Price: \$2.00 per year

## RAILWAY OPERATING STATISTICS

MAY, 1962

Financial details of railways operating in Canada are available for publication on a more current basis than operating statistics. Consequently, included in this report, are May financial and April operating results of class 1 and 2 roads, (the C.N.R., C.P.R. and other carriers having average gross revenues of \$500,000 or more annually). Excluded from these data are details of class 3 and 4 roads (those with operating revenues of less than \$500,000) whose operations represent about one per cent of all common carrier railways.

### Financial Statistics

Railway operating revenues during May 1962 increased 0.9 per cent to \$99,260,458 from \$98,334,439 in the corresponding month of 1961. Operating expenses, on the other hand, declined 1.1 per cent to \$94,318,905 from \$95,357,461 leaving a net operating income of \$4,941,553 as compared with \$2,976,978 in the previous year.

The Canadian National Railways reported a 5.5 per cent increase in operating revenues to \$49,370,837 from \$46,818,285, and operating expenses rose 1.3 per cent to \$48,119,645 from \$47,512,653. As a result, a net operating income of \$1,251,192 was recorded in contrast to a deficit of \$694,368 in May 1961. The Canadian Pacific Railway Company reported a 9.8 per cent drop in operating revenues to \$36,903,134 from \$40,900,195. The latter figure has been restated to include May 1961 interim payments relating to the Royal Commission on Transportation. Operating expenses of the C.P.R. fell 6.7 per cent to \$34,977,559 from \$37,501,269 and the net operating income totalled \$1,925,575 compared with \$3,398,926 in May 1961.

Rail operating revenues, comprising railway, express, commercial communications and highway transport (rail) services increased 1.6 per cent to \$109,997,277 from \$108,212,398 one year earlier. Operating expenses were down slightly to \$104,242,832 from \$104,537,457 resulting in a net operating income of \$5,754,445 as compared with \$3,674,941 in May 1961.

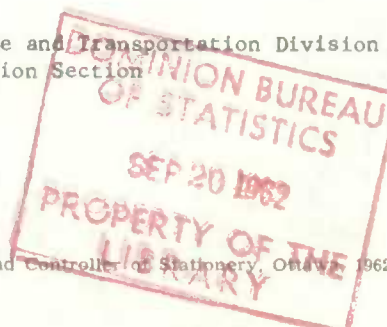

### Operating Statistics

Revenue freight carried during the month of April, excluding traffic handled by more than one road, rose 1.7 per cent to 13,030,271 tons from 12,815,643, while the number of ton-miles dropped to 5,021,044 from 5,389,329. The average length of haul fell to 385 miles from 421 while the average revenue per ton-mile increased to 1.487 cents from 1.473. Revenue passengers carried declined to 1,454,875 from 1,491,486 and passenger-miles increased to 144,765,000 from 131,949,000. The average passenger journey rose to 100 from 88 while the average revenue earned per passenger-mile dropped to 3.117 cents from 3.286.

The April 1962 ratio of railway operating expenses to revenues rose to 103.65 per cent from 99.34.
