OPERATING REVENUES, EXPENSES & STATISTICS RAILWAYS IN CANADA WITH ANNUAL OPERATING REVENUES OF \$500,000 OR OVER

JANUARY, 1947

Canadian railways earned \$57,565,026 during January as compared with \$55,796,577 in January 1946. Freight revenue increased by 10.6 per cent to \$44,872,495 which was a new high record for January, but passenger revenues declined by 22.0 per cent. Operating expenses increased from \$52,637,332 to \$55,374,574 reducing the operating income from \$135,087 to a debit of \$508,111. The increase in rates of pay effective June 1,1946 was the principal factor in the heavier expenses. Revenue ton miles increased by 2.1 per cent but revenue passenger miles declined by 32.4 per cent and the average passenger journey decreased from 121 to 83-miles. The number of employees increased from 168,591 to 170,419 or by 1.1 per cent and the pay roll increased from \$29,770,660 to \$33,911,727 or by 13.9 per cent. This is by far the largest pay roll for any January and has been exceeded only by the October 1946 pay roll when revenues reached a peak and were 13.5 per cent higher than in January 1947.

GANADIAN NATIONAL RAILWAYS: Operating revenues of Canadian lines increased from \$27,517,700 in 1946 to \$28,164,200, freight revenue being up by \$1,895,800 or 9.7 per cent and passenger revenue being down by \$919,600 or 22.1 per cent. Operating expenses increased from \$25,227,137 to \$28,079,513 or by 11.5 per cent, and the operating income declined from \$1,567,516 to a debit of \$440,518. The United States lines showed an increase in operating revenues of 31 per cent and in operating expenses of 16 per cent raising the system gross revenues from \$30,901,000 in 1946 to \$32,858,000, operating expenses from \$28,625,000 to \$32,027,000, and the operating income was reduced from \$1,317,399 to a debit of \$288,625

CANADIAN PACIFIC RAILWAY COMPANY: Gross revenues increased by only \$130,928 or from \$25,471,804 in 1946 to \$23,602,732, whereas operating expenses increased by \$1,569,629 or from \$20,780,665 to \$22,850,294 thus reducing the operating income from \$1,218,412 to \$187,034. Revenue ton miles showed only a slight increase, the average haul declining from 482 to 458 miles. The number of passengers increased by 1.6 per cent, but because of a reduction in the average length of journey from 146 to 92 miles the passenger miles declined by 36.1 per cent. The number of employees increased from 63,806 to 65,360 or by 2.4 per cent and the pay roll increased from \$11,652,126 to \$13,327,766 or by 14.4 per cent.
