The leading Canadian railways had operating revenues of \$72,221,742 during July, off 2.4 p.e. or \$1,750,158 from the same month last year. This is the first month of the current year which failed to surpass the corresponding period of 1948 and the decline in freight revenues of \$4,566,509 or 7.7 p.c. to \$52,550,715 was responsible for the advarse reading. Passenger revenues improved 11.3 p.c. to \$10,219,550, or by \$1,040,061 over the preceding July, mail receipts gained some \$55,000, express nearly \$700,000 or 29.4 p.c. above the similar month of 1948, and all other account registered an advance of \$678,561 or 21.6 p.c. Water line revenue was off 10.2 p.c. to \$525,280 for the month.

Operating expenses at \$68,655,596 were considerably reduced from the \$78,472,583 shown in July, 1948, accounts which, however, contained over \$10 million of retroactive wage increases. All items except traffic were lighter this July, maintenance of way and structures dropped 11.2 p.c. to \$15,943,652, while maintenance of equipment charges eased 7.7 p.c. at \$15,671,157. Transportation charges were some \$32,455,000 compared with \$38,952,000 one year earlier. The heavy wage disbursements of July, 1948, naturally affect the month-to-month comparisons, but net operating revenues in the period under review were \$5,666,146 against a deficit of \$4,500,685 in the previous July. Tax accruals climbed \$247,671 to \$1,545,518, while hire of equipment recuired \$217,556 mora at \$1,270,434. Joint rents were up slightly. The net result was that operating income which had been a debit of \$7,016,397 in July, 1948, improved to a credit of \$582,756 and a considerable gain over the pittance of \$92,625 reported for June this year. This credit of \$582,756, unfortunately, was only about one tenth of the minimum required to meet monthly interest charges on railway debt and compares with operating income of \$6,026,194 in July, 1947, \$6,899,294 in 1946, and the record of \$15,218,053 established for July in 1944. The 1939 July credit was \$528,851 on operating revenues of only \$27,794,000 compared with the current \$72,222,000.

For the first seven months the deficit in operating income was some \$812,000, which should disappear before the impact of higher freight rates granted for the closing quarter of the year, as well as the usual credits on August to December operations.

Revenue freight carried during the month grossed 11,775,651 tons, down 14.5 p.c., or nearly 1,969,000 tons from the preceding July due principally to reductions in the movement of coal and forest products. Revenue ton mileage eased 11.6 p.c., while average receipts per revenue ton mile advanced from 1.291 to 1.349 cents. Passengers numbered 5,127,424, off 295,308 or 8.6 p.c. from July, 1948, but revenue passenger miles decreased only 4.5 p.c. as the average journey was 123 miles compared with 118 one year previously. Passenger mile receipts averaged 2.656 cents against 2.278 cents. Declines of 5.2 p.c. in loaded freight car miles and 7.9 p.c. in empty mileage were shown. Total pay roll was \$42,089,988 paid to 182,751 employees as against \$37,259,759 geing to 184,772 employees in July, 1948, an increase of 13 p.c. in earnings and a drop of 1.1 p.c. in mamber employed.

CANADIAN NATIONAL RAILWATS: Revenues for July at \$36,223,900 were down only \$98,900 from the similar period of 1948, with all accounts except freight registering gains. A decline of 6.2 p.c. or \$1,711,000 to \$25,933,000 was recorded in freight revenues, but passenger improved 15.1 p.c. to \$5,008,500, express climbed 16.9 p.c. to \$2,220,956, mail was up 15.1 p.c., then passenger train 44.2 p.c., and all other, some 429,814 or 24.5 p.c. Comparisons are somewhat vitieted due to the inclusion of retroactive pay entered for July, 1948, as well as Newfoundland revenues and expenses for the month under review. Operating expenses are givan as \$56,004,934 compared with 45,427,956 one year earlier, with all accounts reduced. Not operating revenue shows a deficit of \$581,054 for July as against \$9,105,156 in the corrasponding period of 1948. Tax accruals advanced from \$565,254 to \$610,664 while hire of equipment rose from \$298,997 to \$565,855. Operating income was thus a debit of \$1,557,927 compared with one of \$9,962,618 in the preceding July, which total, however, embraced \$10,125,000 of retroactive pay for March 1 to June 50, indicating that some revenue had been available from the month's operations. Newfoundland eccounted for an estimated \$855,000 in revenues and \$1,60,000 in operating expenses during the current July, s loss of some \$515,000 to which must be added tax accruals and probably other expenses. Revenue freight ex Newfoundland totalled 4,995,897 tons, off 12.9 p.c. from the tonnage of 5,755,664 carried in July, 1948. Ton miles eased 10.6 p.c. Revenue passengers were 1,661,597, down 168,037 or 9.2 p.c. in the same comparison, but revenue passenger receipts averaged 2.609 cents par mile against 2.185 cents. Loaded freight car miles dropped 5.6 p.c., while empties were hauled 11.4 p.c. fewar miles, the decline in empty mileage having been 4,189,925 miles, and in loaded freight or miles 4,665,145 miles. Total pay roll for the nine provinces was \$22,846,446 paid to 99,970 employees compared with \$20,275,895 to

CANADIAN PACIFIC RAILWAY COMPANY: Operating revenues were fairly well maintained during July and the recession from the corresponding month of 1948 was limited to 1.2 p.c. or \$565,587. Total revenues were \$29,251,121 compared with \$29,816,708 one year earlier. Freight at \$21,379,720 declined 7.2 p.c. from \$25,058,262, but passenger revenues gained 9.5 p.c. over the preceding July to \$4,571,466. Exprass raceipts showed a considerable advance from \$267,695 to \$718,952 for the month but the July, 1948, net had been deflated by retroactive wage payments of some \$589,000. Mater line and mail revenues were off while the "all other" item increased by \$253,429 to \$1,343,222 in the peried under review. Operating expenses for the month were \$26,612,795, down 5 p.c. from July of last year. Maintenance of way and structures required \$6,266,178 compared with \$6,856,851. The deferred maintenance share was \$500,000 as against \$250,000 in the corresponding month of 1948. Maintenance of equipment charges at \$5,000,155 were down only 1.1 p.c. with \$250,000 of deferred maintenance shown in each year. Traffic account was beavier but transportation expenses receded 5 p.c. from some \$12,667,000 to \$12,281,000. Miscellaneous and general expenses increased moderately. Not operating revenue was \$2,658,528 for the month, but tax accruals rose \$275,449 to \$682,689 and both hire of equipment and joint rents required more this July. The resulting operating income at \$1,701,295 was down \$65,719 from the \$1,765,012 shown for July lest year. The tonnage of revenue freight recaded 15,7 p.c. to 4,051,145 tons, a decline of 751,359 tons from the corresponding month one year ago, while ton miles were down 12.5 p.c. Passengers totalled 1,185,969, a movement of 7.8 p.c. or 100,475 below the preceding July, although average journey increased from 186 to 141 miles and revenue passenger mileage thus showed a decline of some 4.1 p.c. Dacreases of 4.7 p.c. and 5.5 p.c. respectively were shown in loaded freight car miles and empty car miles. Total pay ro
