This report is the seventh in a series of integrated sets of Canada-United States transborder origin and destination statistics. It is made possible as a result of an agreement between Canada and the U.S.A. to exchange data from their respective Airline Passenger O & D surveys.

1. The Canadian Survey

Passenger origin and destination statistics are collected under the authority of the Aeronautics Act at the request of the Air Transport Committee of the Canadian Transport Commission. The scheduled carriers participating are Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Québecair and Transair.

The data summarized in the report are drawn from passenger coupons pertaining to unit toll transportation. Prior to 1974, a 10% continuous systematic sample was employed by Air Canada and C.P. Air and a 20% sample by other Canadian carriers. As of 1974, all participating carriers are using a 10% sample which is based on coupon lifted which have a number ending in "0". To avoid duplication, carriers are instructed to report only if they are the first participating carrier to lift a coupon.

2. The United States Survey

All certificated air carriers, except helicopter and intra-Alaska carriers report O & P statistics on a continuous 10% sample basis to the Civil Aeronautics Board.

3. Blow-up Factor

The summarized figures appearing in this report have been multiplied by a factor of 10 in the case of carriers reporting on a 10% sample basis and by 5 for those reporting on a 20% sample basis for 1973. With regards to 1974, all presented figures have been multiplied by a factor of 10.

4. The Exchange Agreement

Data exchanged include all itineraries in the O & D surveys of the two countries which have both a U.S. point and a Canadian point in the routing, or which involve a U.S. carrier to a Canadian point or a Canadian carrier to a U.S. point.

5. Data Composition

Transborder O & D data are composed of three elements. From the Canadian survey are taken those itineraries which have pure Canadian carriage and mixed Canadian and U.S. carriage content. From the U.S. survey are derived those itineraries with pure U.S. carriage.

The itineraries as reported are broken into single directions components, as a general rule, at the farthest point from the origin. For example an itinerary reported as Montreal-Chicago-Denver-Los Angeles-Toronto-Montreal would be broken into two separate journeys, each with its own origin and destination namely;

Le présent rapport est le septième dans une série des collections intégrées de statistiques transfrontalières (Canada-États-Unis) d'origine et de destination. Il a été rendu possible grâce à un accord entre le Canada et les États-Unis portant sur l'échange de données provenant des enquêtes menées dans les deux pays au sujet de l'origine et de la destination des passagers aériens.

1. L'enquête canadienne

Les statistiques d'origine et de destination des passagers sont recueillies en application de la Loi sur l'aéronautique et à la demande du Comité des transports aériens de la Commission canadienne des transports. Les transporteurs suivants, exploitant des services à horaires fixe, participent à l'enquête actuelle: Air Canada, C.P. Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Québecair et Transair.

Le présent rapport résume des données tirées des volets de billets de passage se rapportant au transport à tarif unique. Avant 1974, Air Canada et C.P. Air appliquaient un échantillon systématique continu de 10 p. 100 alors que les autres transporteurs avaient recours à un échantillon de 20 p. 100. Toutefois, en 1974, tous les transporteurs participant à l'enquête ont utilisé l'échantillon de 10 p. 100 qui porte sur tous les volets qui ont été détachés et dont le numéro se termine par "0". Afin d'éviter tout double emploi, il est demandé à chaque transporteur de n'inclure que les volets qu'il a été le premier à prélever pour les besoins de l'enquête.

2. L'enquête des États-Unis

Tous les transporteurs aériens certifiés, à l'exception de ceux qui assurent les transports par hélicoptère et de ceux qui assurent les transports intérieurs en Alaska, fournissent au Civil Aeronautics Board des statistiques sur l'origine et la destination, sur la base d'un échantillonnage continu de 10 p. 100.

3. Coefficient de réduction

Les chiffres présentés dans ce rapport ont été multipliés par 10 quand il s'agissait de transporteurs ayant déclaré un échantillon de 10 p. 100, et par 5 quand il s'agissait de ceux dont l'échantillon portait sur 20 p. 100 en 1973. Pour ce qui est de 1974, toutes les données ont été multipliées par 10.

4. L'accord d'échange

L'échange de données porte sur tous les itinéraires ayant fait l'objet d'un billet, compris dans les enquêtes sur l'origine et la destination des deux pays, chaque fois qu'ils comportent à la fois un point situé aux États-Unis et un point situé au Canada, ou chaque fois qu'il s'agit d'un transporteur des États-Unis se rendant en un point situé au Canada, ou d'un transporteur canadien se rendant en un point situé aux États-Unis.

5. Constitution des données

Les données transfrontalières sur l'origine et la destination se composent de trois éléments. Dans l'enquête canadienne, on préleve les itinéraires qui comportent les transports purement canadiens, ainsi que les transports combinés Canada-États-Unis. De l'enquête des États-Unis, on retire les itinéraires comportant les transports se situant intégralement aux États-Unis.

Les itinéraires déclarés sont découpés en voyages simples en un seul sens, en règle générale à partir du point le plus éloigné du point d'origine. Dans l'exemple d'une déclaration portant sur l'itinéraire Montréal-Chicago-Denver-Los Angeles-Toronto-Montréal, la subdivision se ferait en deux voyages distincts, dont chacun aurait sa propre origine et sa propre destination, c'est-à-dire:

Montreal-Chicago-Denver-Los Angeles and

Los Angeles-Toronto-Montreal

Entire itineraries are reported in so far as three letter airport and city codes contained in the Official Airline Guide will permit. Should itineraries begin or end in remote places not assigned three letter codes, these itineraries are reported as commencing or ending at the first or last cities in the routings which have such codes assigned.

Tables 1 through 4 present pure Transborder O & D; that is, the itinerary must begin in Canada and terminate in the U.S.A. or vice versa.

In Appendices 1 through 4 the first Canadian point and the last U.S. point (or vice versa) within an international itinerary form the origin and destination of the transborder portion. Examples, showing the transborder portion underlined are:

Montreal-Toronto-Chicago-Seattle-Tokyo and

Rome-New York-Chicago-Winnipeg-Vancouver-Hong Kong

In the first example Montreal becomes the origin and Seattle the destination of the transborder portion. In the second case New York is the origin and Vancouver the destination.

6. Utilization of the Report

O & D statistics are used extensively by airlines, airports, manufacturers of aircraft and aircraft engines, consultants and research organizations, chambers of commerce, hotels, travel organizations, government aviation authorities and other government departments and agencies. Such organizations make use of O & D statistics for: route planning and development; general economic analyses in air transportation including forecasting; airport planning; sales administration and travel promotion; schedule planning; airline investment analyses, development of new aircraft engine designs; airways planning; and studies in tourism and travel.

The O & D statistics in this report may be used to indicate the relative community of interest between Canadian and United States centres. The figures do not, however, give recognition to passengers stopping over at an intermediate point or points en route to their destination. For example, although an itinerary from Montreal to Los Angeles may involve several visits en route, only the initial origin and final destination are taken into account.

Montréal-Chicago-Denver-Los Angeles, et

Los Angeles-Toronto-Montréal

L'itinéraire est déclaré dans sa totalité pour autant que les codes à trois lettres désignant les aéroports tirés du guide officiel des lignes aériennes le permettent. Si un itinéraire devait prendre pour point d'origine ou pour destination un endroit éloigné n'ayant pas de code à trois lettres, la déclaration porterait sur l'itinéraire parcouru entre la première et la dernière ville figurant à la liste des codes à trois lettres.

Aux tableaux 1 à 4 figurent des données sur l'origine et la destination purement transfrontalières, c'est-à-dire, où l'itinéraire commence obligatoirement au Canada et prend fin aux États-Unis, ou inversement.

Aux appendices 1 à 4, le premier point situé au Canada et le dernier point situé aux États-Unis (ou inversement) à l'intérieur d'un itinéraire international constituent l'origine et la destination du voyage transfrontalier. Dans les exemples suivants, le voyage transfrontalier a été souligné:

Montréal-Toronto-Chicago-Seattle-Tokyo, et

Rome-New York-Chicago-Winnipeg-Vancouver-Hong Kong

Dans le premier exemple, Montréal devient l'origine, et Seattle la destination du voyage transfrontalier. Dans le second cas, l'origine est New York, et la destination, Vancouver.

6. Utilisations du rapport

Les statistiques d'origine et de destination font l'objet d'une utilisation intensive par les compagnies aériennes, les aéroports, les constructeurs d'aéronefs et de moteurs d'avion, par les organisations de consultation et de recherches, les chambres de commerce, l'hôtellerie, les agences de voyages, les milieux aéronautiques de secteur public et par d'autres ministères et organismes publics. Ces organismes utilisent les statistiques d'origine et de destination pour la planification et la développement des routes aériennes; l'analyse économique d'ensemble des transports aériens et les prévisions qui s'y rapportent; la planification des aéroports; l'administration des ventes et la publicité touristique; les prévisions d'horaires; l'analyse des investissements des compagnies aériennes; le développement de nouvelles conceptions en matière d'aéronefs et de moteurs d'aviation; la planification des lignes aériennes et les études concernant le tourisme et les voyages.

Les statistiques sur l'origine et la destination du présent rapport peuvent servir à illustrer la relative communauté d'intérêts existant entre les centres canadiens et ceux des Etats-Unis. Ces chiffres ne tiennent cependant pas compte des passagers qui font escale à l'un ou plusieurs des points de l'itinéraire qui les mène à destination. Même, par exemple, si un itinéraire menant de Montréal à Los Angeles peut comporter plusieurs arrêts en cours de route, seul l'origine initiale et la destination finale sont prises en considération.

GLOSSARY OF TERMS

City Pair: Two cities between which travel is authorized by a ticket or part of a ticket.

Coupon: Each of the component parts of a ticket containing separate travel authority for the different trip segments of the total travel covered by the passenger ticket.

Itinerary: All points in the passenger journey, beginning with the origin, followed by the routing, and ending with destination, in the sequence shown in the fare ladder section of the coupon.

Intermediate Point: Any point in an itinerary, other than the origin and destination, at which the passenger makes an interline or intraline connection or stopover.

International: The world area outside Canada and the U.S.A.

Participating Carrier: A Canadian air carrier which is required to file O & D reports on Air Transport Committee Statement 35 or a U.S. air carrier required to file with the Civil Aeronautics Board.

Point: A city or airport.

Revenue Passenger: A person receiving unit toll air transportation from an air carrier for which remuneration is received by the air carrier.

Stopover: An intermediate stop in an itinerary where the passenger arrives at and departs from the point on different days.

Ticket: The booklet containing the auditor's coupon and individual passenger travel authorizations consisting of the flight coupon (or coupons) covering the passenger's complete itinerary.

Transborder: Journeys beginning (terminating) in the Provinces and Territories of Canada and terminating (beginning) in the fifty States of the United States of America.

Transborder Portion: The first Canadian point and the last U.S. point (or vice versa) within an international itinerary.

Unit Toll: Transportation at per passenger rates.

GLOSSAIRE

Billet: Carnet contenant le volet de contrôle et les bons individuels de transport des passagers et comprenant le billet de passage (ou les billets de passage) se rapportant à l'itinéraire complet du passager.

International: Ensemble du monde en dehors du Canada et des États-Unis.

Itinéraire: Tous les points compris dans le voyage d'un passager, à commencer par le point d'origine, et se terminant à la destination, dans l'ordre où ils apparaissent dans la partie du billet qui mentionne les prix de passage.

Paire de villes: Groupe de deux villes entre lesquelles le passager a le droit de se déplacer en vertu d'un billet ou d'un volet.

Point: Ville ou aéroport.

Point d'escale: Arrêt en cours d'itinéraire où le passager arrive et dont il repart à des jours différents.

Point intermédiaire: Tout point d'un itinéraire à l'exception de l'origine et de la destination où le passager s'arrête pour prendre une correspondance sur la même ligne ou sur une ligne différente, ou pour faire escale.

Tarif unitaire: Transport dont le taux est fixé par passager.

Trajet transfrontalier: Ensemble constitué par le premier point situé au Canada et le dernier point situé aux États-Unis (ou inversement) compris dans un itinéraire international.

Transfrontalier: Voyage dont le point de départ (d'arrivée) se situe dans l'une des provinces ou l'un des territoires du Canada, et dont le point d'arrivée (de départ) se situe dans l'un des cinquante États des États-Unis d'Amérique.

Transporteur participant: Transporteur aérien canadien soumis à l'obligation de faire des déclarations sur l'origine et la destination des passagers au moyen de l'état n° 35 du Comité des transports aériens, ou transporteur aérien des États-Unis soumis à l'obligation de faire des déclarations au Civil Aeronautics Board.

Volet: Toute partie d'un billet représentant l'un des titres de transports valables pour les divers sections d'itinéraires qui constituent l'ensemble du voyage prévu par le billet de passage.

Voyageur payant: Personne effectuant un voyage aérien aux termes d'un tarif unitaire assuré par un transporteur aérien qui perçoit une rétribution à ce titre.
