CIVIL AVIATION

Preliminary Report 1955

This report is a summary of monthly statements supplied by Canadian scheduled and non-scheduled air carriers and foreign carriers in transborder and overseas services to and from Canadian air stations. A more comprehensive annual report based on audited yearly statements from all companies will appear later under the title "Civil Aviation, 1955." The figures shown in this report are subject to revision.

During 1955 Canadian air carriers completed the year with an operating income of \$6,162,483, an increase of \$4,285,563, or 228.3 per cent over the \$1,876,920 reported in 1954. This was the fifth successive surplus in as many years. Operating expenses continued to climb, but in spite of this the operating income this year was only slightly less than the all-time high of \$6,990,586 reported in 1951.

All revenue accounts except other flying services showed gains over the previous year. Passenger fare revenues continued to show a large increase soaring to a new high of \$77,622,017 as compared with \$66,748,505 in 1954, an increase of 16.3 per cent. Freight earnings rose to \$7,975,443 from \$5,979,693, mail revenues to \$10,885,726 from \$10,873,163, and excess baggage receipts were \$867,042 as compared with \$726,037 a year ago. Bulk transportation services nearly trebled rising to \$41,540,747 from \$15,149,492 a year ago, revenue from other flying services dropped slightly from \$5,984,893 to \$5,970,950, while non-flying services which rose to \$4,048,097 from \$3,402,506 brought the total operating revenues up to \$148,910,022 as against the \$108,864,289 reported a year ago.

Total operating expenses rose to \$142,747,539 from \$106,987,369 in 1954, an increase of 33 per cent. Aircraft operation and maintenance rose to \$87,640,058 from \$59,984,323, while ground operations and maintenance required \$32,380,389 as against \$27,840,216. Traffic expenses were \$13,860,317 compared with \$11,806,206, general administration costs rose to \$8,239,625 from \$6,824,333 and general taxes to \$627,150 from \$532,291.

The number of passengers carried by Canadian airlines in revenue services rose to 2,711,352 from 2,316,655, an increase of 394,697 or 17.0 per cent over last year. This continued increase is a good indication that air travel is becoming more popular each year with the Canadian public. The number of passenger miles flown in revenue unit toll services showed an increase of 14.9 per cent, rising to 1,175,339,948 from 1,023,134,596 the previous year.

The amount of revenue freight carried totalled 222,224,900 lbs. almost double the freight reported in 1954. The increase in bulk transportation from 63,140,902 lbs. in 1954 to 172,728,233 in 1955 was largely responsible for this increase. Freight carried in unit toll transportation rose from 40,033,708 lbs. in 1954 to 49,496,667 lbs.

Canadian carriers flew a total of 48,590,095 miles during 1955 in revenue unit toll transportation services requiring 261,394 hours flying time. This compares with 42,564,118 miles and 238,121 hours a year ago. In addition, a total of 31,860,748 miles was flown in the performance of bulk transportation services, as compared with 16,755,073 miles flown in this same type of service a year ago.
