D.B.S. MEMORANDUM

Dominion Bureau of Statistics, Ottawa, Canada

8504-507
12-3-53.

NOVEMBER, 1952.

Canadian railways transported a total of 13,770,106 tons of revenue freight during the month of November. This represents a decrease of 5.3 p.c. or 767,700 tons from the near record for the month of 14,537,806 tons carried in November of 1951 and is slightly under the same period of 1950. A factor in the overall decline was the occurrence of 5 Saturdays and Sundays during the month versus 4 of each in the preceding November, thus reducing the number of loading days.

Loadings at Canadian stations amounted to 10,654,795 tons compared with 11,104,986 tons a year earlier with all commodity groups except agricultural products lower. Receipts from connections for domestic delivery declined from 2,002,070 to 1,850,958 tons while intrastate freight was 166,397 tons lighter in the recent November at 1,264,353 tons. Only the manufactures group registered improvement in freight destined to Canadian points from abroad while all the main intrastate commodity groups were reduced from 1951. A review of November loadings in Canada shows wheat up from 1,743,883 to 1,914,444 tons and corn, barley, rye, flaxseed, other grains and flour in much better volume. Apples and potatoes were also heavier in the month under review compared with November of 1951. Hogs, fresh meats, eggs and hides and leather improved but horses, livestock and sheep were lighter among the Animals and products group. Livestock at 47,855 tons was off from 52,799 a year earlier. Domestic coal shipments continued lower with bituminous sharply down from 883,788 to 705,256 tons and sub-bituminous and lignite much lower. Coke deliveries were better and iron ore moved up from 215,352 to 250,008 as domestic sources are coming into their own. Sand and gravel totalled higher while stone jumped from 307,673 to 401,856 tons. Crude petroleum moving principally to west coast refineries amounted to 73,480 tons against 47,018 tons in the preceding November.

Among forest products loaded, declines were posted in logs, cordwood, pulpwood and lumber. Pulpwood dropped from 474,777 to 303,312 tons and lumber was off from 569,821 to 517,430 tons. Ties, plywood and other forest products shipments improved over November of 1951.

Only six of the twenty five listings in the manufactures and miscellaneous group posted gains and the group total declined from 2,888,807 to 2,732,461 tons or by 5.4 p.c. Gasoline, sugar, cement, furniture, beverages, and other manufactures and miscellaneous were higher. Iron and steel moved down from 147,359 to 125,697 tons. Automobiles and parts at 44,450 tons were off from 50,368 tons. Newsprint paper loaded in Canada totalled 271,071 tons versus 302,075 a year earlier. Woodpulp dropped from 212,044 to 152,657 tons and L.C.L. was off 32,277 tons to 174,953.

Provincial loadings were heavier in Newfoundland with 89,789 tons for November against 68,323 tons in 1951 as mine products improved. Greater potato deliveries pushed the P.E.I. total up from 31,450 to 45,673 tons. Reduced coal mining pared the Nova Scotia total to 715,815 tons from 915,302 and a sharp decline in pulpwood and forest output in New Brunswick caused a decrease of 86,233 tons to 288,823 in the provincial total. Declines were general in Quebec and the area aggregate for November of 1,484,950 was down 169,149 tons or over 10 p.c. The province of Ontario registered betterment in agriculture and mine output with the regional total at 3,546,769 tons against 3,570,043 tons a year earlier. Despite an increase in mining the Manitoba total slipped from 948,918 to 888,939 tons with agricultural deliveries down some 72,000 tons. Saskatchewan registered a minor gain of 18,096 tons to total 1,291,659 tons. A wide advance in grain offset a decline in mine products. Alberta likewise moved slightly higher to 1,292,146 tons. Agricultural items moved up over 100,000 tons but mineral items were down. Reduced activity in mine and forest cut the British Columbia aggregate to 910,232 tons from 1,005,843 for a 9 p.c. decrease.

Cumulative totals for the first eleven months of 1952 show that Canadian lines handled a record 148,925,283 tons of revenue freight in all services domestic and foreign. This is an increase of 875,318 tons or 0.6 p.c. over the similar eleven month period of 1951 when the previous record of 148,049,965 tons were given transport.

COMPARATIVE SUMMARY

Total Freight loaded and received from Foreign Connections
