DOMINION BUREAU OF STATISTICS Transportation Division OTTAWA

Mr. T. Moton

STATISTICS STATISTIQUE

Published by Authority of the Rt. Hon. C. D. Howe, Minister of Trade and Commerce

BRARY DEPARTMENT

PERATING REVENUES, EXPENSES & STATISTICS
RAILWAYS IN CANADA
WITH ANNUAL OPERATING REVENUES OF

\$500,000 OR OVER

OCTOBER, 1949

A29414019 1087

BIELIOTHÈQUE

The principal Canadian relways reported operating revenues of \$80,570,415 for October, indicating a decline of 2.7 p.c. or \$2,269,487 from the record for the month established in the corresponding period of 1948 at \$82,859,900. Freight earnings, reflecting a 6.5 p.c. drop in revenue ton miles, eased from \$68,587,000 to some \$65,992,000, a decrease of 5.8 p.c., or \$2,595,500. Passenger revenues dropped 4.9 p.c. to \$5,744,529, off \$295,578, but mail improved 4.2 p.c., express revenues were up 8.2 p.c., or \$250,427, and other passenger train revenues jumped nearly 21 p.c. Nater line was down 4.2 p.c., while "all other" account advanced from \$5,505,073 to \$5,510,057, or by 6.3 p.c. Operating expenses were reduced \$605,462 or less than one per cent from \$69,655,066 to \$69,049,504 in the month under review. Maintenance of way and structures charges were down fractionally from the previous October at \$13,629,217 but maintenance of equipment was reduced nearly \$501,000 to \$14,858,630. Traffic expenses were slightly heavier while transportation account eased 2.4 p.c. or by \$839,519 to \$54,516,889, largaly as a result of reduced pay roll. General expenses were much heavier at \$5,516,988, up 19.2 p.c. or some \$567,700 above those reported for the preceding October. Railway tax accruals were eased from \$1,942,867 in the similar month of 1948 to \$1,509,185 or by nearly \$435,700. Hire of equipment and joint facilities rents also decreased. The net result was an operating income of \$8,775,255 compared with \$9,864,503 one year earlier, a depreciation of some \$1,089,000.

Operating revenues on Newfoundland operations are estimated at \$794,000 for the month and expenses at \$1,191,500, both of which were not represented in data for October of 1948 and consequently affect comparisons to a minor degree.

Operating statistics, which are exclusive of Newfoundland, show a decline of 10 p.c. in revenue tonnage carried as compared with the previous October, the total at 14,336,274 tons off 1,592,366 tons and reflecting in part the effect of coal and steel strikes throughout the month in the United States which caused a wide drop in imports of these commodities. Revenue ton mileage declined 6.5 p.c. from 5.907 million to 5.525 million miles and average haul was 365 miles against 371 miles in October, 1948. The number of revenue passengers shrunk 12 p.c. from October, 1948, or by 310,517 to 2,281,835 for the month, while revenue passenger miles sagged 17.7 p.c. as average journey was reduced from 96 to 90 miles. Increased feres, however, kept revenues to a 4.9 p.c. decrease. Total train miles were down 2.6 p.c. from the high mileage rolled in the previous October. Loaded freight car miles decreased 3 p.c., while empty mileage rose 2.7 p.c. Total pay roll for the month under review was \$41,193,492, down \$1,475,624 or 3.5 p.c., while emptypees numbered 176,587 or 4,808 less than in October, 1948, a 2.7 p.c. cut. Pay roll for October, 1948, had included \$445,482 in backtime adjustments. Average fraight receipt per revenue ton mile was 1.195 cents for October compared with 1.161 cents one year earlier, while passenger receipt per passenger per mile rose from 2.426 to 2.805 cents.

CANADIAN NATIONAL RAILWAYS: Revenues from operations in the ten provinces were \$40,170,600 during October, a decrease of \$283,700 or .7 p.c., as compared with \$40,454,500 for the corresponding period of 1948. Without Newfoundland the decline would have been over \$1,077,000 from the record revenues experienced in the preceding year. Freight earnings were reduced 2.4 p.c., or \$797,000, while passenger fares dropped 5.4 p.c. or \$97,000 and outwelched gains in mail, express and "other" accounts. Working expenses decreased from \$56,418,863 to \$55,795,831 or by 1.7 p.c. (despite the addition of some \$1,191,000 on Newfoundland account) with all accounts pared except General expenses. Maintenance charges dropped 7.6 p.c. on equipment and 2.7 p.c. on way and structures, but transportation account was little changed at \$18,794,872. Tax accruals increased from \$565,255 to \$610,764 but hire of equipment debit essed and rents credit was up slightly. Operating income for the month improved \$315,270 over October, 1948, to \$3,576,871, and Canadian lines show a deficit of some \$5,982,000 for the first ten months compared with an operating loss of \$4,695,002 in the same period of 1948. Without Newfoundland lines, the deficit for the 10 months would have been about \$2 million for mainland operations. Revenus freight (ex Newfoundland) registered a drop of 462,367 tons or 6.9 p.c. from the preceding October while ton mileage eased 3.1 p.c., with increased average haul. Revenus passengers numbered 5.9 p.c. less at 1,268,442 and average journey declined from 87 to 76 miles. Total pay roll receded from \$23,505,185 to \$22,225,221, the previous October figure including \$408,989 backtime. Employees were reduced by \$,680 or 5.6 p.c. American lines of the system showed operating income of \$126,060 for the month compared with \$1,069,336 one year earlier and felt the effects of the steel and coel strikes which persisted throughout October. The entire CM-Rsystem shows a deficit of \$2,811,445 in operating income for the first 10 months against

CANADIAN PACIFIC RAILWAY COMPANY: Operating revenues for October at \$33,251,652 registered a drop of 5.5 p.c. or \$1,201,327 from the same month of 1948. Freight receipts were off \$1,008,050 or 5.5 p.c. to \$27,907,974, while passenger fares declined 10.2 p.c. to \$2,597,053. Express and other passenger train revenues improved while mail, water line and 'all other' accounts declined. Operating expenses moved up \$487,560 to \$27,984,456, an increase of 1.8 p.c. over the preceding October. Maintenance charges were up over 6 p.c., and traffic 14.6 p.c., but transportation account eased 4.1 p.c. A reduction of \$470,160 to \$557,645 was shown in tax accruals while hire of equipment and joint rents were lighter. Operating income which had been \$5,671,587 in October, 1948, was reduced to \$4,500,008. Revenue freight ton miles were down 9.5 p.c. from the high level of October, 1948, and revenue passenger mileage dropped 19.4 p.c. Total pay roll at \$16,459,444 was only some \$50,000 under the same month of the preceding year. The number of employees increased 2.5 p.c. from 68,724 to 70,282. The ratio of operating expenses to revenues climbed to nearly 84.2 p.c. compared with 79.8 p.c. one year earlier.
