### In depth — A new Statistics Canada Internet site

Readers of Statistics Canada's major analytical periodicals now have access to a selection of published articles or abstracts through a new Agency Internet site.

Effective today, Statistics Canada has created a hyperlink called "In depth", which supplies online access to material in such publications as *Perspectives on labour and income*, *Canadian social trends*, *Education quarterly review*, *Health reports*, *Juristat* and *Services indicators*.

The site provides a downloadable version of either an article, or an abstract, from the latest issue of each publication. The site will be updated with the release of each publication, and some publications will eventually have online versions of back issues. Access to the link is available at [www.statcan.ca](http://www.statcan.ca).

For more information, contact Henry Pold (613-951-4608; [poldhen@statcan.ca](mailto:poldhen@statcan.ca)), Labour and Household Survey Analysis Division.
