OPERATING REVENUES. EXPENSES & STATISTICS STEAM RAILWAYS OF CANADA

WITH ANNUAL OPERATING REVENUES OF \$500,000 FOR THE MONTH OF NOVEMBER, 1931

For the first time in nearly a year and a half (since June 1930) the net revenues of Canadian railways was higher than for the corresponding month of the previous year; the increase for November was \$100,120, although gross revenues were reduced from \$35,384,469 to \$31,688,238 or by \$3,696,230. Operating expenses were cut by \$3,796,351. Freight traffic increased by 6.5 per cent but passenger traffic decreased by 33.0 per cent and transportation expenses were reduced by only \$50,136 or 3.5 per cent but maintenance of way and structures was reduced by \$738,055 or 14.2 per cent and maintenance of equipment by \$894,719, or 15.8 per cent. The average number of employees was less than in 1930 by 25,007, or 15.9 per cent and the total pay roll was reduced by \$3,678,547 or 18.3 per cent.

The average earnings of freight trains increased from \$5.29 to \$5.38 per mile but passenger trains showed a decline from \$1.72 to \$1.47 and carried an average of only 28 passengers per train.

For the eleven months, January ** Movember, gross revenues amounted to \$329.942,781 as against \$416,367,949 in 1930. Net revenues decreased by \$31.540,262, or to \$35,354,995 and the operating income amounting to \$25,092,249 was less than in 1930 by \$30,732,735.

EASTERN LINES - CANADIAN NATIONAL RAILWAYS: With decreases in freight traffic of 12.9 per cent and in passenger traffic of 35 per cent, gross revenues decreased by \$393,181 or 18.9 per cent, but operating expenses were cut by \$544,619, or 22.4 per cent, reducing the operating loss by \$151,438 and the operating income debit by \$130,819, or from \$419,849 to \$289,029.

For January - Movember, gross revenues amounted to \$21,361,666 as against \$26,257,085 in 1930 and the operating income debit was \$7,079,685 or an increase in the loss of \$2,045,330.

CANADIAN NATIONAL RAILWAYS- (Canadian Lines exclusive of Eastern Lines): Gross revenues amounted to \$13,422,447 or \$1,141,325 less than in 1930 and operating expenses amounted to \$11,222,016, or a decrease of \$1,602,302. Thus the net revenue was increased by \$450,913 and the operating income by \$470,608.

Freight traffic was increased by 12.7 per cent through an increase in the average length of haul of 67.3 miles, but the average receipt per ton mile decreased from .926 cent in November 1930 to .806 cent. A heavier grain movement was the main factor in this increased haul and decreased average revenue.

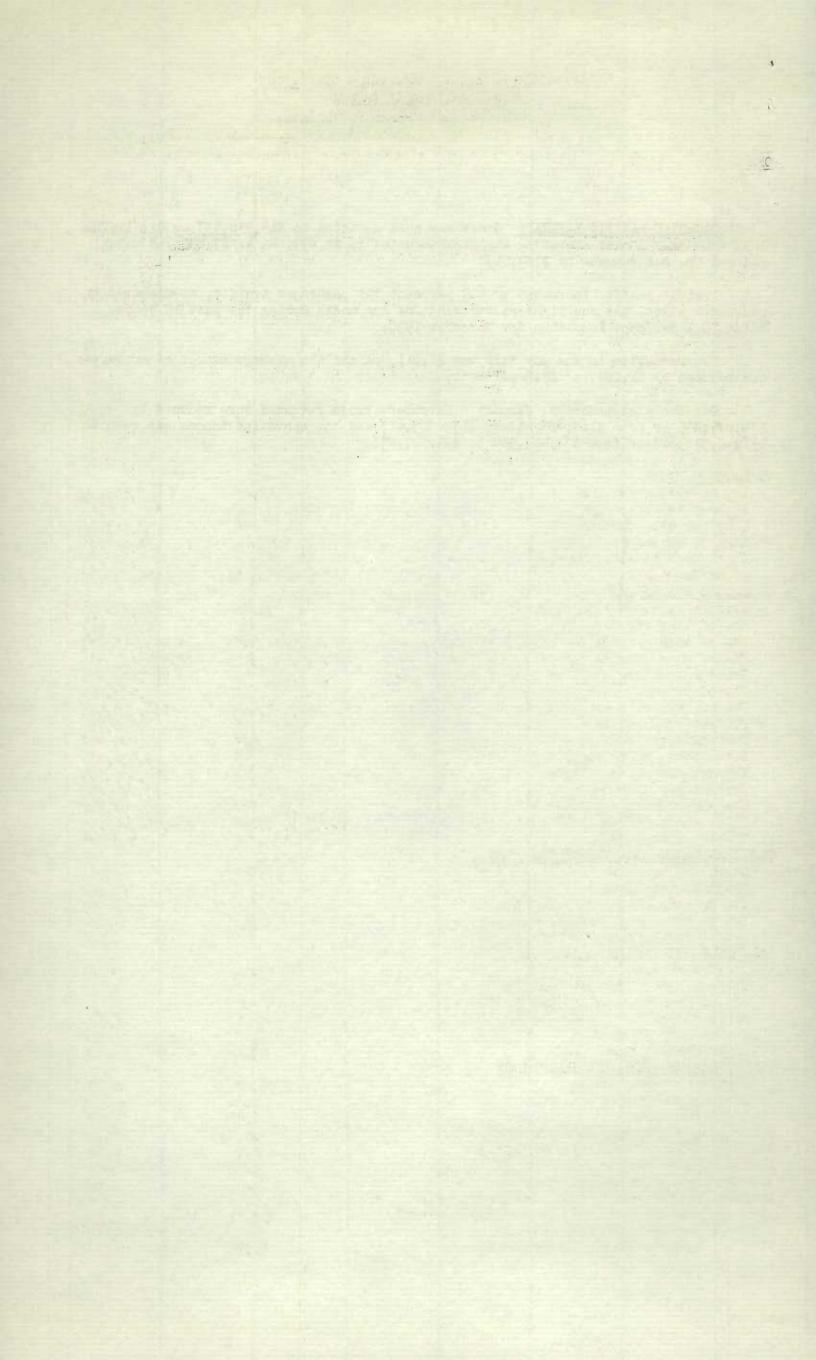

The United States lines showed decreases in both gross and net revenues partially offsetting the improvement of the Canadian lines so that the net revenue of the system was only \$10.066 greater than in 1930 or \$2,084,481 as against \$2,074,415 the previous year. For January - November Canadian lines showed an operating income of \$4,485,119 as against \$18,363,997 last year but the United States lines showed a debit of \$2,370,271 as against a credit of \$788,067 in 1930. For the system (exclusive of the Eastern Lines) the operating income amounted to \$2,114,848 or a decrease from 1930 of \$17,037,217.

Freight traffic increased by 6.9 per cent but passenger traffic, as measured by passenger miles, was the lightest recorded for any month during the past 10 years, being 28.1 per cent less than for November 1930.

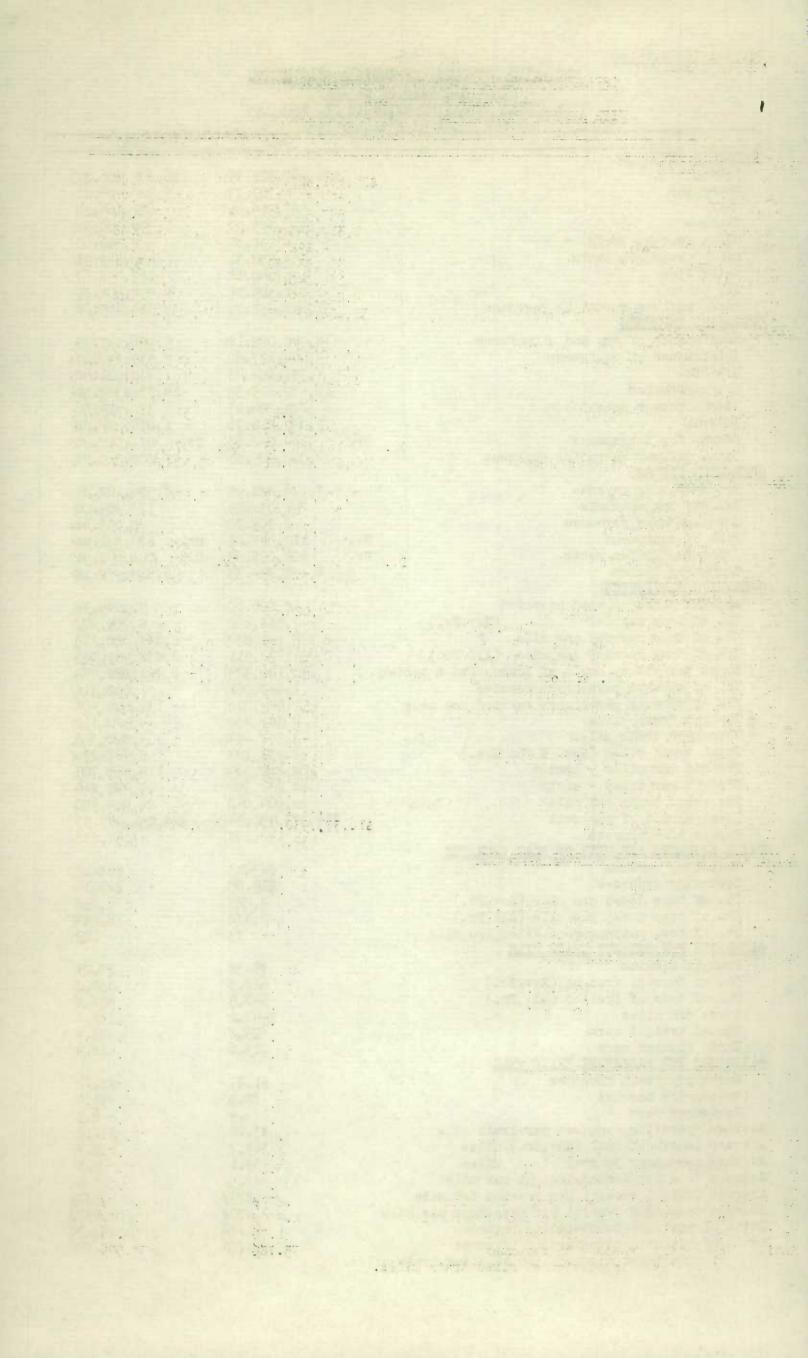

The reduction in the pay roll was \$1,611,461 and the average number of employees was reduced by 11,039, or 19.5 per cent.

For the eleven months, January - November, gross revenues were reduced by \$34,679,400 or from \$157,485,017 to \$132,805,617 and the operating income was reduced by \$10,396,568 or from \$34,483,960 to \$24,087,291.
