Franco-fun se compose d'un ensemble de jeux classés d'après les modes d'acquisition (écouter, parler, lire et écrire) et d'après la progression linguistique de Dialogue-Canada I. Ces jeux ne sont là qu'à titre d'exemples; c'est au pédagogue de décider de leur pertinence. Chaque professeur devra les compléter ou les adapter en tenant compte des besoins de ses étudiants.

Le boîtier-trousse, de conception attrayante et fonctionnelle, referme en ses divers compartiments, l'ensemble des fiches de jeux, la grille d'utilisation, les fiches «dossier méthodologique», laissant, par ailleurs, un espace libre pour le professeur afin qu'il y range des documents complémentaires au jeu. La fiche de jeu se présente sous la forme d'un feuillet de couleur (différente pour chacun des modes d'acquisition) facile à manipuler et assez dégagé pour permettre d'ajouter notes et remarques.

Le design dans le tourisme: hébergement. Ottawa, 1977. 76p. Ill. 28cm. Cartonné. Bilingue.

Le but de cet ouvrage est de permettre aux propriétaires et aux exploitants de petits hôtels ou motels d'augmenter l'efficacité et la rentabilité de leurs établissements grâce à l'application de l'esthétique industrielle ou design à tous les aspects de l'entreprise. Le design améliore l'apparence des immeubles et l'efficacité des systèmes, conserve leur tranquillité aux endroits tranquilles et fait de l'exploitation un jeu d'enfant.

Cet ouvrage se propose un triple but: examiner le rôle du camping et des terrains de camping privés dans l'industrie touristique au Canada; aider les personnes qui envisagent d'ouvrir un terrain de camping à décider, faits en main, si elles doivent ou non se lancer dans cette entreprise; et fournir des conseils pratiques sur la préparation, la mise en oeuvre et l'exploitation des terrains de camping.

L'exploitation d'une auberge. Ottawa, 1976. 122p. Tableaux. 30cm. Cartonné.

L'exploitation d'une auberge aidera des exploitants novices à planifier de nouvelles installations, les munira d'instruments pratiques dans leurs activités journalières et les familiarisera avec les diverses sources d'aides desquelles ils peuvent se prévaloir. S'il s'agit d'exploitants d'expérience, ce traité leur servira de renseignements mis à la portée de la main. Les principes et les idées qu'il préconise vous sont offerts dans l'espoir qu'ils vous seront utiles en ce qui a trait à vos prises de décisions dans votre commerce et qu'ils vous permettront de rehausser encore, s'il se peut, la qualité et l'attrait de l'exploitation d'une auberge au Canada.

Le design dans le tourisme: restaurants. Ottawa, 1977. 36p. Ill. 30cm. Cartonné.

Cet ouvrage explique ce qu'est le design, comme on explique une bonne recette. Il montre ensuite comment le bon design contribuera au succès de votre nouveau restaurant. Il s'adresse au restaurateur expérimenté qui ouvre un nouvel établissement d'au moins 50 couverts. Cependant toute personne qui se prépare à rénover ou à agrandir son restaurant trouvera dans nombre de pages de renseignements qui lui seront utiles. Les auteurs ont tenu compte du fait que seul un petit nombre de lecteurs est probablement au courant des questions de design et de construction.

La première section sert d'introduction et comprend onze chapitres traitant des questions fondamentales de comptabilité et d'organisation. La deuxième section est plus précise; elle a été conçue de manière à ce que les exploitants n'y trouvent que les renseignements qui leur seront profitables. La première sous-section s'adresse aux entreprises qui n'offrent que le gîte; la deuxième est destinée aux établissements offrant d'autres services et la dernière veut répondre aux questions des entreprises plus importantes qui ont besoin de renseignements supplémentaires en matière de comptabilité.
