OPERATING REVENUES, EXPENSES AND STATISTICS
OF

RAILWAYS WITH AN ANNUAL OPERATING REVENUE OF \$500,000
For the Month of March

The returns of the railways for March 1921 show considerable improvement over January and February, and also an improvement over March 1920. The ratio of operating expenses to the operating earnings was 96.64 per cent for March as against 108. per cent for January, 105.1 per cent for February and 99.47 per cent for March 1920. The operating revenues increased about 5 per cent over January, 10 per cent over February and .7 per cent over March 1920. The revenue tons/mile increased slightly over January about 5 per cent over February but decreased 16 per cent from March 1920.

The passengers carried one mile increased over January and February but decreased over 6 per cent from March 1920. The increased freight and passenger rates which became effective September 1920 offset these decreases in traffic giving a slight increase in revenue over last year. The operating expenses decreased about 2.5 per cent from March 1920 and the total pay roll decreased about the same ratio.

Of the five larger roads for which individual reports are given; with the exception of the Grand Trunk Pacific, the roads show considerable improvement over March 1920. The Canadian Northern, Canadian Pacific and Grand Trunk continue to show improvement for 1921. The ratio of operating expenses to revenues for January, February and March 1921 and 1920 are as follows:-

		Operating Ratio
