THE SMELTING AND REFINING INDUSTRY 1954

Published by Authority of
The Right Honourable C. D. Howe, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS

Industry and Merchandising Division
Mineral Statistics Section

NOTICE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 3 volumes, as follows: Volume I - The Primary Industries, including mining, forestry and fisheries; Volume II - Manufacturing; Volume III -Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries which they comprise.

Volume I consists of the following parts:

Part I - Mineral Statistics

Part II - Forestry Statistics - Operations in the Woods

Part III - Fisheries Statistics

Part I includes the following reports which constitute the complete series on Mineral Statistics of Canada. Individual reports are issued as the information becomes available; they are arranged in a form suitable for binding.

A - General Review of the Mining Industry, 50¢

B - The Gold Mining Industry, 50¢

C - The Silver-Lead-Zinc Mining Industry, 25¢

D - The Nickel-Copper Mining, Smelting and Refining Industry, 25¢

E - The Miscellaneous Metal Mining Industry, 25¢

F - The Smelting and Refining Industry, 25¢

G - The Coal Mining Industry, \$1.00

H - The Crude Petroleum and Natural Gas Industry, 25¢

I - The Asbestos Mining Industry
J - The Feldspar and Quartz Mining Industry
K - The Gypsum Industry, 25%
L - The Peat Industry, 25%

N - The Talc and Soapstone Industry, 25¢

O - The Miscellaneous Non-metal Mining Industry, 25¢

P - The Cement Manufacturing Industry, 25¢

Q - The Clay and Clay Products Industry, 25¢

R - The Lime Industry, 25¢

S - The Sand and Gravel Industry, 25¢

T - The Stone Industry, 25¢

U - Contract Drilling in the Mining Industry, 25¢

THE SMELTING AND REFINING INDUSTRY 1954

The Smelting and Refining Industry, as defined for statistical purposes, includes only those firms engaged primarily in the smelting of non-ferrous ores or concentrates and in the refining of metals recovered therefrom. The smelting of imported ores is included. Secondary smelters, which treat scrap metals only, are not included.

The net value added by the industry in the processing of crude or semi-crude materials during 1954 totalled \$352,037,956 compared with \$310,207,228 in 1953. Refined products included gold, silver, nickel, copper, lead, zinc, aluminum, tin, magnesium, calcium, barium, titanium, zirconium, antimony, bismuth, cobalt, cadmium, selenium and tellurium. Other end-products of individual plants or companies were copper-nickel matte, cobalt salts, cobalt oxide, nickel oxide, nickel salts, bauxite concentrates, arsenious oxide, sulphuric acid, platinum metals residues, zinc oxide, zinc dust, blister and anode copper, titanium dioxide slag, iron ingots, columbium oxide and tantalum oxide. Statistics relating to the production of pitchblende products at the refinery at Port Hope, Ontario, are not included in this report.

It should be noted, in a study of these data, that firms which operate both mines and smallers may vary from year to year the nominal values placed on crude ores, etc., shipped from their mines to their own smelters, with the result that in some years the mining industry proper may be favoured statistically at the expense of The Smelting and Refining Industry and vice versa. However, the total annual net value of commodity production for the Dominion as a whole is not affected by these arbitrary internal evaluations.

Fuel and electricity used by the industry in 1954 cost \$55,225,387, including 2,690,206,646 k.w.h. of purchased electricity at \$30,423,265.

The value of process supplies consumed during the year amounted to \$52,933,522 and the cost of ores and raw materials was \$462,382,133.

The industry employed an average of 26,048 persons to whom \$102,595,970 were paid in salaries and wages.

The 13 firms in this industry operated 22 smelters or refineries. The names of the operators and the plant locations are given in the directory on the last page of this report.

TABLE 1. Principal Statistics of the Smelting and Refining Industry, Significant Years, 1921-1954

Year	Establish- ments	Em- ployees	Farnings	Cost of fuel and electricity at works	Cost of process supplies and containers	Gross value of products shipped during year, including containers (f.o.b. works)	Net 3 3 value of production
	No.	No.	\$	\$	5	5	\$

1939 1941 1944 1944 1946 1949	13 13 16 15	12, 449 16, 014 23, 927 14, 546 19, 150	44, 536, 901	15, 391, 301 26, 771, 807 36, 907, 623 22, 287, 572 37, 004, 311	11,773,863 19,272,162 32,730,138 16,030,964 31,816,020	252, 602, 495 379, 322, 270 474, 206, 801 304, 718, 524 599, 188, 135	80, 057, 833 1 19,736, 294 1 23, 303, 038 69, 565, 922 181, 907, 847
1950 1951 1952 1953 1954	17 17 18 18 22	19,863 22,814 24,608 25,115 26,048	87, 964, 295		31, 207, 564 46, 411, 504 52, 575, 635 51, 448, 147 52, 933, 522		202, 711, 781 262, 972, 789 266, 721, 382 310, 207, 228 352, 037, 956

^{1.} The gross value of production should not be interpreted as the ultimate sales value of finished metals only, as it represents the combined figure for smelters and refineries, and the usual duplication occurs when the product of one plant is shipped to, and becomes the material for, another plant. For example, blister copper is given a value at the smelter since it is the final product for that works; it is then shipped to the refinery for which it is the principal material, where values are placed on the refined products.

2. See preceding text.

3. Gross value of production less fuel, electricity, process supplies and cost of ores.

Note. Data in this report do not include those relating to Eldorado Mining and Refining Ltd., which mines and refines pitchblende products.

1954	2, 252, 965	5, 912, 997	590 ³	48, 333	

^{1.} Content in metal and oxide produced in Canada and in area experted.
2. Refined white arsenic produced in Canada plus arrangle content of graduated experted. Excusive smaller a create experted from Gridals Columbia as it is not paid for.
3. Includes some arsenic recovered from foreign orang.

TABLE 20.	Platinum	Metals 1	Produced.	1950 - 195	4
-----------	----------	----------	-----------	------------	---

Year	Platinum		Palladium and other platinum metals		
	Ounces	\$	Ounces	\$	
1950	124, 571	10, 255, 929	148, 741	7, 578, 144	
1951	153, 483	14, 542, 515	164, 905	7, 950, 107	
1952	122, 317	10, 916, 792	157, 407	7, 559, 378	
1953	137, 545	12, 550, 981	166, 018	7, 494, 509	
1954	154, 356	12, 950, 469	189, 350	7, 956, 087	

^{1.} Figures represent the metal content of concentrates produced from nickel-copper ores. Included are metals recovered from alluvial deposits.

TABLE 21. Production of Titanium Dioxide and Iron (Remelt), 1950-1954

Year	Titanium dioxide	in slag	Iron (remel	1)
	Tons	\$	Tons	\$
950	1, 596	149, 563	1, 697	138, 284
951	14, 123	738, 577	15, 554	777, 14
952	30, 805	1, 238, 103	32, 422	1, 815, 00
953	100, 527	4, 206, 496	107, 370	4, 064, 03
954	82, 386	3, 680, 077	90, 562	2, 910, 66

TABLE 22. Capacities of Canadian Copper Smelting and Refining Works, 1954

	Blast	wnaces	Reverbe	eratories	Converters		
Coupsay:	Number	Annual capacity — tons of ore and concentrates	Number	Annual capacity — tons of ore and concentrates	Number		
Faiconbridge Nickel Mines, 1.td.	2	600, 000	-		4

^{1.} Preliminary estimates.

Directory of Firms in the Smelting and Refining Industry, 1954

Name of firm	Head or executive office address	Location of plant
Quebec:		
Aluminum Company of Canada Ltd.	1700 Sun Life Bldg., Montreal	Arvida, La Tuque, Shawinigan Falls, Isle Mallgne, Beauharnois
Boreal Rare Metals Ltd.	1610 Sherbrooke St. W., Montreal	Cap de la Madeleine
Canadian Copper Refiners Ltd.	1700 Bank of Nova Scotia Bldg., Toronto, Ontario	Montreal East
Noranda Mines Limited	1709 Bank of Nova Scotia Bldg., Toronto, Ontario	Noranda
Quebec Iron and Titanium Corp.	1510 Drummond St., Montreal	Sorel
Ontario:		
Delors Smelting & Refining Co. Ltd.	Deloro	Duloco
Dominion Magnesium Ltd.	67 Yonge St., Toronto	Haley
Falconbridge Nickel Mines Ltd.	44 King St. West, Toronto	Falcoshridge
International Nickel Co. of Canada, Limited	Copper Cliff	Copper Chiff, Coniston, Port Colborn
Quebec Metallurgical Industries Ltd. (Cobalt Chemicals Division)	Box 931, Cobalt	Cobalt
Manitoba:		
Hudson Bay Mining and Smelting Co. Limited	500 Royal Bank Bldg., Winnipeg	Flin Flon
Alberta:		
Sherritt - Gordon Mines Ltd.	25 King St. W., Toronto, Ontario	Fort Saskatchewan
British Columbia:		
Consolidated Mining & Smelting Co. of Canada Limited	Trail	Trail
Aluminum Company of Canada Ltd.	1700 Sun Life Bldg., Montreal, Quebec	Kitimat

Note. Information relating to operations of the Eldorado Mining and Refining Co. at Port Hope, Ontario, is secret and therefore not included in this report.
