Summary of Preliminary Revised Country Elevator
Handlings, and Western Marketings Crop Year 1956-57

According to the Board of Grain Commissioners country elevator companies have now completed filing their preliminary adjustment reports on 1956-57 operations. These returns covered those receipts and shipments which took place during the closing days of the 1956-57 Crop Year but which could not be included in the regular weekly return for the period ending July 31 by virtue either of the delay in mails or of the actual physical volume of clerical work involved. The statistics which appear in the table below are still subject to revision basis the final Crop Year returns which will be filed by the companies next month.
