ANNUAL INDUSTRY REPORT

MANUFACTURES OF THE NON-FERROUS METALS GROUP

THE MISCELLANEOUS NON-FERROUS METAL PRODUCTS INDUSTRY, 1939

The industry for which statistics are presented in this bulletin covers the operations of a miscellaneous group of concerns which cannot properly be classified to any of the other industries included in the manufactures of the non-ferrous metals group.

In 1939 only 19 plants were included in this group, 15 being located in Ontario, 1 in Quebec, 2 in Manitoba and 1 in British Columbia. Production from these factories was valued at \$1,940,415, the number of employees was 395, payments for salaries and wages totalled \$471,222 and the cost of materials for use in manufacturing processes was \$415,902.

Production included gasoline lamps, lanterns, camp stoves and irons; weatherstrip, cigarette lighters, vacuum bottles, paint spraying equipment, atomizers and perfume sprays, railway and marine lamps and lanterns, window screens, lamp and lantern burners, name plates, etc. Output of weatherstrip amounted to \$56,750 in 1939 compared with \$59,950 in 1938. Figures for the other commodities cannot be published as there were only one or two producers in each case.
