MONTHLY TRAFFIC REPORT OF RAILWAYS OF CANADA

FOR
JUNE 1932

Total freight handled by Canadian railways during June amounted to 4,869,320 tons, or 1,495,011 tons less than in June last year. The increases were few, wheat which was heavier by 216,984 tons being the only commodity to show any considerable increase. The large decreases included 131,635 tons of anthracite coal, 200,289 tons of bituminous coal, 328,589 tons of sand, gravel and crushed stone, 90,508 tons of pulpwood, 85,833 tons of lumber and timber, 90,140 tons of cement and 154,971 tons of miscellaneous freight. The heavy shipment of grain from Alberta stations was the main factor in the increase in freight originated in that province of 58 per cent, but heavy decreases were recorded in all the other provinces. The tonnage of mine products, mostly coal, received from foreign connections at Ontario junction points decreased by 289,291 tons, or 74 per cent, and at Quebec junction points by 31,957 tons, or 38 per cent.
