Ganadian Production of Asbestos High in 1926

Asbestos production in Canada during 1926 reached the grand total of 279,403 tons with a valuation of \$10,099,423, according to finally revised statistics just issued by the Mining, Metallurgical and Chemical Branch of the Dominion Bureau of Statistics at Ottawa. In 1925; the shipments (exclusive of the by-product sand and gravel) amounted to 273,524 tons at \$8,977,546. The average value received by the operators in 1926 was \$36.15 per ton as compared with \$32.82 per ton in the preceding year.

Asbestos rock mined during the year totalled 4,483,375 tons, of which quantity 4,002,626 tons were handled by the mills.

Exports of asbestos (including sand and waste) in 1926, totalled 277,991 tons, or 19,974 tons in excess of the tonnage exported in 1925. Shipments to Great Pritain amounted to 9,304 tons, to the United States 224,334 tons, and to Germany 14,193 tons. Exportations of asbestos to Australia, Belgium and France increased materially.

Production of asbestos in South Africa and Cyprus increased in 1926; the former country shipping 14,096 tons and the latter, 6,941 tons. The Rhodesian output declined from 34,349 tons in 1925 to 33,344 tons in 1926. Mine operators in the United States shipped 1,358 tons during the year under review.

In the asbestos mining industry in Carada in 1926 the capital employed by the eight producing firms was reported at \$34,905,096. Employment was furnished 141 solaried employees, 1,521 mine workers and 1,135 mill workers; their combined earnings amounted to \$3,544,097. A ten hour day was usual throughout most of the field. Fuel and electricity cost \$1,012,232, including \$600,860 for 64,462.880 kilowatt hours of electricity. The 409 electric motors in use during the year had a total rating of 25,133 h.p.

Eight plants in Canada manufacture asbestos products including the following commodities: asbestos paper and mill board; asbestos roofing of all kinds; asbestos rigid shingles; asbestos building materials; asbestos cellular, and sponge-felted pipe insulation; insulating sheets and blocks; asbestos brake linings and clutch facings roven on special looms); and asbestos packings for steam, oil and hydraulic operations. 53.67071
