Preliminary

Civil Aviation - July 1969
Scheduled Carrier Operations

Preliminary figures for the six Canadian carriers performing scheduled air services have been compiled and the results shown on the opposite side of the page.

Note that additional information in the form of charter service passenger-miles and charter service goods ton-miles has been introduced into this issue of the Service Bulletin. As can be seen from the year-to-date comparative figures charter operations, especially for the regional carriers, have grown remarkably in percentage terms. However, figures for charter operations are still only a small fraction of those for unit toll services. The number of charter passenger-miles is less than 1/10 that shown for unit toll.

Enquiries concerning the material presented should be directed to Mr. K.J. Marks, Aviation Statistics Centre, Congill Building, 12th floor, 275 Slater St., Ottawa, Ontario. (Telephone 992-2957)

- (1) The regional carriers whose statistics are presented are Eastern Provincial Airlines, Pacific Western Airlines, Quebecair and Transair.
- (2) Operations of the six carriers represented in totals normally account for approximately 90% of the revenues and expenses of the Canadian Air Transport industry.
- (3) The number of charter hours flown is that reported for aircraft in all weight groups.
- (4) Charter passenger-miles and charter goods ton-miles are shown only for aircraft with a take-off weight of more than 18,000 lbs.
