- 1607 Annual electric power survey of capability and load, as of March, 1955. Ottawa, 1955. 34p. Tables, charts. 28cm. Paper cover. Prepared in Transportation and Public Utilities Section, Public Finance and Transportation Division.
This is the first report in a new annual series of statistics relating to the electric power industry in Canada. It contains current and projected data of capability and load, for the years 1950 to 1958, inclusive. In view of the important role the electric power industry plays in the Canadian economy and in the development of national resources, it is felt that this type of survey will produce statistics of significance to industry, governments and others concerned.

Stephen Leacock

A CHECKLIST AND INDEX OF HIS WRITINGS

by Gerhard R. Lomer

This combined checklist and index is an important landmark in the progress of Canadian bibliographical endeavour. Dr. Lomer's research, to which he has devoted considerable time, has resulted in a checklist for which librarians and scholars everywhere will be grateful. It is thorough, accurate and both handsome and practical in type layout. This work is to be acclaimed further, as it marks the beginning of what one hopes will be a long series of bibliographical studies of Canadian writers bearing the imprint of Canada's National Library. It is fitting that this inaugural work should have been devoted to one of our most prolific and best known authors—Stephen Leacock of McGill.—DOUGLAS LOCHHEAD.

CANADA 1955

**THE OFFICIAL HANDBOOK OF PRESENT
CONDITIONS AND RECENT PROGRESS**

One of the most pleasing of Canadian government publications for many years, Canada 1955 continues the series of popular annual volumes which present in an appealing way a factual account of the annual progress of the Canadian nation and economy.

In text, in table, in map and picture, Canada 1955 seeks to portray the present conditions of the Canadian people, their country, government, cultural development and welfare. It endeavours to present progress of the many-sided Canadian economy of today, the skill and enterprise of its business and industrial community, the far-flung network of transport and communication, all of which are based upon the natural wealth of Canada. 307 pp.

TRACK

AND

FIELD

SERIES

Consists of nine illustrated pamphlets which provide a clear and detailed introduction to nine track and field events. Prepared by the Physical Fitness Division of the Department of National Health and Welfare and written especially for the beginner, the series has been officially endorsed by leading national bodies concerned with Track and Field Athletics.

Each pamphlet states the rules for competition, describes the equipment, the techniques, and outlines the desired personal factors such as training, conditioning exercises, emotional stability, all of which play an important part in achieving success. In addition, each text contains valuable references as well as performance records. An invaluable aid for athletic beginners, coaches, community recreation leaders and others interested in track and field athletics.
