## PREFACE

The statistics of Electric Railways of Canada include the statistics of all street railways and interurban electric railways in Canada and are compiled from returns made by the several railways in accordance with the provisions of the Railway Act (9-10 George V, Chapter 68), and the Statistics Act, 1918 (8-9 George V, Chapter 48). These returns are certified under oath as correct by the comptrollers or other officers of the companies.

INTRODUCTION AND SUMMARY

Electric railways in Canada were also affected by the business depression in 1930, only 5 out of 53 railways showing increased earnings and 13 of them failing to earn operating expenses as against 9 reporting losses in 1929.

During the year the railways carried 792,701,493 passengers, which was a decrease from 1929 of 44,028,358 passengers, or 5·3 per cent. The traffic in Montreal decreased by 11,818,076 and in Toronto by 3,142,337 passengers. These two systems carried 56·6 per cent of the total passengers, but their decreases amounted to only 34·0 per cent of the total decrease. The British Columbia Electric Railway showed a decrease of 2,146,391 passengers and the Winnipeg Electric a decrease of 7,241,333 passengers. These two systems carried 16·3 per cent of the total passengers and their decrease was 21·3 per cent of the total.

Of the electric railways carrying ten million passengers or more, which were 12 in number and carried over 90 per cent of the total passengers, only one, the Nova Scotia Light and Power Company in Halifax, showed an increase over 1929. The Sandwich, Windsor and Amherstburg railway, operated as the Essex Division of the Hydro-Electric Railways, showed a decrease of 3,424,157 passengers, or 20·4 per cent, and the net result for these 12 systems was a reduction of 33,050,439 passengers, or 4·4 per cent. There were 15 railways carrying between two and ten million passengers each in 1929. These 15 railways carried 59,546,265 passengers in 1930 which was a decrease of 5,706,086 passengers, or 8·7 per cent, compared with 1929. The remaining 26 railways, which carried only 2·2 per cent of the total traffic, showed a decrease of 5,271,833 passengers, or 23·5 per cent, and 6 of them ceased operating during the year.

The Chatham, Wallaceburg and Lake Erie, which had partially ceased operation the previous year, ceased all operation on March 1, 1930. The Kingston, Portsmouth and Cataract railway had a serious fire destroying practically all its rolling stock and it ceased operation on March 1. The Niagara, Welland and Lake Erie ceased operation on June 30, the Toronto Radial, operated by the Toronto Transportation Commission, also ceased operation on March 15, the Pictou County Electric Company substituted buses for electric cars and removed their tracks, and the Calais Street Railway did not operate during the year. With some small increases the net decrease in track mileage was 130·09 miles, which was by far the largest mileage withdrawn in any year.

Gross revenues of all electric railways amounted to \$54,719,259, as against \$58,268,980 in 1929, and net operating revenues amounted to \$15,593,744, as against \$18,183,840 in 1929. After paying taxes and other deductions from income, 22 railways showed deficits amounting to \$1,066,087 and 31 railways showed a profit of \$11,073,164, making the total net income \$10,-007,077. Reserves and special charges amounted to \$6,764,556 and 7 railways paid dividends amounting to \$3,402,261, as against dividends of \$3,325,248 paid in 1929. The total number of employees was reduced from 18,801 in 1929 to 18,340 and the salaries and wages amounted to \$26,954,994, or a decrease of \$29,117.

During the year 8 passengers, 26 pedestrians, 18 motorists, 2 persons riding in other vehicles, 6 employees and 4 other persons were killed in electric railway accidents. This was a total of 64 fatalities as against 103 in 1929. Only one person was electrocuted, 52 were killed in collisions and 11 died from other causes. The number of persons injured also showed a decrease from 5,380 in 1929 to 5,062. These included 2,790 passengers, 471 pedestrians, 342 persons riding in motor vehicles, 16 persons riding in other vehicles, 149 motormen and conductors, 16 motor bus drivers and conductors, 838 other employees and 440 other persons, the last two items including some of the other classes which were not distributed by the railways. Thirty-five of the railways had no fatal accidents and ten reported only one each. The Brandon Municipal, Brantford Municipal, Cornwall Street Railway, Light and Power Company, Nelson Municipal, Sarnia Street, Shawinigan Terminal and Sudbury and Cooper Cliff Suburban railways reported no accidents during the year. The Sarnia Street railway operated only part of the year, but the other six railways operated throughout the year.

The data for the Montreal Tramways, which operates on a cost-of-service agreement with the city of Montreal, have been adjusted in this report to make the accounts comparable with those of other railways.

## PREFACE

La statistique des tramways électriques canadiens, embrassant aussi bien les tramways urbains que les réseaux suburbains, est compilée sur les données des rapports officiels des différentes compagnies, conformément aux dispositions de la loi des chemins de fer (9-10 George V, chap. 68) et de la loi de la statistique de 1918 (8-9 George V, chap. 43), l'exactitude desquels rapports est affirmée sous serment par les contrôleurs ou autres fonctionnaires des différentes compagnies.

R. H. COATS,  
*Statisticien du Dominion.*

BUREAU FÉDÉRAL DE LA STATISTIQUE,  
OTTAWA, 18 août 1931.

Chef de la Section des Transports et Utilités Publiques: G. S. WRONG, B.Sc.

### INTRODUCTION ET SOMMAIRE

Les tramways électriques au Canada se sont aussi ressentis de la dépression commerciale de 1930, 5 seulement des 53 réseaux indiquant un accroissement de recettes et 13 n'ayant pas gagné assez pour couvrir leurs frais d'exploitation, tandis que 9 ont déclaré des pertes en 1929.

Au cours de l'année, les tramways ont transporté 792,701,493 voyageurs, soit une diminution depuis 1929 et 44,028,358 ou 5·3 p.e. Le trafic dans Montréal a diminué de 11,818,076 voyageurs et dans Toronto, de 3,142,337. Ces deux réseaux ont transporté 56·6 p.c. du total des voyageurs, mais leur diminution de trafic ne représente que 34·0 p.c. de la diminution totale. La Colombie Britannique accuse une diminution de 2,146,391 voyageurs, cependant qu'il y en a eu 7,241,333 de moins à Winnipeg. Ces deux réseaux ont transporté 16·3 p.c. du total, leur diminution étant de 21·3 p.c.

Des 12 réseaux électriques transportant dix millions ou plus de voyageurs et contribuant plus de 90 p.c. du total, un seul, la Nova Scotia Light and Power Company, d'Halifax, rapporte une augmentation sur 1929. Le Sandwich, Windsor and Amherstburg Ry., exploitée comme la division d'Essex des chemins de fer hydroélectriques, accuse une diminution de 3,424,157 voyageurs, ou 20·4 p.c., la diminution nette pour ces 12 réseaux étant de 33,050,439 voyageurs, ou 4·4 p.c. Il y avait 15 réseaux électriques transportant de deux à dix millions de voyageurs chacun en 1929; en 1930, ils ont transporté 59,546,265 voyageurs, soit une diminution de 5,706,086, ou 8·7 p.c., comparativement à 1929. Les autres 26 réseaux, qui n'ont transporté que 2·2 p.c. du trafic global, indiquent une diminution de 5,271,833 voyageurs, ou 23·5 p.c.; six de ces réseaux ont dû cesser leurs opérations.

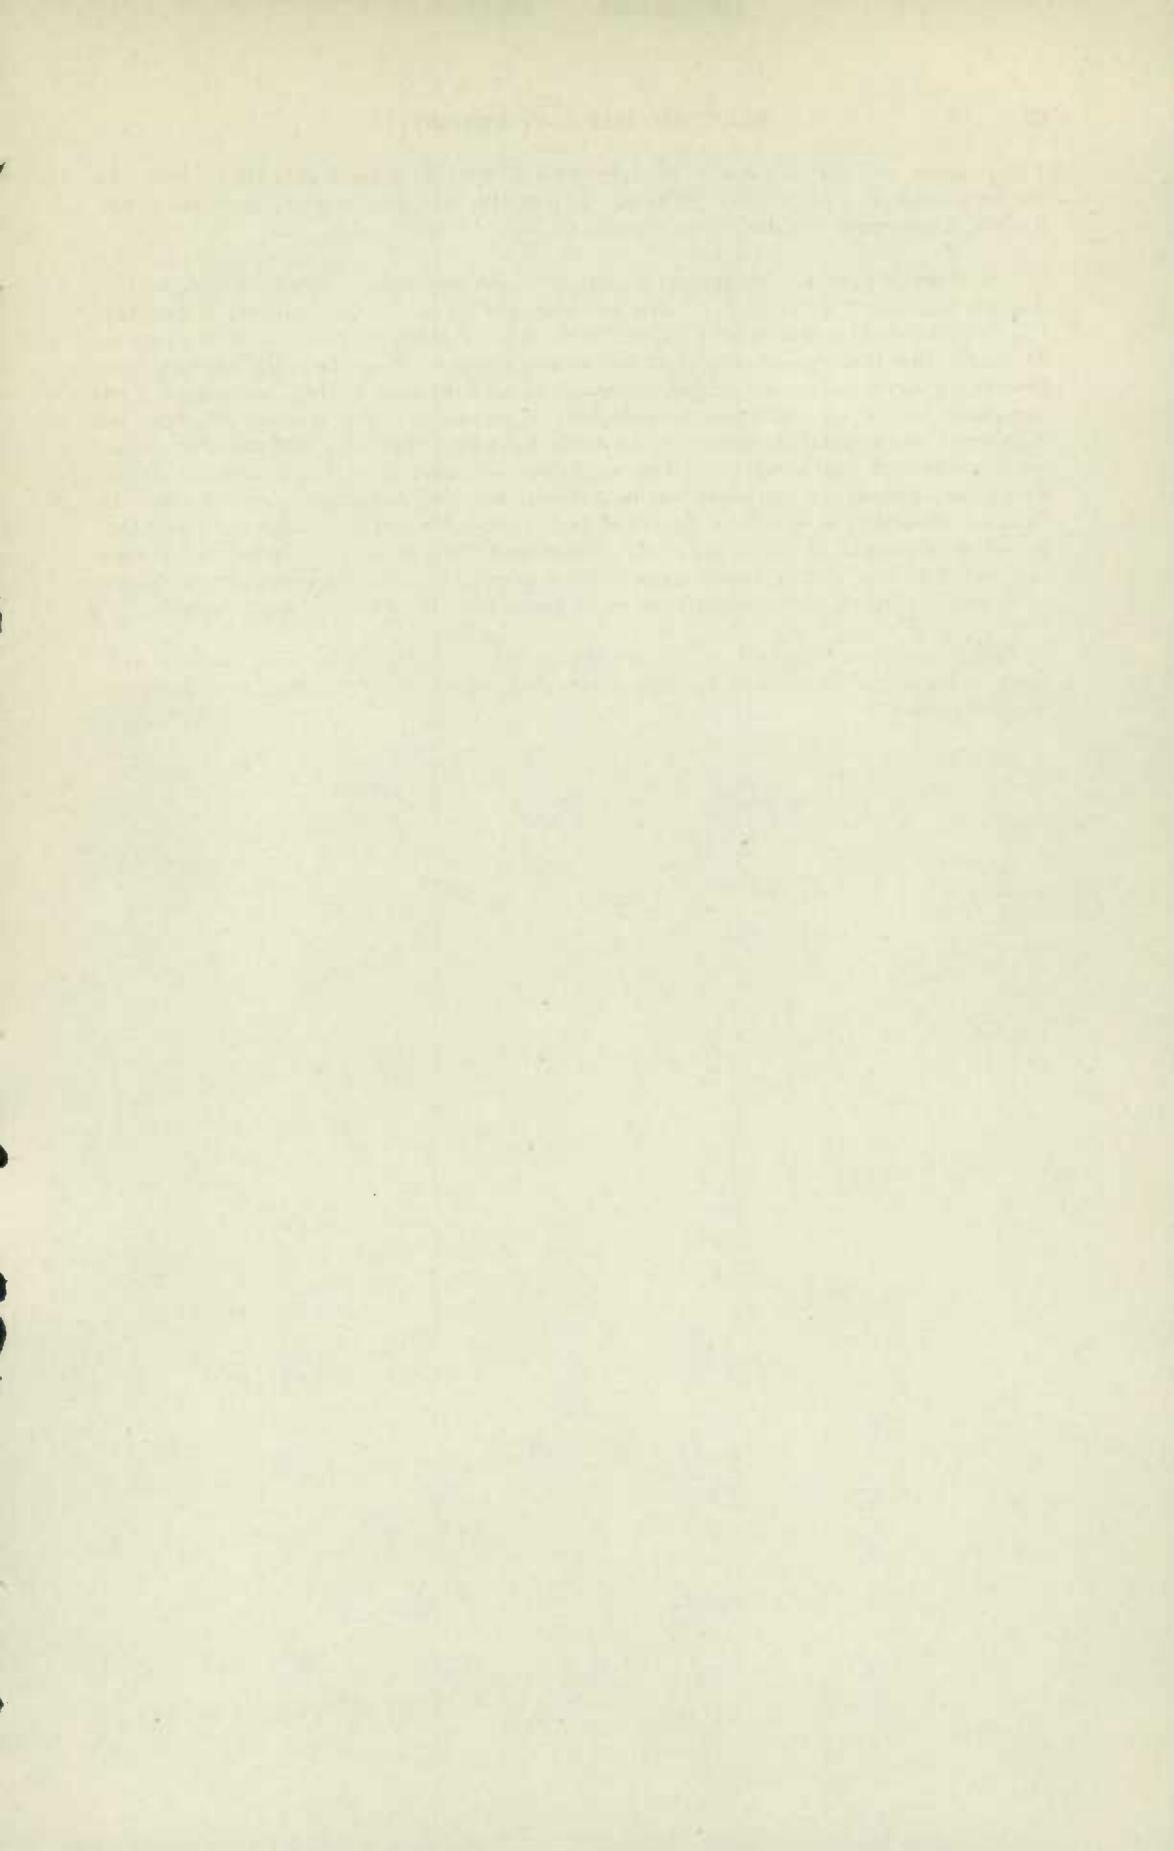

Le Chatham, Wallaceburg et Lake Erie, exploité en partie seulement l'année précédente, a dû cesser complètement le 1er mars 1930. Le Kingston, Portsmouth et Cataraqui Ry. a perdu presque tout son matériel dans un incendie sérieux et n'a pas été exploité depuis le 1er mars. Le Niagara, Welland and Lake Erie a cessé tout trafic le 31 juin; le Toronto Radial, exploité par la Toronto Transportation Commission, ne circule plus depuis le 15 mars; la Pietou County Electric Company a substitué des autobus à ses voitures électriques et enlevé ses voies; le Calais Street Ry. n'a pas été exploité de l'année. Quoiqu'il y ait eu de légères additions, la diminution nette de parcours en voies exploitées a été de 130,09 milles, la plus considérable en n'importe quelle année.

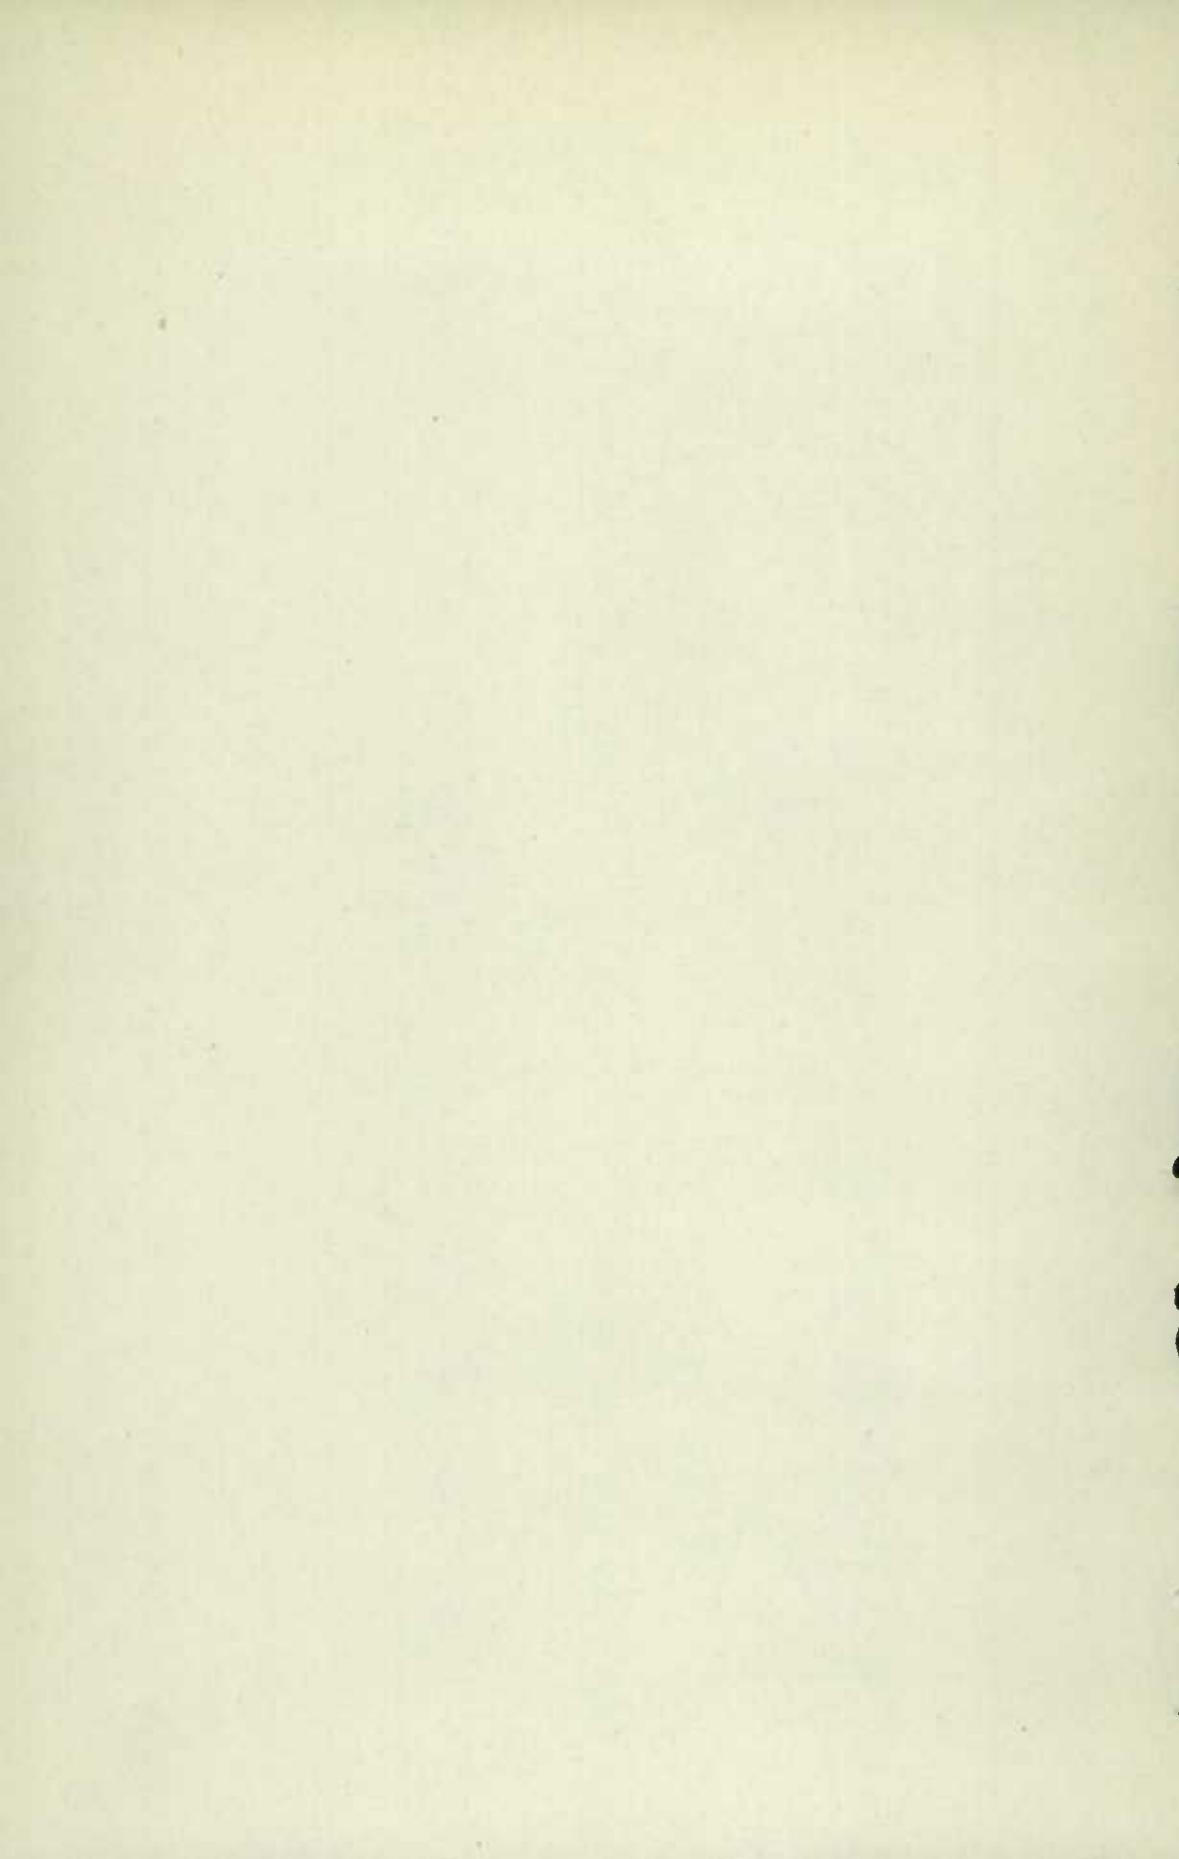

Les recettes brutes des tramways électriques se totalisent à \$54,719,259 contre \$58,268,980 en 1929; les recettes nettes d'exploitation étant de \$15,593,744 contre \$18,183,840 en 1929. L'impôt payé et toutes autres déductions faites du revenu, les déficits accusés par 22 réseaux s'élèvent à \$1,066,087 cependant que 31 ont fait un profit global de \$11,073,164, les recettes nettes se totalisent à \$10,007,077. Les réserves et les charges spéciales montent à \$6,764,556;

7 compagnies ont payé des dividendes s'élevant à \$3,402,261, contre \$3,325,248 en 1929. Le nombre d'employés a été réduit de 18,891 en 1929 à 18,349; les salaires et gages, au chiffre de \$26,954,994, représentant une diminution de \$29,117.

Au cours de l'année, 8 voyageurs, 26 piétons, 18 automobilistes, 2 personnes voyageant en d'autres véhicules, 6 employés et 4 autres personnes ont été tués en des accidents de tramway. C'est un total de 64 accidents fatals contre 103 en 1929. Une seule personne a été électrocutée, 52 ont été tuées dans des collisions et 11 sont mortes d'autres causes. Le nombre de personnes blessées a aussi été moins considérable, diminuant de 5,380 en 1929 à 5,062, comprenant 2,790 voyageurs, 471 piétons, 342 personnes voyageant en automobile, 16 en d'autres véhicules, 149 passagers et conducteurs, 16 conducteurs d'autobus, 838 autres employés et 440 autres personnes, ces deux derniers item comprenant d'autres classes non mentionnées par les chemins de fer. Trente-cinq réseaux ne rapportent aucun accident; dix n'en rapportent qu'un chacun. Le Brandon Municipal, le Brantford Municipal, le Cornwall Street Ry., la Light and Power Co., le Nelson Municipal, le Sarnia Street Ry., Shawinigan Terminal et les Sudbury and Copper Cliff Suburban Rys. n'ont rapporté aucun accident pendant l'année. Le Sarnia Street Ry. n'a été exploité qu'une partie de l'année, mais les six autres sont en exploitation toute l'année.

Les données des tramways de Montréal exploités au coût-du-service, selon l'entente avec la cité de Montréal, ont été compilées dans ce rapport en vue d'une comparaison avec les compagnies d'autres tramways.
