

D.B.S. MEMORANDUM

Dominion Bureau of Statistics, Ottawa, Canada

MONTHLY TRAFFIC REPORT OF RAILWAYS OF CANADA

OCTOBER, 1951

A very active month was registered for October in the movement of revenue producing rail freight with the total handled rising to 15,597,551 tons for an increase of 802,574 tons or 4 p.c. over the similar period of 1950 and comparing favourably with the 15,411,812 tons reported for October, 1949, and 14,872,613 tons in 1948. The current total is an all time record for any month in Canadian rail history and reflects, particularly, the heavy flow of wheat, pulpwood, and iron and steel.

Loadings at Canadian stations amounted to 12,047,614 tons against 11,262,605 tons in the corresponding month of 1950, an advance of 785,009 tons or 7 p.c. Foreign shipments for domestic delivery were off slightly at 2,075,062 tons versus 2,155,015 tons during the previous October, due mainly to a reduction in bituminous coal imports, and intranet revenue freight declined 122,484 tons to 1,476,675 with farm products, automobiles and miscellaneous manufactures lower. Thus, the betterment over October, 1950, was due entirely to greater activity throughout Canada. Domestic loadings of agricultural products totalled 5,125,415 tons or 644,450 tons above the same month of the preceding year. Wheat shipments rose from 1,076,787 to 1,794,556 tons, flaxseed was up from 12,058 tons to 55,071, while other grain and other mill products were also heavier. Corn, oats, barley and rye were lighter while flour, hay and straw, apples and potatoes were also reduced. The animals and animal products group continued under 1950 levels, down 18,568 tons to 153,654. Livestock slipped from 72,141 to 58,461 tons and cheese, wool, leather and other animal products posted declines. Fresh meats and poultry and hogs improved in volume. The products of mines grossed 4,250,579 tons for a gain of 57,175 tons over October, 1950, as lignite, base bullion, sand and gravel up from 408,290 to 565,755 tons, stone, asphalt and salt offset decreases in bituminous coal, iron ores, copper, other ores and concentrates and crude petroleum which dropped from 142,578 to 55,855 tons due to the western pipeline which began major operations in mid-October of 1950.

Forestry items displayed strength with the total up to 1,507,018 tons from 1,476,155 tons one year earlier. Logs, etc. increased 58,985 tons to 162,052 tons while ties advanced from 5,989 to 11,030 tons. Pulpwood produced an effective gain of 205,256 tons to 656,489 tons. Plywood and other forest products also were heavier but lumber shipments dropped 202,518 tons to 612,820 tons as foreign demand slackened due in part to the sterling problem but mainly to lower U. S. purchases. High costs, etc. are slowing home building in Canada.

The manufactures and miscellaneous items registered a variety of gains and decreases from the preceding October but the group total rose from 2,961,859 to 3,052,968 tons, up 91,109 or by 3.1 p.c. Gasoline and petroleum oils posted good gains. The steel industry was much more productive with 155,288 tons against 117,554. Automobiles advanced 5,087 tons to 57,227 while beverages were 15,707 tons heavier at 49,099. Newsprint continued better at 515,078 tons against 294,242 tons one year earlier and woodpulp increased 15,246 tons to 209,515 tons. Canned goods with 67,128 tons loaded by Canadian shippers improved by 7,684 tons. The miscellaneous manufactures accounted for 774,487 tons or 42,915 above October, 1950 volume.

The sizeable declines in domestic manufactures were shown in shipments of pig iron, cement down 10,091 tons to 151,014, and L.C.L. merchandise which dropped from 288,059 to 220,896 tons under the impact of the 5-day week and the encouragement to provide carload lots.

Provincial loadings registered gains over the previous October in Prince Edward Island, up from 15,476 to 26,558 tons on the strength of greatly augmented pulpwood deliveries, and in New Brunswick at 442,884 tons against 362,998 tons, reflecting increased forestry output. The province of Quebec total was 1,895,465 tons for the month under review, some 80,008 tons above the preceding October with most groups higher.

The Ontario loadings amounted to 4,019,977 tons against 3,585,105 tons with wide advances in agricultural products as well as progress in mining and manufacturing deliveries. The Manitoba total rose 194,429 tons reflecting a greater wheat and mine products movement. Saskatchewan posted a betterment of 129,451 tons to 1,531,551 as wheat shipments boomed. Alberta likewise benefitted from the wheat item which offset the drop in crude petroleum moving in tank cars and the regional total increased 4,022 tons to 1,202,209 tons.

Reduced loadings occurred only in Newfoundland off 6,555 tons to 115,045, in Nova Scotia where lighter mine output reduced the total to 955,650 from 1,008,267 tons and in British Columbia at 965,538 tons against 1,035,067 tons one year earlier. The last decrease resulted from lighter volume in each group of commodities with mine products accounting for 51,765 of the 69,549 tons decline in the British Columbia total.

During the first 10 months a record total of 155,512,159 tons of revenue freight were carried by Canadian lines. This represents an advance of 15,551,732 tons or 15 p.c. over the revised total of 118,180,427 tons during the similar period of 1950 and compares with 118,751,901 tons (including Newfoundland from April 1) in 1949 and 127,821,855 tons to the end of October, 1948. The previous peak for the period was registered in 1944 at 129,955,065 tons. Commodities sparking the healthy advance over 1950 included wheat, oats, barley, flour, ores, building products, pulpwood, iron and steel, newsprint, woodpulp and other manufactures. Major declines were experienced in potatoes, livestock, coals, and crude petroleum.

COMPARATIVE SUMMARY

Total Freight Loaded and Received from Foreign Connections

| Provinces | OCTOBER | SEPTEMBER | OCTOBER | OCTOBER |
