DEPARTMENT OF TRADE AND COMMERCE DOMINION BUREAU OF STATISTICS MINING, METALLURGICAL AND CHEMICAL BRANCH OTTAWA - CANADA

Dominion Statistician: R. H. Coats, LL.D., F.R.S.C., F.S.S.(Hon.)
Chief Mining, Metallurgical and Chemical Branch: W. H. Losee, B.Sc.
Statistician - Metal and Chemical Products: H. McLeod, B.Sc.

ANNUAL INDUSTRY REPORT MANUFACTURES OF THE NON-FERROUS METALS GROUP THE WHITE METAL ALLOYS INDUSTRY, 1936.

Statistics given in this report cover the operations of firms in Canada which were engaged chiefly in (a) the manufacture of white metal alloys such as babbitt metal, solders and type metal; (b) the refining of scrap to recover white metals such as zinc, tin, lead, etc.; and (c) the manufacture of such products as lead bars, sheet and pipe, and antimonial lead, collapsible tubes, metal foil, etc. in which the white metals or their alloys are the chief constituent materials.

Thirty-five factories were included in this group for 1936 and the value of products was reported at \$6,905,041. This value was the highest ever reported for the industry and exceeded the 1935 total by 12 per cent. Of the total output, 67 per cent was from 19 plants in Ontario and 27 per cent from 11 factories in Quebec; the remaining 6 per cent was accounted for by 2 plants in Manitoba and 3 in British Columbia.

Capital employed by these concerns amounted to \$5,882,190 of which 50 per cent or \$2,893,071 represented the value of land, buildings, plant and equipment. The investment in Ontario's plants was \$4,231,475, in Quebec \$1,212,462 and in Manitoba and British Columbia, \$438,253.

Employment was given to an average of 894 workers in 1936 including 188 on salaries and 706 on wages. Salaries for the year amounted to \$356,933 and wages to \$660,799, a total of \$1,017,732. In the previous year 797 persons were employed and their earnings totalled \$911,644.

Materials used in manufacturing during 1936 cost \$4,356,439 delivered at the works. Included in this total were 1,470 tons of pig tin worth \$1,420,744; 4,812 tons of pig lead at \$440,242; 1,045 tons of zinc spelter at \$100,794; 1,083 tons of other metals (except scrap) at \$461,756 and 17,001 tons of scrap of all kinds at \$1,448,112.

Production of solders of all kinds amounted to 2,210 tons valued at \$1,075,694 at factory prices; type metal totalled 1,953 tons at \$377,673; babbitt metal totalled 1,331 tons at \$475,544; and miscellaneous lead products such as bars, ingots, castings, pipe, traps and fittings, and antimonial lead amounted to 8,278 tons worth \$1,093,596.
