PRELIMINARY ESTIMATE OF MANUFACTURING PRODUCTION IN CANADA, 1947

The estimated value of manufactured products in Canada in 1947 reached the record total of \$9,976,497,000. This represents an increase of 24.2 per cent over the values reported in 1946, and an increase of 10 per cent over the previous high point reached in 1944 when manufacturing was directed fully to war production.

Due to the rise in prices the physical volume of production, however, did not expand to the same extent as these value figures indicate. The index of the physical volume of production (1935-39=100) which stood at 106.3 in 1939 jumped to a high of 187.7 in 1943 and then declined steadily to 150.3 in 1946. It is expected that the index in 1947 will be somewhere around 158. The physical volume of production thus increased by 49 per cent between 1939 and 1947 as compared with an increase of 187 per cent in the gross value of production.

The employees engaged in manufacturing which in 1947 totalled about 1,120,000 were still below the record number of 1,222,882 employed in 1944. Between 1939 and 1947 the increase in employment was approximately 70 per cent. The amount paid out in salaries and wages in 1947 was, however, at an all-time high and represents an increase of 180 per cent over 1939.

The wood and paper products group with an output valued at \$1,953,379,000 ranked first in importance in 1947. Iron and its products came second with \$1,779,719,000, followed by vegetable products with \$1,768,919,000, animal products \$1,267,858,000, textiles \$1,056,869,000, non-ferrous metal products \$1,041,041,000, non-metallic mineral products \$550,847,000, chemicals \$446,015,000 and miscellaneous industries \$111,850,000.

Changes in Manufacturing Production

The following two tables illustrate the impact of the war on Canadian manufacturing production and the changes which have taken place on the conversion to peace-time production.

Number of Persons Employed, by Groups

| <u>Group</u>                        | <u>1 9 4 7</u>          | <u>1 9 4 4</u>          | <u>1 9 3 9</u>        |

1/ 1947 figures are preliminary, subject to revision.

2/ A change in the method of computing the number of wage-earners in the years 1925 to 1930 increased the number somewhat over that which the method otherwise used would have given. In 1931, however, the method in force prior to 1925 was re-adopted. The figures for 1931 and later years are, therefore, comparable with those for 1924 and earlier years.

3/ Not available prior to 1924.

PRELIMINARY ESTIMATE OF MANUFACTURING PRODUCTION IN CANADA, 1947.

<sup>x</sup> The following changes made in 1947 materially affect the standing of the major groups:

1. Synthetic rubber transferred from the Rubber industry in the Vegetable products group to the Miscellaneous chemical industry in the Chemical Products group.
2. Mattresses and springs transferred from the Miscellaneous group to the Furniture industry in the Wood and paper products group.
3. Part of the Plastics industry transferred from the Chemical products group to a new industry in the Miscellaneous industry group.

x See footnote page 3.

1/ For 1946, the statistics on the plastic industry included the manufacture of primary resins such as Bakelite, vinyl resins, casein plastics, etc. and also the secondary or moulding, fabricating and laminating operations. In 1947, the secondary industries were transferred to the Miscellaneous Industries Group.

## PRELIMINARY ESTIMATE OF MANUFACTURING PRODUCTION IN CANADA, 1947
