# PROSPECTING IN CANADA

by A. H. Lang

A publication of the Geological Survey of Canada  
Department of Mines and Technical Surveys

The first and second editions of this book, published in 1930 and 1935, were quickly exhausted. Continuing demand has shown the need for a work of this kind and encouraged the preparation of this third edition intended to supply basic information for those who wish to become prospectors and for experienced prospectors who desire to review the subject in the light of the most recent developments. It will be helpful also to persons who contemplate financing prospecting, and to companies that are considering a prospecting campaign in Canada for the first time.

## Contents

Prospecting: past, present and future.—The foundations of geology.—Minerals and rock.—Mineral deposits.—Outline of the geology of Canada.—Obtaining instructions.—Equipment and travel.—Conventional methods of prospecting.—Special methods of prospecting.—Geophysical prospecting.—Exploring and appraising mineral deposits.—Notes on specific metals and minerals.—Placer and small-scale lode mining.—Mining laws and other business matters. APPENDICES: I—Table of the elements. II—List of the useful aids for identifying minerals. III—Introductory mineral table. IV—Field classifications of common rocks. V—Addresses. VI—Tracing float in glacial drift.

## ARCTIC CANADA FROM THE AIR

Non-technical geographical  
descriptions

Over 500 excellent photographs

Up-to-date maps

541 pages

## A New Book Published by The Defence Research Board

Intended primarily for use as an aid to map reading from the air for airmen flying in the Canadian Arctic but geographers will find it of interest since each island has been divided into physiographic regions.

A separate chapter is devoted to each island or group of islands with separate sections on coastline forming a fairly large proportion.

Chapters on the Arctic Seas are included and weather is dealt with.

Short accounts of the exploration of individual areas and brief historical sketches are provided.
