RAILWAY TRANSPORT

1958

PART IV

(Operating and Traffic Statistics)

Passenger and Freight Traffic

The number of passengers carried by railways operating in Canada during 1958 declined 6.9 per cent to 21,376,438 from 22,965,974. Passenger miles fell off to an even greater degree dropping 15.0 per cent to 2,485,860,569 from 2,925,132,819. As a result, the average passenger journey declined to 116 miles in comparison with 127 in 1957.

The volume of revenue freight traffic moved by rail in Canada, measured in ton-miles decreased 6.6 per cent to 66,356,829,403 in 1958 from 71,047,229,093 a year earlier. Revenue freight tonnage, comprised of loadings and receipts from Canadian and United States rail connections, dropped sharply to 174,283,123 from 197,009,823 tons, or by 11.5 per cent. The 1958 total included 20,758,175 tons (22,846,795 in 1957) handled by more than one road. The effects of the decline in freight traffic were partially offset by an increase in the average length of haul which rose to 381 miles from 361. Gross ton-miles performed by freight train cars, totalled 146,070,104,340 in 1958, down 6.6 per cent from 156,434,901,212 in 1957. Train hours run in freight service numbered 3,516,971 in contrast to 4,137,107.

Passenger Car Mileage

The total passenger car miles travelled in revenue service during 1958 amounted to 382,340,605, down 6.6 per cent from 409,175,053 in the previous year. Of the 1958 car mile total, 24,307,734 (24,729,373 in 1957) were performed in freight trains and 358,032,871 (384,445,680) were run in passenger trains. Comparable car mileages registered by the various classes of passenger cars during 1958 and (1957) were as follows: motor unit car, 10,720,543 (7,853,746); coach, 86,489,207 (95,009,957); sleeping, parlour and observation, 103,902,607 (116,148,086); dining,

15,516,369 (17,072,305); express, 89,532,671 (95,632,766); other head end, 73,549,223 (74,756,728); and other passenger train cars, 2,629,985 (2,701,465). An additional 59,209, (93,342) passenger train car miles were performed in company or work train service.

Freight Car Mileage

Freight car miles in transportation service totalled 3,328,742,389 in the year under review, down 6.1 per cent from 3,545,191,958 in 1957. Of the 1958 total 2,130,503,548 or 64.0 per cent were loaded freight car miles; 1,128,617,354 or 33.9 per cent were run empty and 69,621,487 or 2.1 per cent were performed by cabooses. In comparison, the 1957 breakdown shows 2,265,554,989 or 63.9 per cent car miles loaded; 1,201,033,407 or 33.9 per cent empty; and 78,603,562 or 2.2 per cent were run by cabooses.

Train and Locomotive Mileages

The total number of train miles run in both freight and passenger service during 1958 was 109,201,276, a decline of 8.7 per cent from 119,621,802 a year earlier. The 1958 figure comprised 68,655,533 miles run by freight trains and 40,545,723 by passenger trains. This compares with 77,991,848 and 41,629,954 freight and passenger train miles, respectively, in 1957. Locomotive miles (exclusive of switching) numbered 106,642,611, down 11.1 per cent from 119,950,102. In 1958, miles performed by steam powered locomotives declined 52.7 per cent to 21,633,965 from 45,770,125, while diesel locomotive miles increased 14.7 per cent to 84,730,794 from 73,880,561. Miles run by other types of motive equipment numbered 277,852 as against 299,416 in 1957. Locomotive miles in train and yard switching operations totalled 5,177,898 (6,209,415 in 1957) and 27,587,877 (29,860,565), respectively.

October 23, 1959.
