# TYPE OF OWNERSHIP MANUFACTURING INDUSTRIES OF CANADA 1952

The present report deals with the type of ownership under which Canadian manufacturers operate. The first survey in 1946 did not include the fish-curing and packing industry, information for which was not available at that time. For this reason the figures for 1946 are not strictly comparable with those for succeeding years, although the inclusion of that industry has not materially altered the percentage distribution of individual ownership, incorporated companies, etc.

Of the 37,929 establishments operating in 1952 1,405 establishments in the periodical publishing industry were unclassified, leaving 36,524 establishments in the four categories of ownership. Individual ownership numbered 16,388 establishments, partnerships 5,633, incorporated companies 13,491 and co-operatives 1,012. The percentage distribution of the four categories of ownership are given below for the years 1946 to 1952.

Year	Individual ownership	Partnerships	Incorporated companies	Co-operatives
1946 (estimated)	47.3	16.0	33.4	3.3
1947	46.4	16.1	34.3	3.2
1948	46.2	16.4	34.4	3.0
1949	46.0	15.8	35.3	2.9
1950	45.6	15.0	36.3	3.1
1951	44.6	15.5	36.9	3.0
1952	44.9	15.4	36.9	2.6

As is to be expected, the smaller establishments, regardless of the type of products manufactured, are carried on under individual ownership. In that category industries con-

ducted on a small scale contain a large number of establishments, the percentage decreasing as the scale of operations increased, as the following statement shows.

Group	Average number of employees per establishment	Percentage of individual ownership establishments to total
1 Wood products	10.4	62.0
2 Printing, publishing and allied industries	15.6	46.1
3 Foods and beverages	21.2	47.7
4 Miscellaneous manufacturing industries	22.7	36.5
5 Non-metallic mineral products	29.7	33.7
6 Clothing (textile and fur)	36.7	26.4
7 Chemicals and allied products	44.4	16.8
8 Leather products	45.8	30.2
9 Iron and steel products	72.1	26.2
10 Textile products (except clothing)	79.2	29.0
11 Non-ferrous metal products	92.3	27.5
12 Tobacco and tobacco products	152.1	37.7
13 Paper products	152.8	8.8
14 Products of petroleum and coal	167.4	3.0
15 Electrical apparatus and supplies	172.6	12.0
16 Transportation equipment	237.2	28.4
17 Rubber products	308.3	10.0
<b>All Groups</b>	<b>34.0</b>	<b>43.2</b>

It is therefore, found, according to the above, that in the wood products group 62 p.c. of the establishments were under individual ownership. The foods and beverages group had 48 p.c. of its establishments in this classification followed by printing, publishing and allied industries with 46 p.c., tobacco products 38 p.c., miscellaneous manufacturing industries 36 p.c., non-metallic mineral products 34 p.c., leather products 30 p.c., textile products (except clothing) 29 p.c., transportation equipment 28 p.c., non-ferrous metal products, 27 p.c., clothing (textile and fur) 26 p.c., iron and steel products, 26 p.c., etc.

The establishments operating under individual ownership are not as important from the point of view of employment provided as their large numbers would indicate. According to tables 1 and 2, these establishments which comprise 45 p.c. of the total have only 6 p.c. of the total employees. Partnerships accounted for 15 p.c. of the number of establishments and 4 p.c. of the total employees. Incorporated companies with 37 p.c. of

the number of establishments had 90 p.c. of the employees. Co-operatives with 3 p.c. of the number had 1 p.c. of the employees.

On the basis of employment provided, incorporated companies are by a very wide margin the most important factor in the employment field. In the rubber products, paper products, transportation equipment, electrical apparatus and supplies and petroleum and coal products groups 99 p.c. of the employees were reported by such companies. Companies in the chemicals and allied products group had 98 p.c., nonferrous products had 97 p.c., tobacco products, iron and steel products, had 96 p.c., textile products (except clothing) had 95 p.c., non-metallic mineral products 91 p.c., leather products had 87 p.c., miscellaneous industries groups had 86 p.c., printing, publishing and allied industries 85, clothing (textile and fur) 83, foods and beverages 80 p.c. Companies in the wood products group with 68 reported the lowest percentage of the total employment.
