Operating revenues of Canadian railways reached a new high record at \$70,913,046, exceeding the previous record made in June by \$1,051,899 and the July, 1944 revenues by \$1,887,011. Freight revenues were greater than in 1944 by \$441,606 and passenger revenues increased by \$447,144. Operating expenses increased by \$2,255,819 but the total pay roll for July, 1944 adjusted for increased rates awarded in July, was greater than reported last year by \$2,021,454, the greater part of which would be chargeable to operating expenses. This adjustment would affect the operating income which declined from \$12,577,191 to \$11,665,078. Taxes which increased from \$3,722,624 to \$4,364,471 included \$1,063,220 for taxes due for 1939-1944. Revenue ton miles were less than one per cent greater than in 1944 but revenue passenger miles increased by 5.0 per cent despite a decrease of 12.4 per cent in the number of passengers carried. This variation was partly due to a decrease in commuter traffic of 428,036 passengers or 61 per cent of the total decrease. The average journey, excluding commuter traffic, increased from 145 to 160 miles, whereas the average freight haul declined from 401 to 590 miles.

For January - July operating revenues decreased from \$452,152,959 in 1944 to \$451,047,439, and the operating income declined from \$74,516,971 to \$64,995,402 exclusive of an adjustment in total pay roll of \$14,277,955 due to the N.W.L.B. award in July. These adjustments were taken into operating expenses in later months in 1944.

CANADIAN NATIONAL RAILWAYS: Operating revenues of the Canadian lines increased from \$34,547,700 in July, 1944, to \$35,473,700, which has been exceeded only in July and August, 1945. Operating expenses were increased by \$834,437 and the operating income was increased from \$7,451,494 to \$7,862,656. The average passenger journey increased from 111 to 142 miles and when the commuter traffic is excluded, the averages become 144 and 164 respectively. The lines in the United States showed increased revenues and expenses and a small decrease in operating income. System revenues increased from \$38,461,000 to \$39,845,000 and the operating income increased from \$7,886,375 to \$8,289,321. For January - July system revenue increased from \$252,060,000 to \$253,714,000, operating expenses increased from \$202,385,000 to \$205,232,000 and the operating income declined from \$43,086,756 to \$42,052,870.

CANADIAN PACIFIC RAILWAY COMPANY: The operating revenue of \$29,164,155 was the largest earned in any month and exceeded the July 1944 revenue by \$1,729,276. Operating expenses were increased by \$1,670,828 and the operating income was increased from \$5,659,490 to \$3,896,114. Freight traffic increased by 3.2 per cent for an increase in freight revenues of \$792,143 or 4.3 per cent and passenger traffic increased by 4.7 per cent for an increase in passenger revenue of \$403,142 or 6.8 per cent. The average passenger journey increased from 157 to 170 miles and the average revenue per passenger mile increased from 1.910 to 1.946 cents. For January - July operating revenues increased from \$182,803,965 to \$184,428,070, but operating expenses increased from \$156,845,570 to \$149,146,261 and the operating income declined from \$26,559,905 to \$21,116,112.
