## RAILWAY FREIGHT TRAFFIC

AUGUST 1962

Presented herein are revenue freight traffic statistics of twenty-three class 1 and 2 railways operating in Canada (common carriers having average gross revenues of \$500,000 or more annually). Included in these statistics for the first time are operations of the Cartier Railway Company in Quebec whose iron ore movements have contributed approximately five per cent to the total national loadings and un-loadings. Excluded from this report are details of class 3 and 4 roads (companies with annual revenues of less than \$500,000), the traffic of which represents about one per cent of all freight carried. Freight interchanged between Canadian rail-ways is not duplicated in these data.

During August twenty-three railways reported 15,307,564 tons of revenue freight loaded in Canada and received from United States rail connections, up 6.5 per cent from 14,374,479 tons reported by twenty-two carriers a year earlier. Of the August 1962 total, 13,430,553 tons were loaded in Canada (including imports at lake or ocean ports) versus 12,627,240 tons a year previous. Freight received from United States rail connections destined to points in Canada totalled 874,210 tons as against 816,493, and intransit freight (United States to United States through Canada) aggregated 1,002,801 tons in contrast to 930,746.

Freight loadings by commodity groups, showed increases in three of the six major categories. Less-than-carload freight (l.c.l.) rose 25.3 per cent to 98,150 tons from 78,351; products of mines were up 17.4 per cent to 7,054,359 tons from 6,007,258, and products of forests rose 7.1 per cent to 1,383,637 tons from 1,292,424. Loadings of animals and products decreased 22.2 per cent to 63,105 tons from 81,109; products of agriculture fell 16.3 per cent to 1,682,819 tons from 2,011,410, and manufactures and miscellaneous declined 0.3 per cent to 3,148,483 tons from 3,156,688.

On an area basis, the volume of revenue freight traffic loaded by railways in August 1962 was up from the previous year in four of the ten provinces. Tonnages in Quebec (which included those of the Cartier Railway in the 1962 period), increased 25.3 per cent; Manitoba loadings rose 24.4 per cent; British Columbia 7.1 per cent and Nova Scotia 4.9 per cent. Decreases occurred in Prince Edward Island with 36.2 per cent less tonnage; Alberta 17.4 per cent; New Brunswick 11.3 per cent; Newfoundland 6.8 per cent; Saskatchewan 4.4 per cent and Ontario 1.3 per cent.

Revenue freight terminated on railway lines in Canada during the current month totalled 15,340,059 tons, an increase of 7.1 per cent from 14,323,662 tons a year earlier. Of the August 1962 total, 12,927,827 tons were unloaded at points in Canada (including shipments delivered to water carriers), and 2,412,232 tons were delivered to United States rail connections. This compares with 12,141,944 tons terminated and 2,181,718 tons delivered to United States rail connections in 1961.

During the first eight months of 1962, 102,892,266 tons of revenue freight were loaded in Canada and received from United States rail connections, an increase of 6.2 per cent from 96,847,465 tons reported for the same span of 1961.

REVENUE FREIGHT CARRIED BY RAILWAYS IN CANADA

August 1962

No.	COMMODITIES	Originated or loaded (including imports at lake or ocean ports)	Received from U.S. (rail)		Total freight traffic (excluding duplications)				Terminated or unloaded (including exports at lake or ocean ports)	Delivered to U.S. rail connections
